#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 1. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current year, the Hong Kong Institute of Certified Public Accountants has issued a number of new and revised Hong Kong Financial Reporting Standards ("HKFRSs") that are first effective for annual periods beginning on or after 1 January 2016. HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards; and Interpretations. None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

The Group has not early applied the new and revised HKFRSs that have been issued but are not yet effective for the financial year beginning on 1 January 2016. The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far the Group has identified some aspects of the new standards which may have a significant impact on the consolidated financial statements. As the Group has not completed its assessment, further impacts may be identified in due course.

#### 2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with all applicable HKFRSs. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap.622).

These financial statements have been prepared under the historical cost convention.

#### 3. TURNOVER AND SEGMENT INFORMATION

The Group has two reportable segments under HKFRS 8 as follows:

The accounting policies of the operating segments are the same as those of the Group.

Segment assets do not include goodwill, loan receivables, available-for-sale financial assets, corporate bank balances, prepayments and deposits and other receivables for general administrative use. #### MANAGEMENT DISCUSSION AND ANALYSIS

#### **BUSINESS REVIEW**

The austerity drives by the Central Government and the overstocking from previous years, as well as the changes in health warning labels on tobacco packages, had slowed down the orders from customers, which resulted in a significant decrease in the Group's turnover in the first half of 2016. Although the situation had improved in the second half of the year, due to the easing of the inventories as well as the pending finalization of the health warning label designs to be applied on tobacco packages, turnover of the Group still fell short when compared to that of last year.

The devaluation of Renminbi has also caused a decline in the reported turnover, as the Group's reporting currency is in Hong Kong dollars. On a constant currency basis, turnover of the Group dropped by only 17.6%, instead of 21.9% during the Reporting Period.

Despite the reduction in sales revenue, as well as deterioration in product mix, as sales of high-end cigarettes were affected by the rise in tobacco taxes, the Group's gross profit rate only recorded a slight drop of 0.6 percentage point to 30.9%, which was mainly due to the Group's continuous efforts in saving production costs, reducing expenses and productivity improvement. This reduction in costs and expenses had mitigated the impact of drop in sales on the Group's results.

Net profit attributable to owners of the Company dropped from HK\$256.4 million to HK\$175.6 million mainly due to a reduction in turnover. On a constant currency basis, net profit attributable to owners of the Company during the Reporting Period was reduced by 27.8% when compared to 2015.

The operational cash flow of the Group continued to be strong. During the Reporting Period, the net operational cash inflow of the Group amounted to HK\$203.8 million. In view of the healthy financial position, in addition to the normal interim and final dividends, the Board has announced an interim special dividend amounted to HK2.7 cents per share and proposed a final special dividend of HK1.1 cents per share during the Reporting Period.

#### FINANCIAL REVIEW

#### **Turnover**

During the Reporting Period, the Group recorded a drop in turnover of 21.9% (17.6% on constant currency basis) from HK\$3,265 million to HK\$2,551 million. This was mainly due to a slowdown in customers' orders in response to a subdued demand for cigarettes, an over-accumulation of inventories by tobacco groups as of the end of 2015 and the change to the health warning labels on tobacco packages in the second half of 2016.

#### **Gross Profit**

During the Reporting Period, the overall gross profit rate was 30.9%, which represents a slight drop of 0.6 percentage point when compared to that of last year. The gross profit rate was adversely affected by (1) a reduction in production volume, which had caused a rise in unit fixed costs; and (2) the reduction of sales of high-end cigarette packs had caused a deterioration of product mix. The above adverse factors were offset by the management's efforts in controlling costs and improving productivity.

#### **Operating Costs**

Operating costs (including administrative expenses and selling and distribution costs) decreased by HK\$67 million from HK\$437 million in 2015 to HK\$370 million in 2016 due to management's effort in expenses control and a corresponding drop in sales. Operating costs expressed as a percentage of turnover increased slightly from 13.4% in 2015 to 14.5% in the Reporting Period.

#### **Other Operating Expenses**

The other operating expenses mainly represent the exchange loss on revaluing borrowings denominated in Hong Kong dollars against depreciating Renminbi amounted to HK\$91 million during the Reporting Period.

#### **Finance Costs**

Finance costs increased from HK\$80.2 million in 2015 to HK\$84.5 million for the Reporting Period mainly due to the increase in effective interest rate during the Reporting Period, the effect of which had been partially offset by the reduction in average outstanding bank borrowings throughout the Reporting Period.

#### **Share of Profit of Associates**

Share of profit of associates decreased slightly from HK\$33.6 million in 2015 to HK\$32.9 million for the Reporting Period. The drop was mainly due to the devaluation of Renminbi against Hong Kong dollars, which had affected the results presented in Hong Kong dollars. On a constant currency basis, the share of profit of associates would be HK\$34.7 million, which showed a slight increase when compared to 2015.

#### **Taxation**

The effective tax rate of the Group decreased by 3.6 percentage points from 39.6% in 2015 to 36% in 2016 due to the decrease in exchange loss arising from the devaluation of Renminbi against Hong Kong dollars, as such exchange loss was not tax deductible.

#### Profit attributable to Owners of the Company

The Group achieved a profit attributable to owners of the Company of HK\$175.6 million during the Reporting Period, representing a decrease of 31.5% from HK\$256.4 million in 2015. The decrease was mainly due to the drop in turnover resulted from a reduction in orders from customers during the year. On a constant currency basis, the Group's profit attributable to owners of the Company decreased by 27.8% when compared to 2015.

#### **Segmental Information**

During the Reporting Period, substantially all the turnover was derived from printing of cigarette packages.

