

PRIME 41

Combining 4.1 MP resolution with industry leading range, the Prime 41 measures movements to <0.1 mm—ideal for demanding character animation and 6DoF camera tracking. **\$5,999**

Resolution	4.1 MP				
Frame Rate	180 FPS				
FOV	51°				
Volume					
Range					

PRIME 17W

Delivering expansive coverage, great range and 360 FPS capture rate, the Prime 17W is perfect for tracking the entire room in a 50' × 50' setup area. **\$3,499**

Resolution	1.7 MP				
Frame Rate	360 FPS				
FOV	70°				
Volume					
Range					

PRIME 13

Prime Series performance—including sub-mm 3D precision and high-speed 240 FPS capture—within a compact and affordable package. **\$1,999**

Resolution	1.3 MP				
Frame Rate	240 FPS				
FOV	56°				
Volume					
Range					

PRIME 13W

An ultra-wide angle variant optimized for conference room sized spaces and VR applications and delivering wall-to-wall coverage in compact setup areas. **\$2,499**

Resolution	1.3 MP				
Frame Rate	240 FPS				
FOV	82°				
Volume					
Range					

FLEX 13

With 1.3 MP resolution at 120 FPS, the Flex 13 is the world's first megapixel mocap camera for under \$1k. Enjoy fantastic precision at a surprisingly affordable price. **\$999**

Resolution	1.3 MP				
Frame Rate	120 FPS				
FOV	56°				
Volume					
Range					

ESYNC 2

Prime Series Only

Synchronize Prime Series cameras to almost any signal or source with the eSync 2. Genlock to a studio master with house time code, then trigger from eSync 2 or from external devices via general purpose inputs and software commands. **\$999**

MOTIVE

Lightning fast setup, one-click subject calibration, industry leading 3D precision and low latency real time. **\$999-\$2,499**

OptiTrack™
CAPTURE YOUR VISION®

WHY CHOOSE OPTITRACK?

Precise. Easy. Affordable.

FROM THE SMALLEST TO THE LARGEST, INDOORS OR OUT

Turn your conference room into your mocap stage in just minutes with a powerful yet discreet OptiTrack system complete for under \$10k. Or install something like the largest, most precise performance capture stage in the world, powered by over 175 Prime 41 cameras and a seamless, easy to use workflow. And everything in between.

