Company Descriptions

As an independent supplier, Millistream standardizes company descriptions in size and content. We do this to increase comparability and to give a true and fair view of each listed company.

Size

We have chosen to standardize our company descriptions in the range of 350-500 characters.

Examples of content

- Type of company
- Product / Services
- Market segment
- Customer groups

Information excluded

We exclude information that changes from year to year, as well as information that is not considered independent. Finally, we do not take into account corporate forms and web links. Excluded information summarized below.

Year Information

Profit, margins, employees, countries

Value added words

Best, leading, unique, optimal, effective

Company Forms

AB, Aktiebolag, (Publ)

Exchange List

The company is listed on First North, etc.

Web Links

For more information, see <https://company.com>

Examples of content

Content where the above factors are highlighted in red.

This needs to be adjusted to achieve an independent description.

In addition, this descriptions exceeds the recommended size of 350-500 characters.

Content where we assume the four factors that a description should include:

Type of company

Product /Services

Market Segment

Customer Groups
