^(A)Total telecom subscribers may not balance due to rounding alignment to YTD figures. ^(B)Effective January 1, 2021, with retrospective application to January 1, 2020, in alignment with our segment reporting changes, we made a retroactive adjustment to remove internal network service revenue and approximately 29,000 subscribers from our mobile phone subscriber base. As well, effective January 1, 2021 on a prospective basis, following an in-depth review of customer accounts within a legacy subscriber provisioning system to be decommissioned, we adjusted our internet subscriber base to remove 16,000 subscribers.

^(C)Effective January 1, 2022 on a prospective basis, following an in-depth review of our definition of a subscriber, we adjusted our connected devices subscriber base to remove 34,000 subscribers within a legacy reporting system.

^(A)May not balance due to rounding alignment to YTD figures.

^(B)Effective January 1, 2021, with retrospective application to January 1, 2020, in alignment with our segment reporting changes, we made a retroactive adjustment to remove internal network service revenue and approximately 29,000 subscribers from our mobile phone subscriber base and associated operating statistics (ARPU and churn). Internal network service revenue consists of earned revenue from both our internal mobile phone and connected devices subscribers, neither of which contribute to our restated subscriber base.

^(C)Effective January 1, 2022 on a prospective basis, following an in-depth review of our definition of a subscriber, we adjusted our connected devices subscriber base to remove 34,000 subscribers within a legacy reporting system.

^(D)Effective January 1, 2021 on a prospective basis, following an in-depth review of customer accounts within a legacy subscriber provisioning system to be decommissioned, we adjusted our internet subscriber base to remove 16,000 subscribers.

Supplemental Investor Information (Unaudited) First Quarter, 2022

Non-GAAP and Other Specified Financial Measures and definitions of key operating indicators

¹<u>Adjusted Net income and adjusted basic earnings per share</u> These are Non-GAAP measures that do not have any standardized meaning prescribed by IFRS-IASB are therefore unlikely to be comparable to similar measures presented by other issuers. Adjusted Net income excludes the effects of restructuring and other costs, income tax-related adjustments, other equity losses related to real estate joint ventures, long-term debt prepayment premium, and the gain on disposition of our financial solutions business. Adjusted basic earnings per share is calculated as adjusted net income divided by basic weighted-average common shares outstanding. These measures should not be considered alternatives to Net income and basic earnings per share in measuring TELUS' performance.

Please refer to the Q1 2022 Management's Discussion & Analysis Section 11.1 for an explanation of how these measures provide useful information to investors and for which purposes management uses these measures, and quantitative reconciliation of Adjusted Net Income to Net Income. MD&A is made available on SEDAR (www.sedar.com).

² <u>Return on common equity</u> is Net income attributed to equity shares for a 12-month trailing period, divided by the average Common equity for the 12-month period.

³ <u>EBITDA interest coverage ratio</u> is defined as EBITDA (excluding restructuring and other costs), divided by net interest cost. Net interest cost is defined as financing costs, net of capitalized long-term debt interest, excluding employee defined benefit plans net interest, as well as recoveries on redemption and repayment of debt, calculated on a 12-month trailing basis. Any losses recorded on the redemption of debt are included in net interest. This measure is similar to the coverage ratio covenant in TELUS' credit facilities.

⁴ <u>Free cash flow</u> is a supplementary indicator of our operating performance, and there is no generally accepted industry definition of free cash flow. It should not be considered an alternative to the measures in the Consolidated statements of cash flows. Free cash flow excludes certain working capital changes (such as trade receivables and trade payables), proceeds from divested assets and other sources and uses of cash, as found in the Consolidated statements of cash flows. It provides an indication of how much cash generated by operations is available after capital expenditures (excluding purchases of spectrum licences) that may be used to, among other things, pay dividends, repay debt, purchase shares or make other investments. We exclude impacts of accounting standards that do not impact cash, such as IFRS 15 and IFRS 16. Free cash flow may be supplemented from time to time by proceeds from divested assets or financing activities.

Please refer to the Q1 2022 Management's Discussion & Analysis Section 11.1 for the quantiative reconciliation of free cash flow to cash provided by operating activities. MD&A is made available on SEDAR (www.sedar.com).

⁵ <u>Net debt</u> is defined as Long-term Debt (including current maturities of long-term debt) plus debt issue costs netted against long-term debt, Short-term borrowings and Accumulated other comprehensive income amounts arising from financial instruments used to manage interest rate and currency risks associated with U.S. dollar-denominated long-term debt (excluding tax effects), less Cash and temporary investments and net derivative assets. Net debt is a useful measure because it represents the amount of Short-term borrowings and long-term debt obligations that are not covered by available Cash and temporary investments. The nearest IFRS measure to net debt is Long-term debt, including Current maturities of Long-term debt.

