RIGHT COLOR “be BRIGHT” | Special liquid pigments that can be used as direct, semi-permanent colors or as permanent oxidation colors, ideal for coloring, add shades, toning, and make the hair color more vivid.

How to use: 1) Direct semi-permanent color: apply on towel-dried hair, leave on for 3 to 30 minutes depending on the intensity of the desired color. Once obtained, proceed with washing. 2) Permanent oxidation color: mix with a 1:1 ratio with the oxidizing emulsion cream at 10, 20, 30 or 40vol based on the desired lightening level, coverage and intensity. Proceed with washing. Use gloves for the application.

BLUE BLEACH DECOLOR

Anti-Orange Blue Bleach decolor (500gr)

ITEMS 60500

RIGHT COLOR Blue Bleach Decolor is a blue non-volatile granular bleaching powder, that allows you to bleach your hair up to 9 tones. RIGHT COLOR Blue Bleach Decolor is an extremely innovative product that, thanks to its fast and effective action, whitens during the bleaching, eliminating brassy shades. Furthermore, its non-volatile formula avoids the inhalation, protecting professionals' health. Mixed with oxidizing cream, RIGHT COLOR Blue Bleach Decolor fast becomes a perfectly homogeneous mixture that does not disperse in the environment for a safe place to work, without irritations from powders. PROFESSIONAL USE.

DECOffeePLEX

ULTRA BLEACH WHITE POWDER (500gr)
enriched with Keratin and Caffeine.

ITEMS 60500DCP500

RIGHT COLOR DECOffeePLEX is the new non-volatile white powder bleach, ammonia free, with β -D-Fructose oligosaccharides, which provide high protection of the hair. It has been developed to bleach the hair up to 10 tones. RIGHT COLOR DECOffeePLEX's new formulation allows to obtain the maximum lightening, while keeping the hair in its natural shine and integrity. Furthermore, its non-volatile formula avoids the inhalation, protecting the health of the hairdressers. The product is enriched with Keratin and Caffeine. Keratin is a protein, a structural component of the hair, which can be defined as the cement that forms the "bricks" of the cutaneous appendages. In particular, the hair is made of hard keratins that make it elastic but resistant to traction and to exogenous agents (like UV light or hydrolysis water) at one and the same time. Keratin is added to cosmetic products to help rebuilding the hair and strengthening it from within. Caffeine has been proved to stimulate hair growth in vitro and, more importantly, to reduce suppression of follicular vitality. This component has the capacity to increase blood flow, stimulating hair growth. Suitable for all bleaching techniques. PROFESSIONAL USE.

K-omplex N°1 SERUM

Reconstructive & Protective Serum for Hair Fibres
with Keratin (300ml)

ITEMS K1RC300ML

RIGHT COLOR K-omplex N°1 SERUM it's a Keratin professional system, that has an efficient protection and reconstructive action of the hair during chemical treatments such as hair coloring, bleaching and permanent. This first phase tightens the weakened Keratin and increases the resistance to hair breakage without interfering with the chemical treatment in progress.

CHARACTERISTICS AND BENEFITS:

- Protects against hair breakage
- Strengthens exhausted tips from chemical treatments
- Rebuilds hair fibres
- Prevents hair fragility

IMPORTANT: DO NOT proceed with washing with shampoo and mask before phase 2 of K-omplex treatment.

How to use: COLORING: add one cap* of Right Color K-omplex N°1 SERUM in the coloring mix. BLEACHING: add one cap* of Right Color K-omplex N°1 SERUM every 30gr of bleaching powder. PERMANENT: add 30ml of Right Color K-omplex N°1 SERUM to 60ml of water (preferably distilled). Apply half of the mixture on the hair curlers after rinsing the neutralizer well and leave on for 5 minutes, after that remove the hair curlers. Apply and massage the remaining mixture and leave on for 5 minutes. Rinse thoroughly.

