

East Africa Growth Accelerator

EAGA is designed to enable the registration and distribution of high-quality Elanco Products, along with training initiatives for smallholder farmers to assist with improved animal health practices, including disease prevention and treatment.

EAGA

WHO

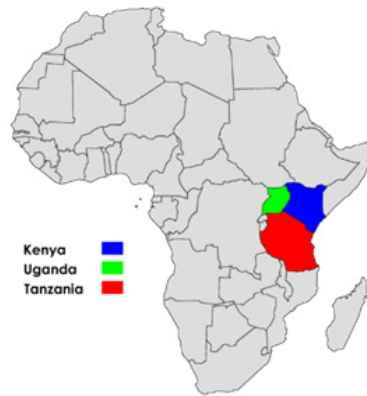

with support from

In 2017, Elanco received a \$3.1 million grant from the Bill & Melinda Gates Foundation in order to help achieve our goal of providing sustainable development solutions to East African smallholder farmers.

WHERE

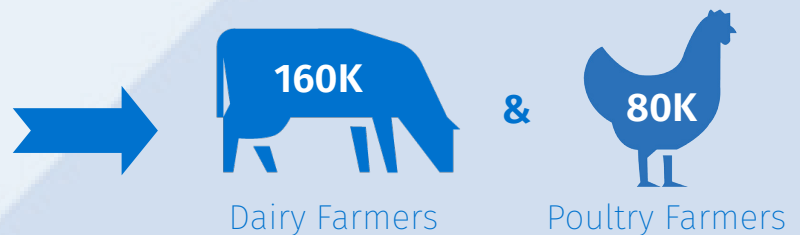

Elanco will work to improve animal health and productivity in dairy herds and poultry flocks for smallholder farmers in Tanzania, Uganda and Kenya.
