

# We Are Certified Carbon Negative

This is to certify that BrewDog has achieved Positive Planet Certified Carbon Negative status, by measuring and offsetting their 2022 carbon footprint while reducing their current and future carbon emissions.

Valid until: 6 November 2024

## Together for our planet

Positive Planet Certified Carbon Negative accreditation recognises the actions of **BrewDog** to measure, offset and reduce their company carbon emissions.

## Impact

Sustainable Development Goals  
In offsetting their carbon emissions by planting trees, **BrewDog** contribute to all seventeen United Nations SDG's.

### Measure

Company Carbon Footprint  
Positive Planet certify that BrewDog have measured their Scope 1, 2 & 3 carbon emissions in line with approved GHG Reporting Protocols.

**121,525 tCO<sub>2</sub>e**

2022 Company Carbon Footprint

### Offset

Nature Based Solutions  
BrewDog are funding carbon reduction and tree planting projects that provide tangible evidence of the avoidance or removal of carbon emissions from the atmosphere

**145,331 tCO<sub>2</sub>e**

2022 carbon offset purchase commitment

**120%**

Carbon offset through nature based solutions

### Reduce

Company Commitment  
BrewDog are committed to reducing their carbon emissions to become Net-Zero.

**1.2%**

Reduction in carbon emissions per hectolitre brewed in 2022

**12.5%**

Reduction in carbon emissions per hectolitre brewed since 2019
