yes	yes	yes	

Outdoor Use This coloured paper is not suited for outdoor use.

Colour Profiles Canon develops high-quality colour profiles for media / ink / printer / RIP combinations. Check availability of profiles for your printer on mediaguide.oca.com

**Processing
Guidelines**

Printing guidelines

LFM411 is compatible with ColorWave printers with Océ CrystalPoint® technology. Do not use the CDT/stacker when printing LFM411.

It is recommended to handle the media with cotton gloves. Make sure that the media does not come into contact with grease, oil, silicon, and dirt to avoid printing defects. Insert media with care in the printers. Incorrect loading can cause skewing or creasing. Allow material to adapt to room conditions for 24 hours before printing. It is recommended to calibrate the printer before printing and to make a test print. Print results will vary for different printers.

Ink/toner restrictions and printer settings have to be set for specific printers to obtain the best results. Canon colour profiles include recommended ink restrictions and printer settings for Canon supported printers.
