

## Cupid's Arrow Valentines

Why settle for candy hearts when you can win someone's heart with these playful and stylish arrows?

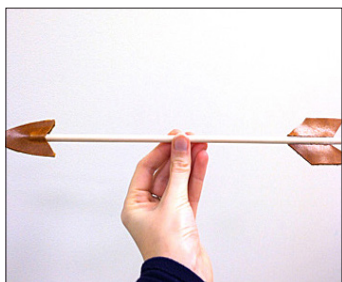

### HOW TO MAKE IT

#### STEP 1

Cut two triangles out of the leather scraps, then glue them to one end of a dowel rod.

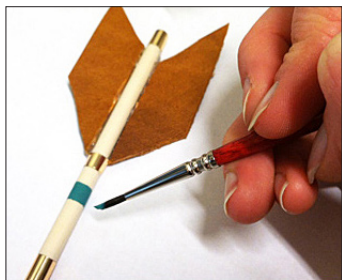

#### STEP 2

Cut two parallelograms from the leather, and line them up with the "arrow" so they're facing the same direction. Glue them to the other end of the dowel rod.

#### STEP 3

Wrap small strips of metallic tape around the dowel rod at various points to add a bit of shimmer to your arrow.

#### STEP 4

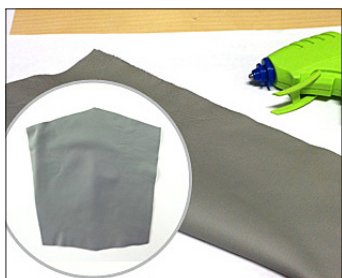

Paint stripes, dots, and other patterns on the dowel rod using Blick Matte Acrylic paints.

## Cupid's Arrow Valentines (HOW TO MAKE IT continued)

### STEP 5

Experiment with different colors and combinations! Attach a ribbon with a special message for your special someone.

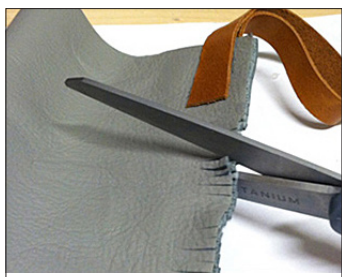

### STEP 6

To make the quiver, cut a wide hexagon measuring 9-1/2" long at the center. Fold and glue the bottom and sides 3/4" in from the edges. Leave the top open.

### STEP 7

To make the strap, cut a strip 1/2" wide by 10" long, then glue the two ends of the strip to the outside of the quiver on the short side.

### STEP 8

Use scissors to cut a fringe up to the boundary. Fill your quiver with your arrows and get ready to play Cupid!
