

Star Guitar

Have an adult help with this project.

1

Gather supplies

- Tissue box
- Cardboard tube
- Different-sized rubber bands for different sounds!
- Scissors
- Paint - hot pink, blue, purple, yellow
- Construction paper
- Paintbrush
- Popsicle sticks (painted purple)
- Glue
- Pom poms
- Decorative tape
- Character + star stickers

2

Paint

Remove the plastic from the opening of the tissue box and paint it yellow. Next, paint the cardboard tube blue. Let dry.

3

Cut

Cut an "H" shape in one end of the box slightly smaller than the tube. Insert the tube into the box and secure with glue.

4

Add star

Cut a pink star-shape larger than the tissue box. Cut a hole in the middle of the star that is bigger than the tissue box hole. Glue it to the tissue box.

5

Add Strings

Add the rubber bands for our guitar strings. Stretch the rubber bands around the box, moving them over the opening in the guitar body.

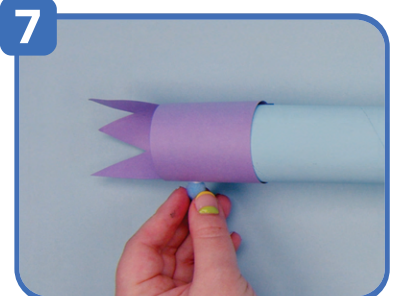

6

Tuning help

Glue two purple popsicle sticks together to make them twice as thick. Then slide them under the strings and glue them down. Repeat for top and bottom.

7

Add

Create a crown from the purple construction paper and wrap around the top of the neck of the guitar.

8

Decorate

Time to decorate your guitar! Add pom poms, along with star stickers and stickers of your favorite friends from Little Baby Bum!