End the treatment by using Right Color K-omplex N°2 CONDITIONER. The second phase completes the efficiency of the treatment and it maximise the results.

n°1 PREPARING SHAMPOO Hydrating action (250ml)

ITEMS ILL01RC250ML

RIGHT COLOR ILLAMINATION n°1 PREPARING SHAMPOO, Hydrating action, is the first phase of the **Right Color** lamination treatment. Thanks to its alkaline pH, its main function is to prepare the scales of the hair for particularly treated and damaged lengths. **Method of use:** apply the shampoo, massaging the scalp gently, taking care not to apply too much energy and carrying the product down to the lengths. Rinse thoroughly and, if necessary, repeat with a second application.

n°2 LAMELLAR WATER Reconstructive action (250ml)

ITEMS ILL02RC250ML

RIGHT COLOR ILLAMINATION n°2 LAMELLAR WATER, Reconstructive action, is the second phase of the **Right Color** lamination treatment. The alcohol and acid pH of the formula allow reconstruction of the hair fibre on the first application. The hair will be smoother, softer and shinier. **Method of use:** apply the treatment to washed and towel-dried hair, distributing it evenly throughout the hair. Massage for about 5 minutes until emulsified. Rinse and towel-dry before moving on to laminating spray n°3. The recommended dose for a medium-length hair is 40ml.

n°3 LAMINATING SPRAY Mirror effect (250ml)

ITEMS ILL03RC250ML

RIGHT COLOR ILLAMINATION n°3 LAMINATING SPRAY, Mirror effect, is the third and last phase of the **Right Color** lamination treatment. This is a fixing and brightening spray with a repairing function. The spray finishes the treatment by closing the hair cuticles, giving the hair a precious mirror effect. **Method of use:** apply the spray to towel-dried hair, sectioning strand by strand and holding it taut with a comb. After applying to the whole hair, proceed with blow-drying and styling. Shake before use and use every 2/3 shampoo.

beLISS SMOOTHING TREATMENT [1] - [2] - [3]

[1] ALKALINE SHAMPOO PRE TREATMENT pH 8.2 (500ml)

ITEMS. BLSS1RC500ML

RIGHT COLOR beLISS [1] The alkaline shampoo opens the hair cuticles up and it prepares them for the treatment. Keratin and Hydrolyzed Silk ensure a professional result and duration, making the hair stronger and more elastic giving a healthy result. HOW TO USE: apply the shampoo on damp hair and massage. Leave the product on for 5 minutes or 10 on thicker hair and rinse with water. For an anti-frizz effect, damp the hair before proceeding with phase 2. For a perfect streightening effect, blow dry the hair with medium heat, using the hairdryer from above the head.

[2] SMOOTHING CREAM (500ml)

ITEMS. BLSS2RC500ML

RIGHT COLOR beLISS [2] The straightening cream is formaldehyde free and contains glyoxylic acid molecule, keratin, collagen, hyaluronic acid and hydrolyzed silk. It gives a straight long lasting effect and it is suitable for all hair types. HOW TO USE: apply the cream on the hair strand by strand (no larger than 0,5cm). Comb the whole head and leave the product on. After waiting time, partially remove the product with some water and proceed with a complete blow dry always keeping the hairdryer above the head with medium heat. After it is completely dry proceed with using a straightener on each strand of hair for 15 times. The product, that it's still present on the hair, will activate and protect the hair from the temperature, modifying the structure of the hair from curly and frizzy to straight and soft. After this important passage rinse thoroughly to eliminate every residue of product.

[3] REBUILDING MASK POST TREATMENT (500ml)

ITEMS. BLSS3RC500ML

RIGHT COLOR beLISS [3] The restoring mask has an acid pH of 3.5, which closes all the cuticles at the end of the treatment. It makes the hair shiny and manageable other than deleting the frizz. Hydrolyzed silk restructures the exhausted hair, making it easy to comb and significantly reducing styling time. HOW TO USE: apply the rebuilding mask on damp hair and keep on for 5 minutes. Proceed by rinsing thoroughly and end the process with a blow dry (no comb is needed).
