

# StoryBots Learning Puzzle

## 1 Gather Supplies:

- Two equal-sized pieces of cardboard (approximately 8"x10")
- Pencil and eraser
- Box cutter or craft knife
- Acrylic paints in rainbow colors, **plus** white, navy, gray, black, and hot pink
- Detailed tip paint brush
- Black fine tip marker
- Assorted colored pom poms
- Hot glue gun

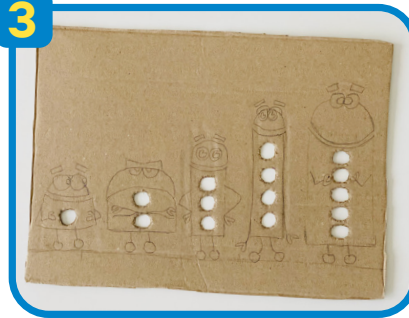

2

### Draw the Characters

Draw the five StoryBots characters equally spaced on one piece of cardboard in pencil. Draw circles in the center of their bodies representing how many pom poms you would like to place on them. Make sure the hole is the size of your pom pom.

3

### Cut Circles Out

Cut out the circles using a box cutter or craft knife.

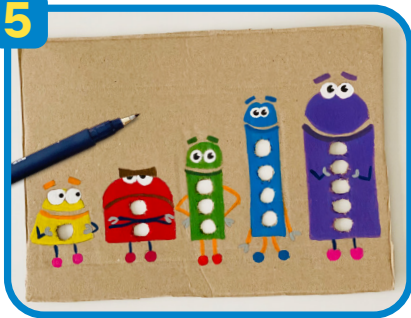

4

### Paint the Characters

Paint the StoryBots characters using a detailed tip paint brush. Paint the eyes white (minus the black centers). Allow to dry.

5

### Add Details

When the paint has fully dried, add the dark details using your fine tip black marker.

6

### Glue Character Sheet to Second Sheet

Hot glue the cardboard piece with the characters over the second piece of the cardboard.

7

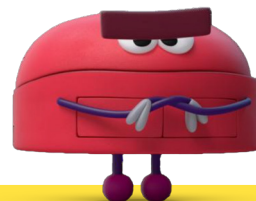

### Play and Learn!

Sort and play by pom pom color or practice counting!

Have an adult help with this project.