#### **Dividends**

The Board recommended the payment of a final dividend of HK2.2 cents per share (2015: HK0.7 cent) and a final special dividend of HK1.1 cents per share (2015: HK6.6 cents) for the year ended 31 December 2016 to be payable to the shareholders of the Company whose names appear on the register of members of the Company as at 15 June 2017. Subject to the approval of the Company's shareholders at the forthcoming Annual General Meeting of the Company, the said final dividend and final special dividend will be paid to the Company's shareholders on or around 27 June 2017.

#### **Financial Position**

As at 31 December 2016, total assets of the Group amounted to HK\$6,292 million and its total liabilities amounted to HK\$2,789 million, representing a decrease of HK\$448 million and HK\$204 million, respectively as compared to 31 December 2015.

#### **Borrowings and Banking Facilities**

As at 31 December 2016, the Group had gross interest-bearing borrowings of approximately HK\$2,001 million (31 December 2015: HK\$2,082 million), representing a decrease of HK\$81 million over the last year end. The decrease of bank borrowings was due to the repayment of a portion of the bank borrowings.

Substantially all of the interest-bearing borrowings are unsecured, denominated in Hong Kong dollars and bear interest at floating rates. The maturity profile of the Group's gross interest-bearing borrowings is as follows:

	2016 HK\$'000	2015 HK\$'000
On demand or within one year	704,834	11,761
In the second year	1,296,451	688,256
In the third to fifth years, inclusive		1,381,935
Less: Amount due for settlement within 12 months	2,001,285	2,081,952
(shown under current liabilities)	(704,834)	(11,761)
Amount due for settlement after 12 months	1,296,451	2,070,191

As of 31 December 2016, the Group had committed but undrawn banking facilities amounted to HK\$600 million (31 December 2015: HK\$500 million).

#### **Capital Structure**

As at 31 December 2016, the Group had net assets of HK\$3,502 million comprising non-current assets of HK\$3,462 million, net current assets of HK\$1,349 million and non-current liabilities of HK\$1,309 million.

Gearing ratio, measured by total interest-bearing borrowings as a percentage of equity, increased slightly from 56% as at 31 December 2015 to 57% as at 31 December 2016. Such slight increase was mainly due to the decrease in equity via the foreign currency translation reserve resulted from the devaluation of Renminbi, the Group's functional currency, against Hong Kong dollars, the presentation currency.

#### **Charges on the Group's Assets**

As at 31 December 2016, assets with carrying amount of approximately HK\$2.2 million (31 December 2015: HK\$34.2 million) were pledged to banks in respect of banking facilities granted to the Group.

#### **Contingent Liabilities**

As at 31 December 2016, the Group did not have any significant contingent liabilities (31 December 2015: Nil).

#### **Capital Commitments**

As at 31 December 2016, the Group had capital commitments contracted but not provided for in respect of acquisition of property, plant and equipment of HK\$30 million (31 December 2015: HK\$45 million).

#### **Working Capital**

The current ratio decreased from 335% at last year end to 191% at 31 December 2016. This was mainly due to a portion of the bank borrowings amounted to HK\$702 million becoming due within one year and such amount was reclassified from non-current liabilities as at last year end to current liabilities as of 31 December 2016.

#### **Foreign Currency Exposure**

During the Reporting Period, the Group's business transactions were mainly denominated in Renminbi. All bank borrowings were denominated in Hong Kong dollars. Since the functional currency of the Company is Renminbi, the Group has foreign currency exposure on Hong Kong dollars related to its bank borrowings.

#### **Treasury Policies**

The Group adopts a prudent approach with respect to treasury and funding policies, with a focus on risk management and transactions that are directly related to the underlying business of the Group.

### **Acquisition and Disposal**

During the Reporting Period, there was no material acquisition and disposal of subsidiaries or associated companies by the Group.

#### REMUNERATION POLICIES AND EMPLOYEE INFORMATION

As at 31 December 2016, the Group had 2,339 full time employees in Hong Kong and the PRC. Total staff costs (including Directors' emoluments and employee share-based compensation benefits) amounted to approximately HK\$389 million (2015: HK\$417 million) for the year. All full time salaried employees, except for factory workers and contract employees, are being paid on a monthly basis, plus a discretionary performance bonus. Factory workers are being remunerated based on a basic wage plus production incentive. The Group ensures that the pay levels of its employees are competitive and employees are rewarded on a performance related basis within the general framework of the Group's salary and bonus system. In addition to salaries, the Group provides staff benefits including medical insurance and contributions to staff's provident fund. #### **PROSPECTS**

After a year of unprecedented downturn and uncertainty, it is generally expected that the tobacco market will start to stabilize in the coming year. Considering the tobacco industry is still important to the State's revenue and employment of leaf growing farmers in poverty-stricken areas, long term fundamentals of the industry will remain unchanged. Product mix will improve although the consumption volume will stay flat. Facing the challenges ahead, it is also expected that there will be more industry consolidation to reduce the duplication of resources.

The Group's investments in research and development had begun to yield initial results. Many new designs were accepted by customers during the year, and such efforts are ongoing. It is hopeful that such new designs will accelerate the Group's organic growth in turnover in the coming years.

The management will continue to seek value-added acquisitions which will enhance the Group's earnings and presence in the market.

Internally, the Group will continue to reduce costs and improve productivity. In the coming years, the management will focus on centralizing the various functions to streamline the operations and reducing duplication of resources. The management is also actively seeking opportunities to reduce the foreign currency exposure brought forth by its Hong Kong dollar borrowings. The management had geared down the Group through the replacement of the previous borrowing with a facility with a smaller size in February 2017.

Management would like to take this opportunity to show our appreciation to the great support from all our shareholders, suppliers and customers. We would also like to extend our gratitude to all our staff for their continuous dedication, commitment and contribution to the development of the Group during this turbulent time. The Group will strive to overcome the difficulties and challenges ahead to create higher return to our shareholders.
