

# CoComelon Lane Paper Squishies

1

## Gather supplies

- Colored paper
- Wide transparent tape
- Glue stick
- Scissors
- Cotton stuffing
- Small plastic bag
- Blue pipe cleaner

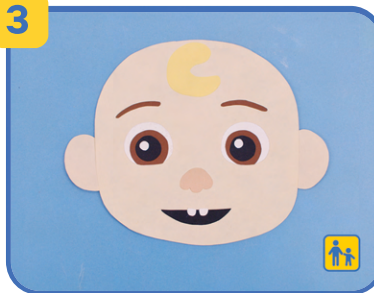

2

## Draw and cut

Using colored paper, draw a character head. On another sheet, draw and cut out details for the character face.

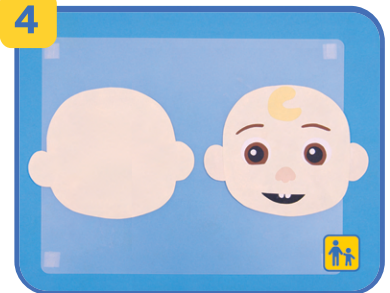

3

## Glue

Glue the features on the face.

4

## Make back pattern

Carefully trace and cut out the back of the pattern. Set aside.

5

## Tape

Use transparent tape to cover the entire cutout in horizontal strips (leaving an opening at the bottom to put in stuffing!). Repeat process for the back pattern.

6

## Tape together

Seal the the back and front together with small tabs of tape. Leave the bottom edge open for now.

7

## Stuff

Stuff the cotton into the plastic bag. Place the bag inside the open slot of the JJ squishy.

8

## Seal

Seal the bottom with tape.

9

## Squish and repeat!

It's time to play with your JJ Squishy! Now use the same steps to create other CoComelon characters.
