on YouTube!

Gather your supplies:

- Hot Wheels Let's Race toy cars
- Picture frame
- Hot glue or hook and loop tape

TIP:

Decide where you want your cars to go on the picture frame before gluing them down

One by one, add hot glue or the soft side of hook and loop tape to the bottoms of your Hot Wheels Let's Race toy cars.

Secure the cars to the picture frame. If you used hook and loop tape, add strips of the hook side to your frame before attaching your cars.

Add your favorite family photo and share it with your friends!

Ask an adult to help you with this project
