

# Contents

<i>Foreword</i>		xvii
<i>Preface</i>		xix
<i>Acknowledgments</i>		xxiii
<b>part I</b>	<b>Foundational Considerations</b>	1
chapter 1	Introduction	3
chapter 2	Technology for Conflict Creation, Prevention, and Resolution	11
	A. Innovation Paradox	11
	B. Technology as the Fourth Party in Dispute Prevention and Resolution	14
	C. Humans In, On, or Out of the Loop	16
	1. Understanding “the Loop”	16
	2. In the Loop: Humans in Ultimate Control in Dispute Resolution	19
	3. On the Loop: Human and AI Collaboration	20
	4. Out of the Loop: AI Takes the Wheel	21
	5. Humans in the Loop in Dispute Resolution	23
	6. Technology and Access to Justice	25
chapter 3	Technological Tools in the Problem-Solving Toolbox	31
	A. CMC: Text and Video Communication	32
	1. What Is CMC?	32
	2. What Can CMC Be Used for in Dispute Resolution?	35
	B. General Generative AI – Copilot, Gemini, GPT, etc.	39
	1. What Is Generative AI?	39
	2. What Can Generative AI Be Used for in Dispute Resolution?	44
	C. Legal Retrieval-Augmented Generation	45
	1. What Are Legal RAGs?	45
	2. Examples of Legal RAG Systems	47
	3. What Can Legal RAGs Be Used for in Dispute Resolution?	50
	D. Rule- and Case-Based Systems – Expert Systems	52
	1. What Are Rule- and Case-Based Systems?	52
	2. What Can Expert Systems Be Used for in Dispute Resolution?	53
	E. Natural Language Processing (NLP)	54
	1. What Is NLP?	55
	2. What Can NLP Be Used for in Dispute Resolution?	55

	F. Optical Character Recognition (OCR)	58
	1. What Is OCR?	58
	2. What Can OCR Be Used for in Dispute Resolution?	59
	G. Metaverse	59
	1. What Is Metaverse?	59
	2. How Can Metaverse Be Used in Dispute Resolution?	60
	H. Blockchain	61
	1. What Is Blockchain Technology?	61
	2. How Can Blockchain Be Used in Dispute Resolution?	62
chapter 4	<b>Theories of Conflict, Conflict Resolution, and System Design</b>	65
	A. Theories of Conflict	66
	B. Theories of Conflict Resolution	70
	1. Models of Conflict Resolution	70
	2. Negotiation	71
	3. Third-Party Intervener	72
	4. Disputant Preferences	73
	C. Theories of System Design	75
	1. Guiding Principles	77
	2. Guiding Principles for Dispute System Design	79
	3. Goal of System Design: Justice	79
chapter 5	<b>Dispute System Design</b>	81
	A. Analytic Framework for Dispute System Design	82
	1. Goals	84
	2. Stakeholders	88
	3. Context and Culture	89
	4. Processes and Structure	91
	5. Resources	92
	6. Success, Accountability, and Learning	93
	B. System Building Blocks: Process Options	94
	1. Understanding Process Choices	95
	2. Alternative Dispute Resolution Spectrum	96
	3. Policy Design Continuum	97
	4. Online Processes	99
	C. System Design Practice	101
	1. The Professional Designer	101
	2. Conflict Stream Assessment	103
	3. Conducting a DSD Process	104
	D. Framework Analysis Through a Technological Lens	104
part II	<b>Regulations and Ethics</b>	111
chapter 6	<b>Ethics and Soft Law</b>	113
	A. Overview	113
	B. Principles, Guidelines, and Standards	115
	1. Professional Associations	116
	2. Dispute Resolution Provider Organizations	119

