MARCH 31, 2010

TELUS Corporation was incorporated under the *Company Act* (British Columbia) on October 26, 1998, under the name BCT.TELUS Communications Inc. (BCT). On January 31, 1999, pursuant to a court-approved plan of arrangement under the *Canada Business Corporations Act* among BCT, BC TELECOM Inc. (BC TELECOM) and the former Alberta-based TELUS Corporation (TC), BCT acquired all of the shares of BC TELECOM and TC in exchange for Common Shares and Non-Voting Shares of BCT. Subsequently on January 31, 1999, BC TELECOM was dissolved. On May 3, 2000, BCT changed its name to TELUS Corporation and in February 2005, the Company transitioned under the *Business Corporations Act* (British Columbia), successor to the *Company Act* (British Columbia). TELUS Corporation maintains its registered office at Floor 21, 3777 Kingsway, Burnaby, British Columbia, V5H 3Z7.

TELUS Corporation is one of Canada's largest telecommunications companies, providing a full range of telecommunications products and services. The Company is the largest incumbent telecommunications service provider in Western Canada and provides data, Internet protocol, voice and wireless services to Central and Eastern Canada.

Notes to consolidated financial statements	Page	Description
General application		
1. Interim financial statements	7	Summary explanation of basis of presentation of interim consolidated financial statements
2. Accounting policy developments	7	Summary review of generally accepted accounting principle developments that do, will, or may, affect the Company
3. Capital structure financial policies	7	Summary review of the Company's objectives, policies and processes for managing its capital structure
4. Financial instruments	9	Summary schedules and review of financial instruments, including the management of associated risks and fair values
Consolidated results of operations focused		
5. Segmented information	15	Summary disclosure of segmented information regularly reported to the Company's chief operating decision-maker
6. Restructuring costs	16	Summary continuity schedule and review of restructuring costs
7. Financing costs	17	Summary schedule of items comprising financing costs by nature
8. Income taxes	17	Summary reconciliations of statutory rate income tax expense to provision for income taxes
9. Per share amounts	17	Summary schedule and review of numerators and denominators used in calculating per share amounts and related disclosures
10. Dividends per share	18	Summary schedule of dividends declared
11. Share-based compensation	18	Summary schedules and review of compensation arising from share option awards, restricted stock units and employee share purchase plan
12. Employee future benefits	21	Summary and review of employee future benefits and related disclosures
Consolidated financial position focused		
13. Accounts receivable	21	Summary schedule and review of arm's-length securitization trust transactions and related disclosures
14. Property, plant, equipment and other	22	Summary schedule of items comprising property, plant, equipment and other
15. Intangible assets and goodwill	23	Summary schedule of intangible assets, including goodwill
16. Long-term debt	24	Summary schedule of long-term debt and related disclosures

Notes to consolidated financial statements	Page	Description
Consolidated financial position focused (continued)		
17. Common Share and Non-Voting Share equity	25	Review of Common Share and Non-Voting Share equity items including details of other comprehensive income, accumulated other comprehensive income and share option price stratification summaries
18. Commitments and contingent liabilities	27	Summary review of contingent liabilities, guarantees, claims and lawsuits
Other		
19. Additional financial information	29	Summary schedules of items comprising certain primary financial statement line items
20. Differences between Canadian and United States generally accepted accounting principles	30	Summary schedules and review of differences between Canadian and United States generally accepted accounting principles as they apply to the Company

1 interim financial statements

The notes presented in these interim consolidated financial statements include only significant events and transactions and are not fully inclusive of all matters normally disclosed in TELUS Corporation's annual audited financial statements. As a result, these interim consolidated financial statements should be read in conjunction with the TELUS Corporation audited consolidated financial statements for the year ended December 31, 2009. These interim consolidated financial statements follow the same accounting policies and methods of their application as set out in the TELUS Corporation consolidated financial statements for the year ended December 31, 2009. Accordingly, these interim consolidated financial statements reflect all adjustments (which are of a normal recurring nature) that are, in the opinion of the Company, necessary for a fair statement of the results for the interim periods presented.

The terms "TELUS" or "Company" are used to mean TELUS Corporation and, where the context of the narrative permits, or requires, its subsidiaries.

2 accounting policy developments

Convergence with International Financial Reporting Standards as issued by the International Accounting Standards Board

In 2006, Canada's Accounting Standards Board ratified a strategic plan that will result in Canadian GAAP, as used by publicly accountable enterprises, being fully converged with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS-IASB) over a transitional period to be complete by 2011. The Company will be required to report using the converged standards effective for interim and annual financial statements relating to fiscal years beginning no later than on or after January 1, 2011, the date which the Company has selected for adoption.

3 capital structure financial policies

The Company's objectives when managing capital are: (i) to maintain a flexible capital structure which optimizes the cost of capital at acceptable risk; and (ii) to manage capital in a manner which balances the interests of equity and debt holders.

In the management of capital, the Company includes Common Share and Non-Voting Share equity (excluding accumulated other comprehensive income), long-term debt (including any associated hedging assets or liabilities, net of amounts recognized in accumulated other comprehensive income), cash and temporary investments and securitized accounts receivable in the definition of capital.

The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to holders of Common Shares and Non-Voting Shares, purchase shares for cancellation pursuant to permitted normal course issuer bids, issue new shares, issue new debt, issue new debt to replace existing debt with different characteristics and/or increase or decrease the amount of sales of trade receivables to an arm's-length securitization trust.

