dormakaba showcases hospitality solutions designed for access, built for choice at HITEC 2025

INDIANAPOLIS, June 2, 2025 – Hospitality access solutions leader dormakaba will highlight its latest security solutions at HITEC North America 2025, the world's largest showcase of hospitality technology, June 16-19, in Indianapolis. At Booth #2005, dormakaba will display its latest product innovations and smart access technologies that enhance both hotel security and the guest experience.

"Hotels today need flexibility, seamless integrations, and the ability to meet modern guest expectations without compromising security," said Ben Brydges, Executive Vice President, dormakaba North America. "Our presence at HITEC reflects our commitment to empowering hoteliers with solutions that are secure, scalable, and compatible with the systems and partners of their choosing. With HITEC hosted this year in Indianapolis, home to our North American headquarters, it is especially meaningful to share these innovations."

Highlighted dormakaba technologies at HITEC 2025 include:

dormakaba digital wallet

dormakaba has digital room key solutions that enable hotel guests to conveniently and securely add their hotel key to their digital wallet. Guests can tap their device to unlock their room, as well as amenity locations such as the gym, spa, and business center.

dormakaba Quantum Pixel+

Compatible with digital wallet, Quantum Pixel+ is dormakaba's latest hotel electronic locking solution. It combines a sleek, minimalist design with high performance. The lock electronics are hidden within the door, while the hardware design blends in with a wide range of rose, lever, and finish options. The result is a lock design that integrates seamlessly within any hotel decor.

In addition, dormakaba will present a HITEC panel, **The Power of Choice: Reimagining Guest Experience & Hotel Operations**, on Tuesday, June 17, at 4:15 p.m. in Room 124 at the Indiana Convention Center. The session will explore how flexibility in technology and security is redefining the modern hotel experience, with insights from leading voices across the hospitality industry.

The panel will be moderated by Dr. Ceridwyn King, Department Head of Hotel and Tourism Management at Purdue University. Panelists include:

- Darien Long, Senior Vice President, Specialty Access Control Solutions, dormakaba North America
- Shannon McCallum, Vice President of Hotel Operations, Resorts World Las Vegas
- Jim Gist, Chief Advisor, Gist Advisors

- Andrew Pirret, Senior Vice President, Product, Alliants
- Andy Todd, Vice President, Digital Guest Experience & Hotel Enablement, IHG Hotels & Resorts

"Flexibility in technology is not a nice-to-have – it's essential for modern hotel operations," Long said. "By giving hoteliers more choice in how they implement secure, scalable access solutions, we are helping them adapt faster, operate more efficiently, and create seamless guest experiences that build loyalty. We welcome HITEC attendees to see and hear how we are redefining the modern hotel experience."
