dormakaba to showcase expanded portfolio at ISC West 2026

INDIANAPOLIS, March 2, 2026 – Following a year of strategic acquisitions and technology investments, dormakaba North America will showcase its expanded access control portfolio at the International Security Conference and Exposition (ISC) West 2026 in Las Vegas (March 23 - 27). The company will demonstrate how its new products and service capabilities come together to support customers in high-demand environments such as healthcare, airports, and data centers.

In booth #20007, dormakaba will highlight how recent activity helps customers deploy, manage, and scale access control solutions with greater confidence and consistency. This customer-led approach is being supported by **David Fuller**, Chief Innovation Officer at dormakaba, who is responsible for advancing the company's innovation strategy and translating emerging technologies into real-world solutions for the North American market.

"Our growth is shaped by what our customers need to do next," Fuller said. "Across the access control market, we are seeing demand shift toward more connected, data-driven environments where technologies need to work together as part of a unified ecosystem. Our investments are focused on helping customers balance security, convenience, and scalability. At ISC West, we are showing how our technology and delivery capabilities work together to support our customers' efficiency as well as our own."

What this means for customers and the market

Since last year's show, dormakaba strengthened its position in high-security and critical infrastructure environments through a series of targeted investments. Many will be represented at ISC West.

- Most recently, dormakaba became a strategic investor in **SwiftConnect**. The company, its connected access network platform, and end-to-end custom integration solutions are an ideal complement to dormakaba's global access solutions business. SwiftConnect will exhibit at the Sage Security Experience Centre at ISC West.
- The acquisition of **Avant-Garde Systems** in December 2025 represents a strategic investment in dormakaba's ability to deliver and service secured entrance solutions at scale, addressing growing customer demand for partners who can ensure systems are implemented correctly and sustained over time. Avant-Garde will exhibit at booth #35061.
- In November 2025, dormakaba made a venture investment in **RealSense**, a pioneer in AI-powered computer vision, and partnered to deliver next-generation intelligent access control solutions. RealSense will exhibit at booth #20137.

- dormakaba acquired **TANlock** in July 2025 to enhance its offerings and drive further growth in the data center market, focusing on the U.S. both for new construction and retrofit projects. TANlock rack locks are a featured data center solution in dormakaba booth #20007.
- The company made a technology investment in February 2025 with **Safetrust**, a fast-growing global secure identity and access solutions company with a strong focus on North America. Safetrust will exhibit at booth #L6.

Featured solutions on display

Various products will be featured as part of dormakaba's presence at ISC West 2026.

- Now available in the market, the new **dormakaba EasyAssist™** low energy swing door operator offers smooth, barrier-free access through interior doors. Available in both transom and door leaf mounting options, EasyAssist is quick to set up and adjust with the dormakaba mobile app.
- Attendees can see live demonstrations of the **dormakaba E-Plex™ 7900 electronic lock** and its integrations with leading access control platforms, enabled by the recently launched open API.
- The **Argus Air XS** is dormakaba's latest innovation for the aviation sector, reinforcing its position as a leading partner for airports worldwide. The solution combines state-of-the-art sensor technology, biometrics readiness, and modular design in a form factor that enables seamless travel even in the most space-restricted areas of an airport.

Education and industry engagement

Beyond the booth, dormakaba subject matter experts will speak as part of the ISC West education program:

- Monday, March 23 at 2:30 PM PT: Yazmina Rawji, Relationship Manager, will participate in a panel, **Diversity Without Divisiveness: The New Allyship**. This session is a candid conversation on how to show up as an ally, create impact without division, and drive real change in the workplace.
- Wednesday, March 25 at 1 PM: Erin Wilson, Learning Strategist – Influencers, will lead a session, **Door Security & Access Control: Managing Risk at Critical Entry Points**. This introductory-level session explores how doors represent both a facility's most critical vulnerability and first line of defense.

dormakaba is also proud to provide Alvarado Argus V60 optical turnstiles, which will again welcome ISC attendees across three entrances.
