

Painted Rocks

Add a splash of color to your garden! Choose rocks in different shapes and sizes, then paint them with colorful designs and inspiring words.

HOW TO MAKE IT

STEP 1

Clean and dry your rock, then paint it with gesso.

STEP 2

After the gesso is dry, draw a design on the rock with a pencil — or just start painting! Use markers to add fine details.

STEP 3

Once the paint has dried, spray the rock with gloss fixative. Let it dry between coats until you achieve the desired degree of gloss.