⁶ <u>Net debt : EBITDA excluding restructuring and other costs</u> is defined as Net debt as at the end of the period divided by the 12-month trailing EBITDA excluding restructuring and other costs. Historically, Net debt : EBITDA excluding restructuring and other costs is similar to the Leverage Ratio covenant in TELUS' credit facilities.

⁷<u>EBITDA (earnings before interest, income taxes, depreciation and amortization)</u> is an indicator we have issued guidance on and report EBITDA because it is a key measure used to evaluate performance at a consolidated level. EBITDA is commonly reported and widely used by investors and lending institutions as an indicator of a company's operating performance and ability to incur and service debt, and as a valuation metric. EBITDA should not be considered an alternative to Net income in measuring TELUS' performance, nor should it be used as a measure of cash flow. EBITDA as calculated by TELUS is equivalent to Operating revenues and other income less the total of Goods and services purchased expense and Employee benefits expense.

Please refer to the Q1 2022 Management's Discussion & Analysis Section 11.1 for the quantitative reconciliation of Net Income to EBITDA. MD&A is made available on SEDAR (www.sedar.com).

⁸ <u>Capital expenditure intensity</u> is calculated as capital expenditures (excluding spectrum licences) divided by total Operating revenues and other income.

⁹ Adjusted EBITDA is calculated to exclude items of an unusual nature that do not reflect our ongoing operations and should not, in our opinion, be considered in a long-term valuation metric or should not be included in an assessment of our ability to service or incur debt.

Please refer to the Q1 2022 Management's Discussion & Analysis Section 11.1 for the quantitative reconciliation of Net Income to Adjusted EBITDA. MD&A is made available on SEDAR (www.sedar.com).

Non-GAAP and Other Specified Financial Measures and definitions of key operating indicators, continued

¹⁰ <u>Mobile phone</u> means a TELUS subscriber on an active service plan with a recurring revenue-generating portable unit (e.g. feature phones and smartphones) that is connected to the TELUS network and provides voice, text and/or data connectivity.

¹¹ <u>Mobile phone Average revenue per subscriber per month (ARPU)</u> is calculated as network revenue derived from monthly service plan, roaming and usage charges; divided by the average number of mobile phone subscribers on the network during the period, and is expressed as a rate per month.

¹² <u>Mobile phone churn</u> is calculated as the number of subscribers deactivated during a given period divided by the average number of subscribers on the network during the period, and is expressed as a rate per month. Mobile phone churn refers to the aggregate average of both prepaid and postpaid mobile phone churn. A TELUS, Koodo or Public Mobile brand prepaid mobile phone subscriber is deactivated when the subscriber has no usage for 90 days following expiry of the prepaid credits.

¹³ <u>Connected device</u> means a TELUS subscriber on an active service plan with a recurring revenue-generating portable unit (e.g. tablets, internet keys, Internet of Things, wearables and connected cars) that is connected to the TELUS network and is intended for limited or no cellular voice capability.

¹⁴ Internet subscriber means a TELUS subscriber on an active internet plan with a recurring revenue-generating fixed unit that is connected to the TELUS network and provides internet connectivity.

¹⁵ <u>TV subscriber</u> means a TELUS subscriber on an active TV plan with a recurring revenue-generating fixed unit subscription for video services from a TELUS TV platform (e.g. Optik TV and Pik TV).

¹⁶ <u>Residential voice subscriber</u> means a TELUS subscriber on an active phone plan with a recurring revenue-generating fixed unit that is connected to the TELUS network and provides voice service.

¹⁷ <u>Security subscriber</u> means a TELUS subscriber on an active security plan with a recurring revenue-generating fixed unit that is connected to the TELUS security and automation platform.

¹⁸ <u>Healthcare lives covered</u> means the number of users (primary members and their dependents) enrolled in various health programs supported by TELUS Health services (e.g. virtual care, health benefits management, preventative care and personal health security).

¹⁹ <u>Virtual care member</u> means primary enrolment to receive services on an active TELUS Health virtual care plan.

²⁰ <u>Digital health transactions</u> mean the total number of health claims, dental claims, consultations or other paid transactions facilitated by TELUS Health services.

²¹ <u>Adjusted EBITDA margin</u> is a non-GAAP ratio that does not have any standardized meaning prescribed by IFRS-IASB and therefore is unlikely to be comparable to similar measures presented by other issuers. We report EBITDA margin and Adjusted EBITDA margin for our TTech and DLCX segments as these are key measures used to evaluate performance at the operating segment level.

Please refer to the Q1 2022 Management's Discussion & Analysis Section 11.1 for the composition of this measure and explanation of how these measures provide useful information to investors and for which purposes management uses these measures. MD&A is made available on SEDAR (www.sedar.com).
