The Montana GLITTER 400ml has been the choice of users the world over for a high quality glitter coating that is refined and aesthetic. This medium pressure, Nitro-Combi based paint range has now been extended to five metallic colors composed from premium colored metallic pigment particles. It has a gloss finish which is delivered in a translucent paint base. The range achieves stunning effects on objects and artworks of all kinds whether you want to repaint your bike, create fine art or make greeting cards. Montana GLITTER 400ml can be applicable on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic and other paintable materials. After being applied, a thin shiny lacquer coat will show with a fine distribution of glitter particles. Montana GLITTER 400ml is light fast as well as scratch and dent resistant. Further coats will lead to a higher density of particles and intensify of the effect. We recommend shaking well before use even after short pauses in application. For extra durability finishing your project with the Montana VARNISH Gloss to enhance the metallic effect. Please consider that the achieved final result will significantly be influenced by the color and gloss level of the undercoat. The translucent paint base can easily be covered with many common lacquer types. Can be combined with Montana GOLD, Montana ACRYLIC markers and conventional acrylic paints. Now available in the colors Silver, Hologram, Dusty Gold, X-Mas Red, Amethyst and Cosmos.
