# MEET GREGG

**Our fast-talking, game-changing, totally fearless leader.**

Just over six years ago, Gregg Renfrew became curious about the connection between harmful ingredients in personal-care products and increased rates of illness among her friends and family. She set out to build a movement for #betterbeauty, and Beautycounter was born. Fast forward to today, this mother of three leads Beautycounter’s omnichannel business with retail locations across the country, an e-commerce site, and nearly 45,000 Independent Consultants. Named the #1 trending beauty brand of 2018, Beautycounter advocates tirelessly for safer industry regulations. To Gregg, this is bigger than beauty. **This is about a healthier future for all.**

## ONE-ON-ONE WITH GREGG

## PRO TIP: BRUSH CARE FOR BEGINNERS

*Clean your brushes to keep them free from pore-clogging bacteria. Here's how:*

- 1\_** Dampen the bristles of your brush in lukewarm water, then dispense a bit of gentle cleanser into your palm. (Our Daily Shampoo works perfectly.)
- 2\_** Swirl the bristles in the cleanser, then rinse and repeat until the water runs clear. Try to keep the water out of the ferrule (the metal piece that connects the bristles to the handle).
- 3\_** Pat any extra moisture into a clean towel, then lay the brushes flat to dry. How easy is that?
- 4\_** Double-cleanse with the charcoal bar for a deeper clean.

Beautycounter's Chief Artistic Officer, Christy Coleman

*\*Dispose in your home composting system or municipal receptacle program (in communities that have municipal composting systems). European standard EN 13432, biodegradability, and disintegration tests conducted at ambient temperatures.*

collections, and beauty boosters.*

---

## ONCE YOU KNOW, YOU CAN'T GO BACK

---

The United States has not passed a major federal law governing cosmetics safety since 1938. (Ahem—that's over 81 years ago.) The European Union has banned or restricted 1,400 ingredients from personal-care products. The United States has banned or restricted only 30. **We're working to change that.**

---

# ALL ABOUT REGIMENS

*The products in our four-step regimens work in synergy to deliver the best results possible.*

*Great skin and safer standards?  
IT'S AS EASY AS 1, 2, 3, 4.*

## 1. CLEANSE

Cleansing and thoroughly removing makeup is essential. Our cleansers effectively purify your skin without harsh surfactants.

## 2. PREP

Get your skin ready for treatment. Our toners and essence help clarify and prep your complexion for optimal product absorption.

## 3. TREAT

Next up: serum. Our lightweight, fast-absorbing treatments deliver a concentrated dose of active ingredients.

## 4. PROTECT

Lock in the moisture. Our day and night creams provide lasting hydration, helping strengthen your skin's barrier.

Not sure which regimen is right for you?

COUNTERSUN

All of the cover. None of the concern. Shield skin from the sun's damaging UVA and UVB rays with our versatile mineral sunscreens.

#CLEANFACT

We don't use oxybenzone or octinoxate in our sunscreens because they are shown to harm coral reefs.

SUN 101

**UVA rays (a.k.a., the sun's aging rays)** can penetrate glass and clouds and are the main cause of free-radical damage that contributes to premature aging. **UVB rays (a.k.a., the sun's burning rays)** burn the skin, so we see and feel the damage as it occurs. Good news: Countersun blocks both.

KEY INGREDIENT

Instead of using potentially irritating chemical filters, we use non-nano zinc oxide—a safer mineral blocker that sits on the surface of skin and bounces sun's rays away.
