Calling Name Display over National ISDN PRI – BC TEL

Stentor, on behalf of BC TEL, announces the planned addition of calling name display to its National ISDN Primary Rate Interface service. Commercial service is expected to commence in 3Q98 in selected areas.

Compatibility Impact:
None expected.

Documentation:
The BC TEL Calling Name feature complies with the interface documented in Bellcore GR-1367-CORE "Generic Requirements for ISDN Calling Name Identification Services for Primary Rate Interfaces." Additional information regarding the BC TEL National ISDN Primary Rate Interface implementation is available in Stentor Industry Advisory SIA-4t.

For further information on the service, please contact:
