

Assembly Instructions

Mobile Cabinets

These Assembly Instructions are based on Model# CRB3112.

Before you begin, please make sure all parts and proper quantities are included. (See Part Identifier Key) Any parts damaged during shipment must be reported within 24 hours of receipt. To report information regarding damages or if you have any questions, please call 800.242.2303.

Step 1:

- Place cabinet on it's side on a protected flat surface.
- Align caster with the threaded inserts. (See image to the right; threaded inserts are marked in red as an example for assembly instruction ONLY.)
- Using a 4mm Allen wrench or a 4mm hex bit and a screw gun, attach caster to the cabinet with the 1/4"-20x25mm joint connector bolts.
- Repeat for the remaining casters.

Step 2:

- With someone's help, position the cabinet right side up. Make sure to have the two locking casters' levers pushed down to secure cabinet in place.

Step 3: (Skip step 3 if top is already installed)

- Place top on base cabinet aligning the threaded inserts in the top with the pre-drilled holes in the cabinet.
- Using the 1/4"-20x35mm joint connector bolts, insert the first bolt through one of the front pre-drilled holes inside of the cabinet going up into the top. Use a 4mm Allen wrench or 4mm hex bit and a screw gun to fasten the bolt into place.
- After the first bolt is fastened, proceed to the back of the cabinet, on the opposite side, to attach the second bolt.
- Repeat these steps for the remaining two sides.

Step 4:

- Wire pulls are factory installed on the inside of door to prevent damage in transit.
- Unscrew each wire pull handle using a Phillips drill bit and a screw gun.
- Reattach with wire pull on the outside of the cabinet.
- Repeat for each of the wire pulls.

Mobile REplay® Cabinet shown as an example.

Tools Required

- 4mm Allen wrench OR
- 4mm hex bit
- Phillips drill bit
- Screw gun

Part Identifier Key

Part #	Description	Qty.