The Company monitors capital on a number of bases, including: net debt to Earnings Before Interest, Taxes, Depreciation and Amortization – excluding restructuring costs (EBITDA – excluding restructuring costs); and dividend payout ratios.

Net debt to EBITDA – excluding restructuring costs is calculated as net debt at the end of the period divided by twelve-month trailing EBITDA – excluding restructuring costs. Net debt is a measure that does not have any standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers; the calculation of net debt is as set out in the following schedule. Net debt is one component of a ratio used to determine compliance with debt covenants. The calculation of EBITDA – excluding restructuring costs is a measure that does not have any standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers; the calculation of EBITDA – excluding restructuring costs is as set out in the following schedule. This measure, historically, is substantially the same as the leverage ratio covenant in the Company's credit facilities.

The reported dividend payout ratio is calculated as the quarterly dividend declared per Common Share and Non-Voting Share, as recorded in the financial statements, multiplied by four and divided by the sum of basic earnings per share for the most recent four quarters for interim reporting periods (divided by annual basic earnings per share for fiscal years); the reported dividend payout ratio of adjusted net earnings differs in that it excludes: income tax-related adjustments; the loss on redemption of long term debt; and the ongoing impacts of the share options with the net-cash settlement feature.

During 2010, the Company's strategy, which was unchanged from 2009 (other than to change the dividend payout ratio guideline to 55-65% of sustainable net earnings on a prospective basis), included maintaining the financial policy set out in the following schedule. The Company believes that its financial policies and guidelines, which are reviewed annually, are currently at the optimal level and, by maintaining credit ratings in the range of BBB+ to A-, or the equivalent, provide reasonable access to capital.

As at, or twelve-month periods ended, March 31 (\$ in millions)	Policy	2010	2009
Components of debt and coverage ratios			
Net debt ⁽¹⁾		\$ 7,235	\$ 7,301
EBITDA – excluding restructuring costs ⁽²⁾		\$ 3,693	\$ 3,816
Net interest cost ⁽³⁾		\$ 549	\$ 449
Debt ratio			
Net debt to EBITDA – excluding restructuring costs	1.5 – 2.0	2.0	1.9
Coverage ratios			
Interest coverage on long-term debt ⁽⁴⁾		3.1	4.3
EBITDA – excluding restructuring costs interest coverage ⁽⁵⁾		6.7	8.5
Other measures			
Dividend payout ratio of adjusted net earnings ⁽⁶⁾		67%	57%
Dividend payout ratio		64%	52%

(1) Net debt is calculated as follows:

	2010	2009
Long-term debt (Note 16)	\$ 6,154	\$ 6,512
Debt issuance costs netted against long-term debt	29	27
Derivative liabilities, net	747	651
Accumulated other comprehensive income amounts arising from financial instruments used to manage interest rate and currency risks associated with U.S. dollar denominated debt (excluding tax effects)	(49)	(124)
Cash and temporary investments, net	(46)	(65)
Cumulative proceeds from accounts receivable securitization (Note 13)	400	300
Net debt	\$ 7,235	\$ 7,301

(2) EBITDA – excluding restructuring costs is calculated as follows:

	2010				2009			
	Period-to-date: add (deduct)				Period-to-date: add (deduct)			
	Comparative quarter	Prior fiscal year	Current quarter	Total	Comparative quarter	Prior fiscal year	Current quarter	Total
EBITDA (Note 5)	\$ (906)	\$ 3,491	\$ 940	\$ 3,525	\$ (949)	\$ 3,779	\$ 906	\$ 3,736
Restructuring costs (Note 6)	(28)	190	6	168	(7)	59	28	80
EBITDA – excluding restructuring costs	\$ (934)	\$ 3,681	\$ 946	\$ 3,693	\$ (956)	\$ 3,838	\$ 934	\$ 3,816

- (3) Net interest cost is defined as financing costs before gains on redemption and repayment of debt, calculated on a twelve-month trailing basis (losses recorded on the redemption of long-term debt, if any, are included in net interest cost).
- (4) Interest coverage on long-term debt is defined as net income before interest expense on long-term debt and income tax expense, divided by interest expense on long-term debt (including losses recorded on the redemption of long-term debt, if any).
- (5) EBITDA – excluding restructuring costs interest coverage is defined as EBITDA – excluding restructuring costs divided by net interest cost. This measure is substantially the same as the coverage ratio covenant in the Company's credit facilities.

(6) Adjusted net earnings per Common Share and Non-Voting Share is calculated as follows:

	2010	2009
Net income attributable to Common Shares and Non-Voting Shares	\$ 2.98	\$ 3.63
Income tax-related adjustments	(0.36)	(0.30)
Loss on redemption of long-term debt, net of income taxes	0.22	—
Impacts of share options with the net-cash settlement feature, net of income taxes	(0.01)	—
Adjusted net earnings per Common Share and Non-Voting Share - basic	\$ 2.83	\$ 3.63

The net debt to EBITDA – excluding restructuring costs ratio increased as the decrease in EBITDA – excluding restructuring costs was only partly offset by lower net debt. The interest coverage on long-term debt ratio was 3.1 times, down from 4.3 times one year earlier. An increase in long-term debt interest expense, mostly due to the losses on long-term debt redemption recorded in December 2009, decreased the ratio by 0.7, while lower income before income taxes and long-term debt interest expense decreased the ratio by 0.5. The EBITDA – excluding restructuring costs interest coverage ratio was 6.7 times, down from 8.5 times in 2009, due mainly to the losses on long-term debt redemption recorded in December 2009.

