Item 415-A 14/12 GHZ SATELLITE OCCASIONAL USE VIDEO SERVICE NC

A. GENERAL

1. 14/12 GHz Satellite Occasional Use Video Service provides video transmission with one-half Canada coverage over the 14/12 GHz Anik C Satellite network.
2. Service is provided from Telecom Canada member Telephone Operating Centres (TOC) subject to the availability of suitable facilities. Transmit and receive service is offered at the TOC.
 - a) TOC of the Company
Vancouver
 - b) TOCs of other Company's
Calgary, Alta. Regina, Sask.
Edmonton, Alta. St. John's, Nfld.
Fredericton, N.B. Toronto, Ont.
Halifax, N.S. Winnipeg, Man.
Montreal, Que.
3. Transmit and/or receive facilities may be Company or customer-provided.
4. Service is provided using protection facilities and is pre-emptible.

B. RATES

1. Rates for channel facilities from the customer's premises to the TOC are as specified in Item 416 B.2.a)(i).
2. Charges for occasional use transmission vary as follows:
 - a) Usage Volume
The number of hours the service is used.
 - b) Usage Commitment
The minimum number of hours committed to by the customer to be used within the subsequent 12 month period. Any combination of reserved or unreserved time and of Prime, Non-Prime, or Night Owl time may be credited toward the minimum commitment. Any unused portion of the minimum commitment is billed at the rate for unreserved Night Owl time as specified in 2.d).
 - c) Time Reservation
 - (i) Reserved
The availability of the time period requested for a transmission is confirmed upon receipt of the order, which must be received at least 48 hours prior to the transmission time.
