

NETFLIX Family

DIY Upcycled Collage Holiday Card

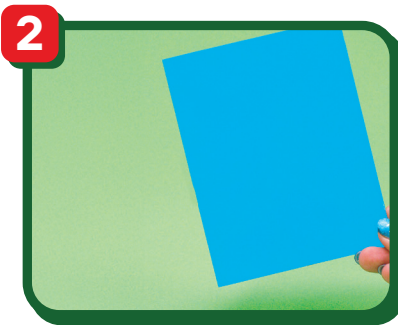

Supplies

- Blank cardstock or pre-folded cards
- Recycled wrapping paper scraps & magazines
- Scissors
- Glue stick
- Markers or pens
- Embellishments - stickers, glitter, ribbons, etc.

1 Gather Materials

Collect Netflix Family magazine, wrapping paper, or any decorative paper. Look for festive colors, patterns, and images.

2 Choose Your Card Base

Choose your blank cardstock or pre-folded card.

3 Cut Out Images

Browse through your materials and cut out images, patterns, or shapes that inspire you. You can cut out holiday-themed images like Christmas trees, ornaments, and snowflakes.

4 Plan Your Layout

Before gluing, arrange the cutouts on your card to see how they fit together. Play around with different placements until you find a design you like.

5 Glue Down the Cutouts

Once you're happy with the layout, start gluing the cutouts onto the card.

6 Add Personal Touches

Write a message inside the card using markers or pens. You can also add additional embellishments on the front, such as stickers, glitter, or ribbons, for extra flair.

Ask an adult to help with this project.