4 financial instruments

(a) Risks – overview

The Company's financial instruments and the nature of risks which they may be subject to are as set out in the following table.

Financial instrument	Risks				
	Credit	Liquidity	Currency	Market risks Interest rate	Other price
Measured at cost or amortized cost					
Cash and temporary investments	X		X	X	
Accounts receivable	X		X		
Accounts payable		X	X		
Restructuring accounts payable		X			
Short-term obligations		X		X	
Long-term debt		X	X	X	
Measured at fair value					
Short-term investments				X	X
Long-term investments					X
Foreign exchange derivatives ⁽¹⁾	X	X	X		
Share-based compensation derivatives ⁽¹⁾	X	X			X
Cross currency interest rate swap derivatives ⁽¹⁾	X	X	X	X	

(1) Use of derivative financial instruments is subject to a policy which requires that no derivative transaction be entered into for the purpose of establishing a speculative or leveraged position (the corollary being that all derivative transactions are to be entered into for risk management purposes only) and sets criteria for the creditworthiness of the transaction counterparties.

(b) Credit risk

Excluding credit risk, if any, arising from currency swaps settled on a gross basis (see (c)), the best representation of the Company's maximum exposure (excluding tax effects) to credit risk, which is a worst-case scenario and does not reflect results expected by the Company, is as set out in the following table:

As at (millions)	March 31, 2010	December 31, 2009
Cash and temporary investments, net	\$ 46	\$ 41
Accounts receivable	737	694
Derivative assets	5	1
	\$ 788	\$ 736

Cash and temporary investments: Credit risk associated with cash and temporary investments is minimized substantially by ensuring that these financial assets are placed with: governments; major financial institutions that have been accorded strong investment grade ratings by a primary rating agency; and/or other creditworthy counterparties. An ongoing review is performed to evaluate changes in the status of counterparties.

Accounts receivable: Credit risk associated with accounts receivable is minimized by the Company's large and diverse customer base, which covers substantially all consumer and business sectors in Canada. The Company follows a program

of credit evaluations of customers and limits the amount of credit extended when deemed necessary. The Company maintains allowances for potential credit losses, and any such losses to date have been within management's expectations.

The following table presents an analysis of the age of customer accounts receivable not allowed for as at the dates of the Consolidated Statements of Financial Position. As at March 31, 2010, the weighted average life of customer accounts receivable is 31 days (December 31, 2009 – 35 days) and the weighted average life of past-due customer accounts receivable is 76 days (December 31, 2009 – 72 days). No interest is charged on customer accounts which are current. Thereafter, interest is charged at a market rate on outstanding balances.

As at (millions)	March 31, 2010	December 31, 2009
Customer accounts receivable net of allowance for doubtful accounts		
Current	\$ 413	\$ 321
30-60 days past billing date	62	86
61-90 days past billing date	15	23
Greater than 90 days past billing date	66	67
	\$ 556	\$ 497
Customer accounts receivable (Note 19(b))	\$ 605	\$ 556
Allowance for doubtful accounts	(49)	(59)
	\$ 556	\$ 497

The Company must make significant estimates in respect of the allowance for doubtful accounts. Current economic conditions, historical information, why the accounts are past-due and line of business from which the customer accounts receivable arose are all considered when determining whether past-due accounts should be allowed for; the same factors are considered when determining whether to write off amounts charged to the allowance account against the customer account receivable. The provision for doubtful accounts is calculated on a specific-identification basis for customer accounts receivable over a specific balance threshold and on a statistically-derived allowance basis for the remainder. No customer accounts receivable are written off directly to the provision for doubtful accounts.

The following table presents a summary of the activity related to the Company's allowance for doubtful accounts.

Periods ended March 31 (millions)	Three months	
	2010	2009
Balance, beginning of period	\$ 59	\$ 77
Additions (provision for doubtful accounts)	16	26
Net use	(26)	(17)
Balance, end of period	\$ 49	\$ 86

Aside from the normal customer accounts receivable credit risk associated with its retained interest, the Company has no continuing exposure to credit risk associated with its trade receivables which are sold to an arm's-length securitization trust, as discussed further in Note 13.

Derivative assets (and derivative liabilities): Counterparties to the Company's cross currency interest rate swap agreements, share-based compensation cash-settled equity forward agreements and foreign exchange derivatives are major financial institutions that have all been accorded investment grade ratings by a primary rating agency. The dollar amount of credit exposure under contracts with any one financial institution is limited and counterparties' credit ratings are monitored. The Company does not give or receive collateral on swap agreements and hedging items due to its credit rating and those of its counterparties. While the Company is exposed to credit losses due to the non-performance of its counterparties, the Company considers the risk of this remote. The Company's derivative liabilities do not have credit-risk-related contingent features.

(c) Liquidity risk

As a component of the Company's capital structure financial policies, discussed further in Note 3, the Company manages liquidity risk by maintaining a daily cash pooling process which enables the Company to manage its liquidity surplus and liquidity requirements according to the actual needs of the Company and its subsidiaries, by maintaining bilateral bank facilities and syndicated credit facilities, by maintaining a commercial paper program, by the sales of trade receivables to an arm's-length securitization trust, by continuously monitoring forecast and actual cash flows and by managing maturity profiles of financial assets and financial liabilities. As disclosed in Note 16(c), the Company has significant debt maturities in future years. As at March 31, 2010, the Company has access to a shelf prospectus, in effect until October 2011, pursuant to which it can offer \$3 billion (December 31, 2009 – \$3 billion) of debt or equity securities. The Company believes that its investment grade credit ratings provide reasonable access to capital markets.

