Week	Term 1	Term 2	Term 3	Term 4
1	**Numbers: 1000–5000** — Order numbers on a number line. Count forwards and backwards. Order numbers from smallest to largest.	**Position: Maps** — Identify features and places on a simple map using basic coordinates and compass directions.	**2D Space: Angles** — Understand that angles are properties of 2D shapes and measures of turn. Identify angles and compare their sizes.	**Multiplication and Division: Fact families** — Recall division facts. Solve problems with an unknown quotient.
2	**2D Space: Symmetry** — Explore vertical and horizontal lines of symmetry. Identify images that are symmetrical.	**Division: Grouping and sharing** — Revision of grouping and sharing using the division sign and related number facts.	**Subtraction: Regrouping** — Subtract two 3-digit numbers. Use strategies to demonstrate regrouping when subtracting. / **Measurement: Compare time** — Compare the duration of an event. Understand the difference between am and pm.	**Fractions: Word problems** — Solve word problems that include finding the fraction of a collection of objects, equivalent fractions and adding fractions.
3	**Addition and Subtraction: Patterns** — Identify addition and subtraction patterns. Explore the Fibonacci Sequence. Identify and follow a rule to create a number pattern.	**Numbers: Odd and even** — Identify odd and even numbers. Explore odd and even number patterns. / **Chance: Experiments** — Explore chance experiments. Identify outcomes and possibilities and record results.	**Fractions: Equivalent fractions** — Recognise and compare equivalent fractions.	**Measurement: Perimeter** — Find the perimeter of a variety of shapes. Investigate shapes that have different areas but the same perimeters. / **Multiplication: Multiples of 10** — Use strategies to multiply one-digit numbers by multiples of 10.
4	**Measurement: Capacity** — Introduce the L and mL. Determine if a vessel holds >, < or = to 1 L. Read increments. / **Multiplication: Groups and arrays** — Revise multiplication strategies. Solve multiplication word problems.	**Multiplication: Word problems** — Use multiplication facts and related number facts to solve word problems. Explore strategies to solve problems.	**Multiplication and Division: Fact families** — Recognise number combinations that make number fact families when multiplying and dividing.	**Numbers: Rounding to 100** — Use a number line. Identify the 'midpoint' and round up or down to the nearest hundred. / **Addition and Subtraction: Patterns** — Complete place value patterns involving addition and subtraction equations.
5	**Numbers: 5000–10 000** — Model numbers and match numbers to their name. Place numbers on a number line. Count forwards and backwards. Add +1, +10, +100 to a number.	**3D Objects: Prisms and pyramids** — Identify prisms and pyramids and describe their key features.	**Measurement: Length** — Measure and compare objects. Recognise the most appropriate unit of measure. / **Addition and Subtraction: Word problems** — Solve addition and subtraction word problems.	**Division: Word problems** — Solve word problems that involve division. Interpret the questions and determine unknown quotients.
6	**Measurement: Area** — Count squares to measure area. Multiply length × width to find the area in m².	**Addition: 3-digits** — Use vertical addition. Add two 3-digit numbers and introduce regrouping. / **Multiplication: ×4, ×8** — Explore the ×4 and ×8 tables. Identify number patterns.	**2D Shapes: Properties** — Revise the different categories of 2D shapes and group shapes according to their attributes. / **Measurement: Time** — Read time in minutes to and past the hour. Compare digital and analogue times.	**Fractions: Whole numbers** — Recognise whole numbers written as fractions. Compare sizes of whole number fractions.
7	**Multiplication: ×2, ×4** — Explore the ×2, ×4 tables. Identify patterns in a hundred chart. / **Money: Equivalent amounts** — Match currency combinations to a given amount. Find change from $50.	**Measurement: Mass** — Measure and compare the mass of objects. Solve one-step word problems. / **Addition and Subtraction: Mental strategies** — Use the compensation strategy to add and subtract numbers.	**Multiplication: Written strategies** — Use vertical multiplication. Multiply 1 digit by 1 digit, and 2 digits by 1 digit.	**Data: Measurement** — Measure items and record data. Record measurements. Interpret the results.
8	**Fractions: Compare and order** — Understand the role of the top and bottom numbers in a fraction. Use the term 'denominator'. Compare the sizes of fractions. Order fractions.	**Data: Scaled picture graphs** — Collect data. Draw a scaled picture graph. Solve one-step and two-step questions by interpreting information in the graph.	**Data: Scaled column graphs** — Collect data and draw a scaled bar graph. Solve one-step and two-step questions by interpreting the information presented in the graph.	**Multiplication and Division: Fluency** — Use strategies to fluently multiply and divide numbers.
9	**Numbers: Partitioning** — Partition and rearrange numbers. Recognise values. Increase and compare values. / **Measurement: Time** — Recognise that there are 60 minutes in an hour. Tell time to the nearest minute.	**Fractions: Compare** — Investigate half, quarter, third, fifth and tenth of a share. Understand the denominator tells you how many groups to make. Compare quantities.	**Operations: Word problems** — Solve problems that involve the four operations. Determine the appropriate operation.	**Measurement: Area problems** — Solve problems involving area. Find the areas of rectangles.
10	**Addition and Subtraction: Equivalent number sentences** — Explore the connection between addition and subtraction using wholes and parts, related number facts and equivalent number sentences.	**Multiplication: ×3, ×6** — Explore the 3× and 6× tables. Identify number patterns. Investigate the distributive property of multiplication.	**Measurement: Time** — Solve problems about time. Use addition and subtraction to calculate time intervals.	**Wrap it up!**
