**notes** The product is completely bio-degradable and recyclable. Special runs available upon request.

The Company reserves the right to modify the technological features of the product in relation to market requirements.

Symbol Card is excellent for packaging, covers, postcards, brochures, promotional material, CD cases and similar applications.

**applications**

Can be used without problems with the main printing systems: letterpress, offset, blind embossing, hot foil stamping, thermography and screen-printing. For offset printing, the characteristics of the coated side are comparable to our Symbol Freelifa Satin, and the uncoated side is designed to provide good printability, also with solid colours.

**printing  
suggestions**

Good results can be expected with all the main converting process: cutting, die-cutting, scoring, glueing, varnishing and plastic lamination.