The Company closely matches the derivative financial liability contractual maturities with those of the risk exposures that they are being used to manage.

The Company's undiscounted financial liability expected maturities do not differ significantly from the contractual maturities. The Company's undiscounted financial liability contractual maturities, which include interest thereon (where applicable), are as set out in the following tables:

As at March 31, 2010 (millions)	Non-derivative					Derivative				Total
	Non-interest bearing financial liabilities	Long-term debt (see Note 16)			Other financial liabilities					
		All except capital leases ⁽¹⁾⁽²⁾	Capital leases	Currency swaps amounts to be exchanged ⁽²⁾		Other	Currency swaps amounts to be exchanged			
			(Receive)	Pay	(Receive)		Pay			
2010										
Second quarter	\$ 914	\$ 202	\$ —	\$ (55)	\$ 87	\$ 39	\$ (75)	\$ 78	\$ 1,190	
Balance of year	189	214	1	(55)	88	7	(83)	84	445	
2011	84	1,679	1	(1,423)	2,152	—	—	—	2,493

		Total (see Note 16(c))			\$ 9,185					

- Interest payment cash outflows in respect of commercial paper and amounts drawn under the Company's credit facilities (if any) have been calculated based upon the rates in effect as at March 31, 2010.
- The amounts included in the undiscounted non-derivative long-term debt in respect of the U.S. dollar denominated long-term debt, and the corresponding amounts included in the long-term debt currency swaps receive column, have been determined based upon the rates in effect as at March 31, 2010. The U.S. dollar denominated long-term debt contractual maturity amounts, in effect, are reflected in the long-term debt currency swaps pay column as gross cash flows are exchanged pursuant to the cross currency interest rate swap agreements.

The U.S. dollar denominated long-term debt contractual maturity amounts, in effect, are reflected in the long-term debt currency swaps pay column as gross cash flows are exchanged pursuant to the cross currency interest rate swap agreements.

(d) Currency risk

The Company's functional currency is the Canadian dollar, but it regularly transacts in U.S. dollars due to certain routine revenues and operating costs being denominated in U.S. dollars, as well as sourcing some inventory purchases and capital asset acquisitions internationally. The U.S. dollar is the only foreign currency to which the Company has a significant exposure.

The Company's foreign exchange risk management includes the use of foreign currency forward contracts and currency options to fix the exchange rates on short-term U.S. dollar denominated transactions and commitments. Hedge accounting is applied to these short-term foreign currency forward contracts and currency options on an exception basis only.

The Company is also exposed to currency risks in that the fair value or future cash flows of its U.S. dollar denominated long-term debt will fluctuate because of changes in foreign exchange rates. Currency hedging relationships have been established for the related semi-annual interest payments and principal payment at maturity.

(e) Interest rate risk

Changes in market interest rates will cause fluctuations in the fair value or future cash flows of temporary investments, short-term investments, short-term obligations, long-term debt and/or cross currency interest rate swap derivatives.

When the Company has temporary investments, they have short maturities and fixed rates, thus their fair value will fluctuate with changes in market interest rates; absent monetization prior to maturity, the related future cash flows do not change due to changes in market interest rates.

If the balance of short-term investments includes debt instruments and/or dividend-paying equity instruments, the Company could be exposed to interest rate risks.

As short-term obligations arising from bilateral bank facilities, which typically have variable interest rates, are rarely outstanding for periods that exceed one calendar week, interest rate risk associated with this item is not material.

In respect of the Company's currently outstanding long-term debt, other than for commercial paper and amounts drawn on its credit facilities (Note 16(b)), it is all fixed-rate debt. The fair value of fixed-rate debt fluctuates with changes in market interest rates; absent early redemption and/or foreign exchange rate fluctuations, the related future cash flows do not change. Due to the short maturities of commercial paper, its fair values are not materially affected by changes in market interest rates but its cash flows representing interest payments may be if the commercial paper is rolled over.

Amounts drawn on the Company's short-term and long-term credit facilities will be affected by changes in market interest rates in a manner similar to commercial paper.

Similar to fixed-rate debt, the fair value of the Company's cross currency interest rate swap derivatives fluctuates with changes in market interest rates as the interest rate swapped to is fixed; absent early redemption, the related future cash flows do not change due to changes in market interest rates.

(f) Other price risk

Short-term investments: If the balance of short-term investments includes equity instruments, the Company would be exposed to equity price risks.

Long-term investments: The Company is exposed to equity price risks arising from investments classified as available-for-sale. Such investments are held for strategic rather than trading purposes.

Share-based compensation derivatives: The Company is exposed to other price risk arising from cash-settled share-based compensation (appreciating Common Share and Non-Voting Share prices increase both the expense and the potential cash outflow). Cash-settled equity swap agreements have been entered into that establish a cap on the Company's cost associated with its net-cash settled share options (Note 11(b)) and fix the Company's cost associated with its restricted stock units (Note 11(c)).

(g) Market risk

Net income and other comprehensive income for the three-month periods ended March 31, 2010 and 2009, could have varied if the Canadian dollar: U.S. dollar foreign exchange rates, market interest rates and the Company's Common Share and Non-Voting Share prices varied by reasonably possible amounts from their actual statement of financial position date values.

