Terminal-to-Network Interface for Megalink™ ISDN Primary Rate Interface (PRI) – TCI

Stentor, on behalf of TELUS Communications Inc. (TCI), announces the withdrawal of "Permanently Connected B-Channels" in conjunction with its Megalink™ service. Megalink™ service has been previously disclosed in Stentor Industry Advisory SIA-4o, dated October 17, 1997. The withdrawal is due to lack of demand for this capability.

Compatibility Impact:

None.

No "Permanently Connected B-Channels" are currently in service within the Company's territory.

Documentation:

Reference to "Permanently Connected B-Channels" is contained in Stentor document ID-0031, TELUS Communications Inc., "DMS-100™ Terminal-to-Network Interface for Megalink™, ISDN Primary Rate Interface (PRI)", dated October 1997. Specifically, the change affects Section 2.0, second paragraph, and Section 3.4.2-2., where support for "Permanently Connected B-Channels" has been removed. Stentor document ID-0031 has been updated to reflect these changes in its September 1998 issue.

Stentor will invoice recipients \$65 each for hard copies of Stentor document ID-0031. Holders of Stentor document ID-0031 can obtain hard copies of the updated document for the update price of \$20. Stentor document ID-0031 can also be downloaded from the web at <http://www.stentor.ca/disclosure> at a reduced price. Please note that the prices are subject to change without notice.
