TECHNIQUE EXPLANATION

C2C The Corner-to-Corner (C2C) technique of crocheting is made by starting in one corner of a Chart (typically the lower right corner) and following the Chart row by row diagonally to the other corner (typically the top left corner).

How to start your C2C Blanket

Row 1: Starting in the lower right corner of the Chart. Chain 6. DC in 4th chain from hook. DC in last two chains. You now have a chain-3 space and a total of 3 DC stitches. This completes your first square and Row 1.

LION BRAND® WOOL-EASE® C2C PENCIL BLANKET Pattern Number: M23193 WE

Row 2: Chain 6. DC in 4th chain from hook. DC in last two chains. Turn your work. At this point turning consists of just flipping over the first square. Slip stitch in the chain-3 space of the first square. Chain 3. Make 3 DC in the same chain-3 space. This completes your second two squares and Row 2.

Increase Rows The first part of the Chart is worked by making an increase at the beginning of each row. You will start each row by chaining 6, making a DC in the 4th chain from hook and then a DC in each of the remaining 2 chains, turn, and continue making squares as you have been doing (Slip stitch in chain-3 space then chain 3 and work 3 DC in the same chain-3 space).

Increase and Decrease Rows The second part of the Chart is worked by making increases on one edge and making decreases on the other edge. The number of squares in each row remains the same (even) in this part.

How to Decrease at the Beginning of a Row Slip stitch in the 3 double crochet stitches of last square made. Slip stitch in the chain-3 space of last square made. Chain 3. Make 3 DC in the same chain-3 space. Continue making squares as you have been doing (Slip stitch in chain-3 space then chain 3 and work 3 DC in the same chain-3 space).

How to Decrease at the End of a Row Make squares as you have been doing up to the last chain-3 space. Slip stitch in the last chain-3 space but do not work chain 3 and 3 DC in that last chain-3 space. Proceed with the next row.

Decrease Rows The third part of the Chart is worked by making decreases on both edges. At the beginning of each row, turn your work and slip stitch across the 3 DC's of the last square made. Slip stitch in the chain-3 space then chain 3 and work 3 DC in the same chain-3 space. Continue making squares as you have been doing (Slip stitch in chain-3 space then chain 3 and work 3 DC in the same chain-3 space). At the end of the row, end with a slip stitch in the last chain-3 space, do not work chain 3 and 3 DC in that last chain-3 space.

How to Change Colors To attach a new color you will pull the new color yarn through as you make your slip stitch in the chain-3 space. Do not fasten off the old color. Leave the strand hanging and still attached to the ball.

By not cutting your yarn each time you change colors, you will have fewer loose ends to weave in later. Just keep the balls not being used on the wrong side of your work. You can easily carry your yarn strand up from the previous row. Take the yarn strand and pull it up to your hook when you need to join that color back into your project.

When you start to have a lot of color changes, it helps to split up your skeins by winding your yarn around multiple bobbins, spools, large clothespins or even chip clips! I used large clothespins and then clipped them to the blanket when not in use so the yarn doesn't get tangled.

How to Read the Chart

Print out the 4 Charts and tape them together to form one large Chart. Start in the lower right corner and mark off each square as you go. Each square in this C2C Chart = chain 3 + 3 DC. The first square in the corner is Row 1. You will work diagonally back and forth (down one row and back up the next). So, Row 2 of the Chart will be read diagonally from left to right and Row 3 from right to left.

NOTES

- 1. Blanket is worked in two steps. First, the body of the pencil is worked using the C2C technique. Then the top of the pencil is worked directly onto top of body, back and forth in rows of double crochet.
- 2. Decreases (dc2tog) are worked at the beg and end of each row to shape top of pencil.
- 3. To change yarn when working top of pencil, work last st of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete st. Proceed with new color. Fasten off old color.

Increase Section

Note: One square is increased in each row.

Row 1 (RS): With A, ch 6, dc in 4th ch from hook, dc in next 2 ch – you will have 1 square in this row.

Row 2: With A, ch 6, turn, dc in 4th ch from hook, dc in next 2 ch, (sl st, ch 3, 3 dc) in next ch 3 sp - 2 squares.

Row 3: With A, ch 6, turn, dc in 4th ch from hook, dc in next 2 ch, (sl st, ch 3, 3 dc) in each ch-3 sp across – 3 squares.

Rows 4-24: Rep Row 3 for 21 more times – 24 squares in Row 24.

Notes: Continue to rep Row 3 AND change yarn color as instructed. Each row indicates how many squares to work using each color. For example, B x 1, A x 24, means to begin by working 1 square with B, then 24 squares with A. The small arrows at the beg of each row instruction indicate which direction the corresponding Chart row should be read in, diagonally right to left or left to right.