The sensitivity analysis of the Company's exposure to currency risk at the reporting date has been determined based upon the hypothetical change taking place at the statement of financial position date (as contrasted with applying the hypothetical change to all relevant transactions during the reported periods). The U.S. dollar denominated balances and derivative financial instrument notional amounts as at the statement of financial position dates have been used in the calculations.

The sensitivity analysis of the Company's exposure to interest rate risk at the reporting date has been determined based upon the hypothetical change taking place at the beginning of the relevant fiscal year and being held constant through to the statement of financial position date. The relevant statement of financial position date principal and notional amounts have been used in the calculations.

The sensitivity analysis of the Company's exposure to other price risk arising from share-based compensation at the reporting date has been determined based upon the hypothetical change taking place at the relevant statement of financial position date. The relevant statement of financial position date notional number of shares, including those in the cash-settled equity swap agreements, has been used in the calculations.

The income tax provisions, which are reflected net in the sensitivity analysis, reflect the applicable basic blended federal and provincial statutory income tax rates for the reporting periods.

Three-month periods ended March 31 (\$ increase (decrease) in millions)	Net income		Other comprehensive income		Comprehensive income	
	2010	2009	2010	2009	2010	2009
Reasonably possible changes in market risks ⁽¹⁾						
10% change in Cdn. \$: U.S.\$ exchange rate						
Canadian dollar appreciates	\$ (7)	\$ (8)	\$ (16)	\$ (34)	\$ (23)	\$ (42)
Canadian dollar depreciates	\$ 7	\$ 8	\$ 16	\$ 34	\$ 23	\$ 42
25 basis point change in market interest rate						
Rate increases	\$ (1)	\$ (1)	\$ 2	\$ 3	\$ 1	\$ 2
Rate decreases	\$ 1	\$ 1	\$ (2)	\$ (3)	\$ (1)	\$ (2)
25% ⁽²⁾ change in Common Share and Non-Voting Share prices ⁽³⁾						
Price increases	\$ (3)	\$ —	\$ 5	\$ 5	\$ 2	\$ 5
Price decreases	\$ (5)	\$ (10)	\$ (5)	\$ (5)	\$ (10)	\$ (15)

- (1) These sensitivities are hypothetical and should be used with caution. Changes in net income and/or other comprehensive income generally cannot be extrapolated because the relationship of the change in assumption to the change in net income and/or other comprehensive income may not be linear. In this table, the effect of a variation in a particular assumption on the amount of net income and/or other comprehensive income is calculated without changing any other assumption; in reality, changes in one factor may result in changes in another (for example, increases in market interest rates may result in more favourable foreign exchange rates (increased strength of the Canadian dollar)), which might magnify or counteract the sensitivities.
- The sensitivity analysis assumes that changes in exchange rates and market interest rates would be realized by the Company; in reality, the competitive marketplace in which the Company operates would impact this assumption.
- No provision has been made for a difference in the notional number of shares associated with share-based compensation awards made during the reporting period that may have arisen due to a difference in the Non-Voting Share price.
- (2) To facilitate ongoing comparison of sensitivities, a constant variance of approximate magnitude has been used. Reflecting a 4.5-year data period and calculated on a monthly basis, which is consistent with the current assumptions and methodology set out in Note 11(b), the volatility of the Company's Non-Voting Share price as at March 31, 2010, was 26.6% (2009 – 26.0%); reflecting the three-month data period ended March 31, 2010, the volatility was 22.2% (2009 – 20.4%).
- (3) The hypothetical effects of changes in the prices of the Company's Common Share and Non-Voting Shares are restricted to those which would arise from the Company's share-based compensation items which are accounted for as liability instruments and the associated cash-settled equity swap agreements.

The Company is exposed to other price risks in respect of its financial instruments, as discussed further in (f).

(h) Fair values

General: The carrying value of cash and temporary investments, accounts receivable, accounts payable, restructuring accounts payable and short-term obligations approximates their fair values due to the immediate or short-term maturity of these financial instruments. The carrying values of the Company's investments accounted for using the cost method do not exceed their fair values.

The carrying value of short-term investments, if any, equals their fair value as they are classified as held for trading. The fair value is determined directly by reference to quoted market prices in active markets.

The fair values of the Company's long-term debt are based on quoted market prices in active markets.

The fair values of the Company's derivative financial instruments used to manage exposure to interest rate and currency risks are estimated based on quoted market prices in active markets for the same or similar financial instruments or on the current rates offered to the Company for financial instruments of the same maturity as well as the use of discounted future cash flows using current rates for similar financial instruments subject to similar risks and maturities.

The fair values of the Company's derivative financial instruments used to manage exposure to increases in compensation costs arising from certain forms of share-based compensation are based upon fair value estimates of the related cash-settled equity forward agreements provided by the counterparty to the transactions (such fair value estimates being largely based upon the Company's Common Share and Non-Voting Share prices as at the statement of financial position dates).

The Company's financial instruments that are measured at fair value on a recurring basis in periods subsequent to initial recognition and the level within the fair value hierarchy used to measure them are as set out in the following table.

