STEP 5

5. Use Derwent Chromaflow Pencils to begin building up light layers of color.

Pro Tip: Resist the temptation to press hard or apply color heavily at this stage, as gradual layering is key for creating rich color and detail.

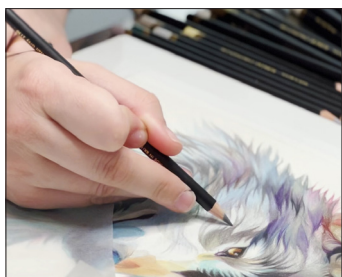

STEP 6

6. For areas of detail such as the eyes, nose, and the fur, use darker colors to sculpt and emphasize recessed areas rather than drawing in individual elements.

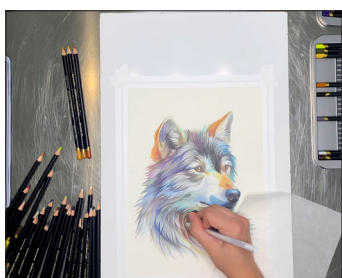

STEP 7

7. Burnish by applying one last light layer of color.

STEP 8

8. Use a sharp pencil to add fine details.

STEP 9

9. Finish by adding highlights with a white gel pen.
