

Framed Jewelry Holder

Complete this framed jewelry holder in just three easy steps. All you need is a pretty frame, wire mesh, and a staple gun. Use a frame of any color or shape for a variety of different styles.

HOW TO MAKE IT

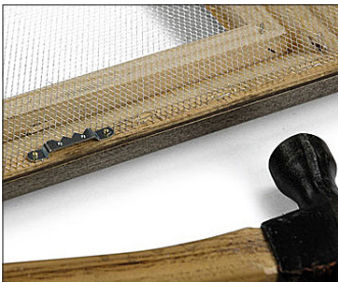

STEP 1

Center the wire mesh on the back of the frame and attach it to the frame with a staple gun.

STEP 2

Use scissors to cut the excess wire mesh from the frame.

STEP 3

Nail a sawtooth hanger to the back of the frame so it can hang on a wall.