As at (millions)	Fair value measurements at reporting date using							
	Carrying value		Quoted prices in active markets for identical items (Level 1)		Significant other observable inputs (Level 2)		Significant unobservable inputs (Level 3)

5 segmented information

The Company's reportable segments are Wireline and Wireless. The Wireline segment includes voice local, voice long distance, data and other telecommunications services excluding wireless. The Wireless segment includes digital personal communications services, equipment sales and wireless Internet services. Segmentation is based on similarities in technology, the technical expertise required to deliver the products and services, customer characteristics, the distribution channels used and regulatory treatment. Intersegment sales are recorded at the exchange value, which is the amount agreed to by the parties. The following segmented information is regularly reported to the Company's Chief Executive Officer (the Company's chief operating decision-maker).

Three-month periods ended March 31 (millions)	Wireline		Wireless		Eliminations		Consolidated		
	2010	2009	2010	2009	2010	2009	2010	2009

CAPEX ⁽²⁾	\$ 252	\$ 278	\$ 59	\$ 196	\$ —	\$ —	\$ 311	\$ 474	
EBITDA less CAPEX	\$ 191	\$ 140	\$ 438	\$ 292	\$ —	\$ —	\$ 629	\$ 432	
							EBITDA (from above)	\$ 940	\$ 906
							Depreciation	345	334
							Amortization	108	93
							Operating income	487	479
							Other expense, net	8	5
							Financing costs	112	95
							Income before income taxes	367	379
							Income taxes	99	57
							Net income	\$ 268	\$ 322

- (1) Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) is a measure that does not have any standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers; EBITDA is defined by the Company as operating revenues less operations expense and restructuring costs. The Company has issued guidance on, and reports, EBITDA because it is a key measure used by management to evaluate performance of its business segments and is utilized in measuring compliance with certain debt covenants.
- (2) Total capital expenditures (CAPEX).

6 restructuring costs

Periods ended March 31 (millions)	Three months	
	2010	2009
Restructuring costs		
Workforce		
Voluntary	\$ 3	\$ 5
Involuntary	3	22
Other	—	1
	6	28

Involuntary and other	31	26
Other	1	1
	55	29
Expenses greater (less) than disbursements	(49)	(1)
Restructuring accounts payable and accrued liabilities		
Balance, beginning of period	135	51
Balance, end of period	\$ 86	\$ 50

In 2010 ongoing efficiency initiatives include:

- simplifying or automating processes to achieve operating efficiencies;
- simplifying organizational structures through consolidation of functions and reducing organizational layers;
- decommissioning uneconomic products and services; and
- leveraging business process outsourcing and off-shoring to the Company's own international call centres.

These initiatives were aimed to improve the Company's long-term operating productivity and competitiveness. The Company's estimate of restructuring costs for 2010 is approximately \$75 million.

7 financing costs

Periods ended March 31 (millions)	Three months	
	2010	2009
Interest on long-term debt	\$ 113	\$ 114
Interest on short-term obligations and other	—	1
Foreign exchange	—	(7)
	113	108
Interest income		
Interest on tax refunds	—	(12)
Other interest income	(1)	(1)
	(1)	(13)
	\$ 112	\$ 95

8 income taxes

Periods ended March 31 (millions)	Three months	
	2010	2009
Current	\$ 68	\$ 68
Future	31	(11)
	\$ 99	\$ 57

The Company's income tax expense differs from that calculated by applying statutory rates for the following reasons:

Three-month periods ended March 31 (\$ in millions)	2010		2009	
Basic blended federal and provincial tax at statutory income tax rates	\$ 106	28.9%	\$ 115	30.3%
Revaluation of future income tax liability to reflect future statutory income tax rates	(7)		(19)	
Tax rate differential on, and consequential adjustments from, reassessment of prior year tax issues	(1)		(40)	
Share option award compensation	1		1	
Income tax expense per Consolidated Statements of Income and Other Comprehensive Income	\$ 99	27.0%	\$ 57	15.0%

The Company must make significant estimates in respect of the composition of its future income tax liability. The operations of the Company are complex and the related tax interpretations, regulations and legislation are continually changing. As a result, there are usually some tax matters in question. The Company conducts research and development activities, which are eligible to earn Investment Tax Credits. During the three-month period ended March 31, 2010, the Company recorded Investment Tax Credits of \$1 million (2009 – \$1 million), all of which was recorded as a reduction of Operations expense.

9 per share amounts

Basic net income per Common Share and Non-Voting Share is calculated by dividing net income attributable to Common Shares and Non-Voting Shares by the total weighted average Common Shares and Non-Voting Shares outstanding during the period. Diluted net income per Common Share and Non-Voting Share is calculated to give effect to share option awards.

The following table presents the reconciliations of the denominators of the basic and diluted per share computations. Net income attributable to Common Shares and Non-Voting Shares equalled diluted income attributable to Common Shares and Non-Voting Shares for all periods presented.

Periods ended March 31 (millions)	Three months	
	2010	2009
Basic total weighted average Common Shares and Non-Voting Shares outstanding	318	318
Effect of dilutive securities		
Share option awards	1	—
Diluted total weighted average Common Shares and Non-Voting Shares outstanding	319	318

For the three-month period ended March 31, 2010, certain outstanding share option awards, in the amount of 8 million (2009 – 9 million) were not included in the computation of diluted income per Common Share and Non-Voting Share because the share option awards' exercise prices were greater than the average market price of the Common Shares and Non-Voting Shares during the reported periods.