INDUSTRY-LEADING PERFORMANCE

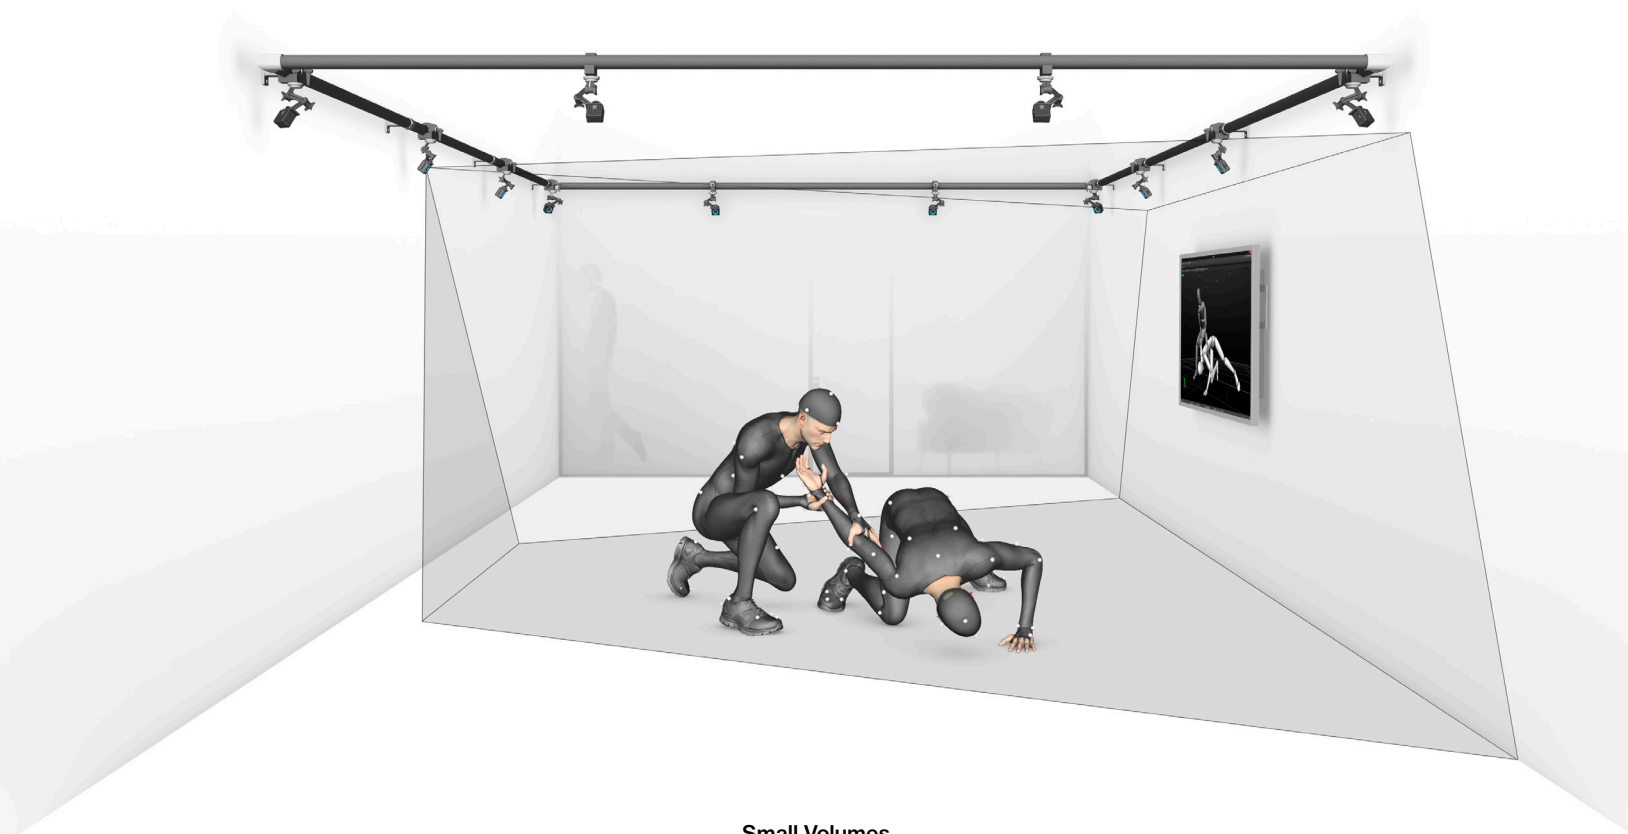

From the Prime 41's jaw-dropping range (2x the nearest competitor), to the Prime 17W's massive FOV, to the Flex 13's unmatched resolution in a sub-\$1K offering—OptiTrack cameras lead the industry in 3D precision, ease of use, low real time latency and affordability.

EASY TO USE

Change camera setups in record time with OptiTrack's patented setup tools. Then have performers running in real time in just seconds with one-click subject calibration. Every step of the process has been polished to have the team focus on the performance rather than the tech.

