In the circumstances where the Licensee is required to file a notice of project for its work where such work is separated by time and/or space from the work being performed by the CM, that area of the Building for which the notice of project is filed will, from the time of filing such notice of project, be under the exclusive control of the Licensee, who be the "constructor" for that area of the Building. - (a) At the expiration or earlier termination of this Agreement the Licensee shall, at the Licensee's sole cost and expense, without liens, remove the Entrance Cable, and all other items of the Licensee's Equipment except any part of it that by agreement between the Licensee and the Licensor has been acquired by the Licensor, and all of the Licensee's personal property from the Building. That situation will continue (subject to the sentence following this one) until the Licensee's CRTC mandated obligations end and the Licensee removes the Exempted Items and restores damage as provided in Section 19(a). Notwithstanding the foregoing, so long as, and to the extent the Licensor or a third party assumes responsibility and control of the Exempted Items, and the third party is either (a), bound by a telecommunications access agreement with the Licensor, or (b) has become the assignee of this agreement as regards the Exempted Items, or a successor of the Licensor, the Licensee will be exempted from its obligations, liabilities and

33. SEVERABILITY

If any provision of this Agreement or any part of a provision is found to be illegal or unenforceable then it will be severed from the rest of this Agreement and the rest of this Agreement will be enforceable, accordingly, except where the severance of such provision or part thereof shall result in the purpose and intent of the Agreement being frustrated or materially or adversely different from that of the Agreement prior to such severance.