10 dividends per share

(a) Dividends declared

Three-month periods ended March 31 (millions except per share amounts)	2010			2009		
	Declared effective	Paid to shareholders	Total	Declared effective	Paid to shareholders	Total
Dividend per Common Share and Non-Voting Share Dividend \$0.475 (2009 – \$0.475)	Mar. 11, 2010	Apr. 1, 2010	\$ 152	Mar. 11, 2009	Apr. 1, 2009	\$ 151
Common Share and Non-Voting Share dividends paid, or payable, in cash			\$ 120			\$ 151
Common Share and Non-Voting Share dividends to be reinvested in Non-Voting Shares issued from Treasury			32			—
			\$ 152			\$ 151

Of the dividends payable at December 31, 2009, \$129 million was paid in cash and the balance was reinvested in Non-Voting Shares issued from Treasury.

On May 4, 2010, the Board of Directors declared a quarterly dividend of \$0.50 per share on the issued and outstanding Common Shares and Non-Voting Shares of the Company payable on July 2, 2010, to holders of record at the close of business on June 10, 2010. The final amount of the dividend payment depends upon the number of Common Shares and Non-Voting Shares issued and outstanding at the close of business on June 10, 2010.

(b) Dividend Reinvestment and Share Purchase Plan

The Company has a Dividend Reinvestment and Share Purchase Plan under which eligible holders of Common Shares and Non-Voting Shares may acquire Non-Voting Shares through the reinvestment of dividends and making additional optional cash payments to the trustee. Under this Plan, the Company has the option of offering shares from Treasury or having the trustee acquire shares in the stock market.

Reinvestment of dividends: The Company, at its discretion, may offer the Non-Voting Shares at up to a 5% discount from the market price. The Company announced that effective with the dividend paid January 4, 2010, Non-Voting Shares will be issued from Treasury at a discount of 3%. In respect of Common Share and Non-Voting Share dividends declared during the three-month period ended March 31, 2010, \$32 million (2009 – \$5 million) was to be reinvested in Non-Voting Shares.

Optional cash payments: Shares purchased through optional cash payments are subject to a minimum investment of \$100 per transaction and a maximum investment of \$20,000 per calendar year.

11 share-based compensation

(a) Details of share-based compensation expense

Reflected in the Consolidated Statements of Income and Other Comprehensive Income as Operations expense and in the Consolidated Statements of Cash Flows are the following share-based compensation amounts:

Three-month periods ended March 31 (millions)	2010			2009		
	Operations expense	Associated operating cash outflows	Statement of cash flows adjustment	Operations expense	Associated operating cash outflows	Statement of cash flows adjustment
Share option awards ⁽¹⁾	\$ 1	\$ (6)	\$ (5)	\$ 5	\$ (3)	\$ 2
Restricted stock units ⁽²⁾	7	(1)	6	8	(1)	7
Employee share purchase plan	7	(7)	—	8	(8)	—
	\$ 15	\$ (14)	\$ 1	\$ 21	\$ (12)	\$ 9

(1) The expense (recovery) arising from share options with the net-cash settlement feature, net of cash-settled equity swap agreement effects (see Note 4(i)), was \$(2) (2009 – \$1).

(2) The expense arising from restricted stock units was net of cash-settled equity swap agreement effects (see Note 4(i)).

For the three-month period ended March 31, 2010, the associated operating cash outflows in respect of share option awards include cash outflows arising from the cash-settled equity swap agreements of \$5 million (2009 – \$2 million). For the three-month period ended March 31, 2010, the income tax benefit arising from share-based compensation was \$3 million (2009 – \$5 million); as disclosed in Note 8, not all share-based compensation amounts are deductible for income tax purposes.

(b) Share option awards

General: The Company applies the fair value based method of accounting for share-based compensation awards granted to employees. Share option awards typically vest over a three-year period (the requisite service period), but may vest over periods of up to five years. The vesting method of share option awards, which is determined on or before the date of grant, may be either cliff or graded; all share option awards granted subsequent to 2004 have been cliff-vesting awards.

Share option awards accounted for as equity instruments: The weighted average fair value of share option awards granted, and the weighted average assumptions used in the fair value estimation at the time of grant, using the Black-Scholes model (a closed-form option pricing model), are as follows:

Periods ended March 31	Three months	
	2010	2009
Share option award fair value (per share option)	\$ 4.22	\$ 3.63
Risk free interest rate	2.5%	2.3%
Expected lives ⁽¹⁾ (years)	4.5	4.5
Expected volatility	26.3%	26.0%
Dividend yield	5.8%	6.2%

(1) The maximum contractual term of the share option awards granted in 2010 and 2009 was seven years.

The risk free interest rate used in determining the fair value of the share option awards is based on a Government of Canada yield curve that is current at the time of grant. The expected lives of the share option awards are based on historical share option award exercise data of the Company. Similarly, expected volatility considers the historical volatility of the Company's Non-Voting Shares. The dividend yield is the annualized dividend current at the date of grant divided by the share option award exercise price. Dividends are not paid on unexercised share option awards and are not subject to vesting.

Some share option awards have a net-equity settlement feature. As discussed further in Note 17(c), it is at the Company's option whether the exercise of a share option award is settled as a share option or settled using the net-equity settlement feature.

Share option awards accounted for as liability instruments: Substantially all of the Company's outstanding share option awards that were granted prior to January 1, 2005, have a net-cash settlement feature; the optionee has the choice of exercising the net-cash settlement feature. The affected outstanding share option awards largely take on the characteristics of liability instruments rather than equity instruments. For the outstanding share option awards that were amended and which were granted subsequent to 2001, the minimum expense recognized for them will be their grant-date fair values.