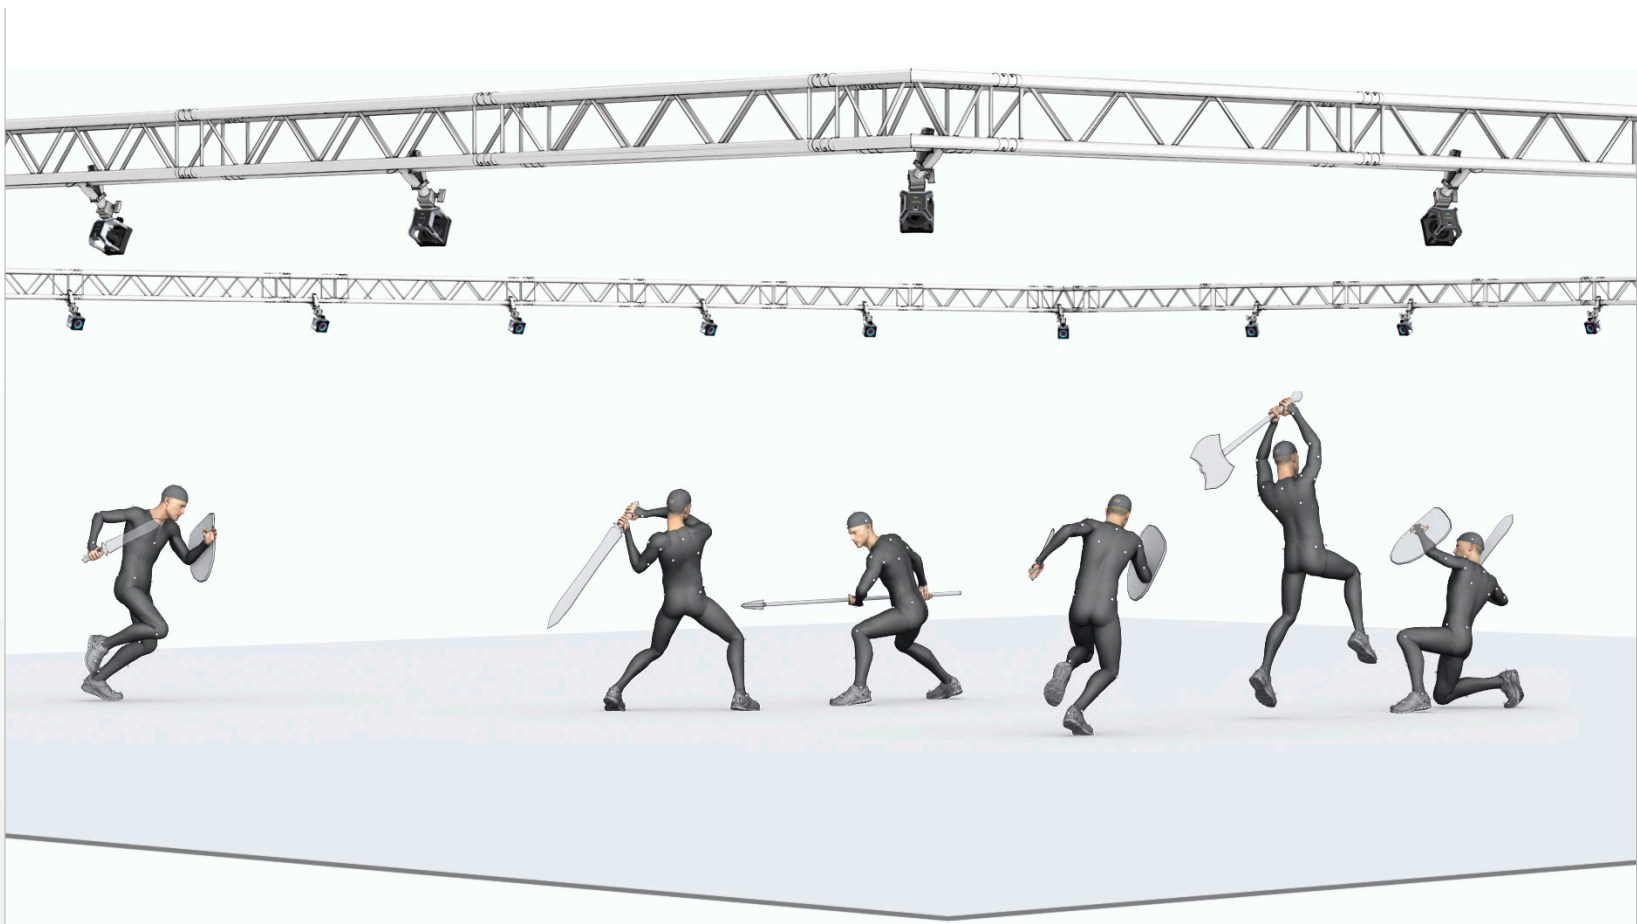

SURPRISINGLY AFFORDABLE PRICING

Accessible pricing is at the heart of our effort to democratize motion capture. Simply put, you will not find engineering-grade motion capture priced more competitively than an OptiTrack system.

Small Volumes

Low profile, super affordable tracking—ideal for compact spaces like conference rooms.

Large Volumes

The largest capture volume in the world leveraged Prime 41's astounding range.
