Approximate number of swine (weaned pigs): _____ Location of animals: _____ _____	Special Instructions and/or other animal identification (optional):
---	---

**Indications:** For the reduction in incidence and overall severity of diarrhea in the presence of pathogenic *Escherichia coli* in groups of weaned pigs.

**Medicated Feed:** Type C medicated feed containing avilamycin at **73 g/ton** to be fed as the sole ration for \_\_\_\_\_ consecutive days. (The number of days specified cannot be less than 21 or more than 42.)

**Use of feed containing this Veterinary Feed Directive (VFD) drug in a manner other than as directed on the labeling (extra-label use) is not permitted.**

**Caution:**

To assure responsible antimicrobial drug use in pigs, do not administer to pigs 14 weeks of age or older. Do not administer medicated feed containing avilamycin to pigs for more than a lifetime total of 42 days.

Avilamycin has not been demonstrated to be effective in pigs showing clinical signs of diarrhea prior to the start of medication.

The safety of avilamycin has not been established in swine intended for breeding purposes.

Veterinary Feed Directive (VFD) expiration date must not exceed 90 days from the date of issuance. VFDs for avilamycin shall not be refilled.

**Residue Warning:** No withdrawal period is required

**Combination Use:**

This VFD only authorizes the use of the VFD drug(s) cited in this order and is not intended to authorize the use of such drug(s) in combination with any other animal drugs.

VFD Issuance Date: \_\_\_\_\_

VFD Expiration Date: \_\_\_\_\_  
Month/Day/Year  
(Not to exceed 90 days from issuance date)

Veterinarian's signature: \_\_\_\_\_
