

# EntriWorX Door Insights

For smarter, more efficient door management

## What is EntriWorX Door Insights?

### Connected doors

Using the power of digitalisation EntriWorX Door Insights connects to new or existing dormakaba automatic doors to securely expose key operational data.

### Real-time

Continuous synchronisation means information about the operational state of your door is always immediately available.

You can access your data at any time and from anywhere.

### Door Insights

Our highly intuitive, visually engaging web-application 'EntriWorX Insights' transforms your data into meaningful, actionable and understandable Insights.

## Connect. See. Act.

Transform the way you see and manage your doors with EntriWorX Door Insights real-time insights. However large your installed automatic door base is, our easy-to-use EntriWorX Door Insights application, lets you see operational data at-a-glance across your network of connected doors.

### Minimise downtime

Entrivo real-time SMS, email and in-app error notifications mean unforeseen events can be managed quickly and pro-actively to minimise operational impact and downtime.

### Reduce callouts

Inbuilt, user friendly troubleshooting guidance means your onsite team is empowered to resolve common issues and errors without a service technician – saving time and money.

### Optimise efficiency

Historic insights enable data-driven optimisation of service scheduling and prevention-focused maintenance tailored to the specific door.

# EntriWorX Door Insights - At a glance

## Actionable Insights

- Know that your entrances are locked and secure when they should be, and open and accessible when they need to be, with real-time monitoring of the door mode and lock status.
- Get alert notifications delivered in real-time and access our troubleshooting guidance so even non-technical staff can take steps to resolve issues without a service technician.

## Flexible, scalable hardware

- Not much bigger than a pack of cards, our IoT connector is simple to install, and requires no expensive infrastructure to connect or maintain.
- No limit on the number of devices you can connect means you can gain remote, centralised visibility over your entire automatic door installed base, no matter how large or geographically spread.

## Hassle-free User Access

- Inbuilt user management means you're in full control of who can access door insights for your company.
- No limits on how many users you can enable, and with administration and viewer level access, you can give the right privileges to the right people.

## Simple and Intuitive

- View not only a single door, but your entire network of connected doors in a single, centralised dashboard.
- Clear, highly visual and interactive graphs means information and data patterns are quick and easy to understand without any specialist knowledge.
- Simple tab based navigation, interactive door maps, built-in search, advanced filters and more, means you can easily find what you're looking for, no matter how many automatic doors you have.