	3. Expert Organizations	120
	4. Governmental Entities	124
	5. Deployers/Developers	129
	C. Ethical Principles Comparison	130
	D. From Principles to Practice	132
chapter 7	<b>Hard Law</b>	135
	A. Problems to Solve: Risks Associated with Technological Tools	135
	B. Regulatory Structure	137
	C. Examples of Adopted and Pending AI Legislation	139
	1. European Union Artificial Intelligence Act (“AI Act”)	139
	2. Australia	140
	3. Canada	142
	4. China	142
	5. India	143
	6. Japan	144
	7. United Kingdom	144
	8. United States	145
	D. Select Case Law Pertaining to AI	152
	E. Implementation and Compliance	155
<b>part III</b>	<b>Case Studies: Applying the DSD Framework and Ethical Considerations</b>	159
chapter 8	<b>OArb in Consumer Cases</b>	161
	A. What Is OArb?	161
	B. Analyzing OArb in Consumer Cases Through a DSD Lens	162
	1. Goals	162
	2. Stakeholders	163
	3. Context and Culture	164
	4. Processes and Structure	165
	5. Resources	166
	6. Success and Accountability	167
	C. Why DSD Matters in Consumer OArb	168
chapter 9	<b>California Association of Realtors (CAR) ODR</b>	169
	A. How Technology Is Used by CAR	169
	B. Analyzing CAR’s Systems Through a DSD Lens	169
	1. Goals	169
	2. Stakeholders	170
	3. Context and Culture	170
	4. Processes and Structure	171
	5. Resources	172
	6. Success and Accountability	173
	C. How DSD Matters for CAR	174
chapter 10	<b>Co-Parenting Conflict and Communication</b>	175
	A. How Technology Is Used in Family Communication Cases	175

	B. Considering Technology's Use in Family Communication Through a DSD Lens	177
	1. Goals	177
	2. Stakeholders	178
	3. Context and Culture	180
	4. Processes and Structure	181
	5. Resources	182
	6. Success and Accountability	183
	C. Why DSD Matters in Assessing Family ODR	183
chapter 11	<b>Civil Resolution Tribunal (CRT)</b>	185
	A. What Is the CRT?	185
	B. The CRT Through a DSD Lens	185
	1. Goals	185
	2. Stakeholders	186
	3. Context and Culture	187
	4. Processes and Structure	188
	5. Resources	189
	6. Success and Accountability	189
	C. Why DSD Matters in Analyzing the CRT	190
chapter 12	<b>Cyberjustice Laboratory</b>	193
	A. What Is the Cyberjustice Laboratory, and What Systems Does It Provide?	193
	B. PARLe and JusticeBot Through a DSD Lens	195
	1. Goals	196
	2. Stakeholders	196
	3. Context and Culture	197
	4. Processes and Structure	198
	5. Resources	199
	6. Success and Accountability	200
	C. Why DSD Matters for PARLe and JusticeBot	201
chapter 13	<b>E-Commerce ODR</b>	203
	A. How Do Online Marketplaces Use ODR?	203
	B. How Does DSD Apply for Consumer E-Commerce ODR?	207
	1. Goals	207
	2. Stakeholders	208
	3. Context and Culture	212
	4. Process and Structure	213
	5. Resources	214
	6. Success and Accountability	216
	C. Why DSD Matters for Consumer E-Commerce ODR	217
chapter 14	<b>Blockchain Courts/Kleros</b>	219
	A. What Is Kleros?	219
	B. How Does DSD Apply with Respect to Kleros?	221
	1. Goals	221
	2. Stakeholders	222

	3. Context and Culture	223
	4. Process and Structure	224
	5. Resources	225
	6. Success and Accountability	225
	C. Why DSD Matters for Kleros	226
chapter 15	<b>Metaverse Hearings</b>	229
	A. What Is Metaverse, and How Can It Be Used for Dispute Resolution?	229
	B. How DSD Applies for Metaverse Hearings	232
	1. Goals	232
	2. Stakeholders	234
	3. Context and Culture	236
	4. Process and Structure	237
	5. Resources	239
	6. Success and Accountability	240
	C. Why DSD Matters in Considering Metaverse Hearings	241
chapter 16	<b>Mass Arbitration Claims Under AAA Mass Arbitration Supplementary Rules</b>	243
	A. What Are the AAA Mass Arbitration Rules?	243
	B. DSD Analysis of the AAA's Mass Arbitration Rules	244
	1. Goals	244
	2. Stakeholders	246
	3. Context and Culture	248
	4. Process and Structure	249
	5. Resources	250
	6. Success and Accountability	250
	C. Why DSD Matters for Mass Arbitration	251
<b>part IV</b>	<b>Discussion and Analysis</b>	253
chapter 17	<b>Developing a Framework to Address DSD in an Age of Innovation</b>	255
	A. Lessons Learned from the Case Studies	255
	1. Considerations of AI	255
	2. Distinctions Between Private and Public Dispute Resolution Systems	259
	B. Foundational Themes for System Design and Ethical Concerns	261
	C. Data Power: Areas Ripe for Bot Resolutions and Data-Driven Analysis	265
chapter 18	<b>Conclusion</b>	273
	<i>Glossary of Technology-Related Terms</i>	281
	<i>Index</i>	287
