PRIVACY VERIFIED

Digidentity

A privacy audit of the service of Digidentity was performed by Privacy Verified. Digidentity declares to safeguard the privacy of her clients by complying with the points set out below. Reinspection by Privacy Verified will take place annually to check if the service provided by Digidentity still meets the requirements set out below.

Digidentity has performed all necessary Data Protection Impact Assessments.

Digidentity is prepared for data breaches with a data breach response plan.

Digidentity has an appropriate record of processing activities and will update the information if necessary.

Digidentity operates a security policy and takes appropriate measures to safeguard personal data.

Digidentity will enter into a data processing agreement with all suppliers that process personal data on behalf of Digidentity.

Digidentity is transparent about the processing of personal data from (potential) clients and website visitors.

Stichting Certificering supervises the certification and issuance process of Privacy Verified.
