

DEW SKIN TINTED MOISTURIZER

One bottle, four benefits—this ultra-dewy tinted moisturizer deserves six stars.

MADE TO DO IT ALL

This tinted moisturizer is the ultimate multitasker, providing **sheer coverage, a dewy finish, safer SPF 20, and clinically proven skin care**. A lightweight formula helps create more even-looking skin, while mineral sunscreen works to protect against the sun's damaging rays. Over time, a radiance-boosting blend of **black currant seed oil, peony root extract, and vitamin C** help skin feel firmer and look more luminous.* Our formula even provides protection from UVA, UVB, and blue (HEV) light rays.

RESULTS THAT SPEAK FOR THEMSELVES

POWERFUL INGREDIENTS

Non-Nano Zinc Oxide: A physical, mineral sun protection technology that works by reflecting UV rays.

Black Currant Seed Oil and Peony Root Extract: Help even skin tone and enhance radiance.

Vitamin C: Helps brighten and even skin tone.

Organic Madagascar Bourbon Vanilla: High-quality, responsibly sourced, certified organic vanilla adds to the subtle, yet sophisticated fragrance.

CLEAN FACTS

Safer SPF: With non-nano zinc oxide, an effective mineral sunscreen active that has not been found to be harmful to the coral reefs.

Sustainable Packaging: This bottle is recyclable. Plus, an estimated 15% of the plastic in this product is composed of post-consumer recycled (PCR) resin.

Responsibly Sourced Ingredients: We use ECOCERT-certified organic vanilla from Madagascar from a supplier that is committed not only to supplying the highest quality of vanilla, but also to improving the quality of life for their community farmers. This product is also formulated with responsibly sourced palm.****

HOW TO USE

For an effortless finish, use daily, alone, or on top of moisturizer. Apply evenly with fingertips. Formula may appear lighter at first due to mineral zinc SPF, but it's designed to disappear into skin and leave behind a radiant, dewy finish once blended completely.***

EIGHT FLEXIBLE SHADES

Our versatile formula comes in eight sheer-coverage shades that are each designed to work for multiple skin tones.

*Based on a 28-subject consumer perceptions study after eight weeks of daily use.

**Based on 28-subject clinical evaluation study after eight weeks of daily use.

***For sunscreen use, refer to full Drug Facts panel on packaging for full Directions and Warnings.

****This formula has been updated for the purpose of transitioning to responsibly sourced palm ingredients where possible. However, our complete Certified Supply Chain through Roundtable for Sustainable Palm Oil (RSPO) is in process. As members of RSPO, we are working closely with our product manufacturers to complete the certification of the supply chain, which is a critical part of the RSPO program.