The Company entered into a cash-settled equity swap agreement that establishes a cap on the Company's cost associated with substantially all of the affected outstanding share option awards. The following table sets out the number of affected outstanding share option awards and the composition of their capped exercise date fair values.

As at March 31, 2010 (\$ in millions except per affected outstanding share option award)	Weighted average			Exercise date fair value capped by cash-settled equity swap agreement	Affected share option awards outstanding	Aggregate intrinsic value ⁽¹⁾	Associated notional amount of cash-settled equity swap agreement (Note 4(h))
	Exercise price	Grant-date fair value	Incremental expense arising from net-cash settlement feature				
Affected share option awards granted for							
Common Shares prior to 2002	\$ 38.72	N/A ⁽²⁾	\$ 15.54	\$ 54.26	105,010	\$ —	\$ 3
Non-Voting Shares prior to 2002	\$ 30.79	N/A ⁽²⁾	\$ 24.36	\$ 55.15	1,205,838	6	63
Non-Voting Shares after 2001	\$ 23.35	\$ 7.37	\$ 24.43	\$ 55.15	963,199	13	51
					2,274,047	\$ 19	\$ 117

(1) The aggregate intrinsic value is calculated upon March 31, 2010, per share prices of \$37.80 for Common Shares and \$36.34 for Non-Voting Shares. The difference between the aggregate intrinsic value amount in this table and the amount disclosed in Note 19(b) is the effect, if any, of recognizing no less than the expense arising from the grant-date fair values for the affected share option awards outstanding.

(2) Canadian GAAP did not require that grant date fair values be determined for share option awards made prior to 2002.

(c) Restricted stock units

The Company uses restricted stock units as a form of incentive compensation. Each restricted stock unit is equal in value to one Non-Voting Share and the dividends that would have arisen thereon had it been an issued and outstanding Non-Voting Share; the notional dividends are recorded as additional issuances of restricted stock units during the life of the restricted stock unit. The restricted stock units become payable when vesting is completed. The restricted stock units typically vest over a period of 33 months (the requisite service period). The vesting method of restricted stock units, which is determined on or before the date of grant, may be either cliff or graded. The associated liability is normally cash-settled.

The following table presents a summary of the activity related to the Company's restricted stock units.

Period ended March 31, 2010	Three months		Weighted average grant-date fair value
	Number of restricted stock units		
	Non-vested	Vested	
Outstanding, beginning of period			
Non-vested	1,385,091	—	\$ 37.76
Vested	—	24,226	37.03
Issued			
Initial award	637,369	—	32.65
In lieu of dividends	25,868	—	36.66
Vested	(4,807)	4,807	39.14
Settled in cash	—	(27,772)	37.33
Forfeited and cancelled	(20,352)	—	37.81
Outstanding, end of period			
Non-vested	2,023,169	—	\$ 36.13
Vested	—	1,261	\$ 38.54

With respect to certain issuances of restricted stock units, the Company entered into cash-settled equity forward agreements that fix the cost to the Company; that information, as well as a schedule of the Company's non-vested restricted stock units outstanding as at March 31, 2010, is set out in the following table.

	Number of fixed-cost restricted stock units	Cost fixed to the Company per restricted stock unit	Number of variable-cost restricted stock units	Total number of non-vested restricted stock units
Vesting in years ending December 31:				
2010	600,000	\$ 49.22	175,024	775,024
2011	390,000	\$ 33.79	243,259	633,259
2012	420,000	\$ 35.91	194,886	614,886
	1,410,000		613,169	2,023,169

(d) Employee share purchase plan

The Company has an employee share purchase plan under which eligible employees up to a certain job classification can purchase Common Shares through regular payroll deductions by contributing between 1% and 10% of their pay; for more highly compensated job classifications, employees may contribute between 1% and 55% of their pay. For every dollar contributed by an employee, up to a maximum of 6% of eligible employee pay, the Company is required to contribute a percentage between 20% and 40% as designated by the Company. For the three-month period ended March 31, 2010, the Company contributed 40% (2009 – 40%) for employees up to a certain job classification; for more highly compensated job classifications, the Company contributed 35% (2009 – 35%). The Company records its contributions as a component of operating expenses and, prior to fiscal 2010, there were no vesting requirements. Subsequent to 2009, the Company's contribution vests on the earlier of a plan participant's last day in the Company's employ or the last business day of the calendar year of the Company's contribution, unless the plan participant's employment was terminated with cause, in which case the plan participant will forfeit their in-year Company contribution.

Periods ended March 31 (millions)	Three months	
	2010	2009
Employee contributions	\$ 19	\$ 22
Company contributions	7	8
	\$ 26	\$ 30

Under this plan, the Company has the option of offering shares from Treasury or having the trustee acquire shares in the stock market. For the three-month periods ended March 31, 2010 and 2009, all Common Shares issued to employees under the plan were purchased on the market at normal trading prices.

12 employee future benefits

(a) Defined benefit pension plans – cost

The Company's net defined benefit pension plan costs were as follows:

Three-month periods ended March 31 (millions)	2010			2009		
	Incurred in period	Matching adjustments ⁽¹⁾	Recognized in period	Incurred in period	Matching adjustments ⁽¹⁾	Recognized in period
Pension benefit plans						
Current service cost (employer portion)	\$ 18	\$ —	\$ 18	\$ 13	\$ —	\$ 13
Interest cost	92	—	92	93	—	93
Return on plan assets	(105)	(8)	(113)	112	(213)	(101)
Past service costs	—	1	1	—	1	1
Actuarial loss	21	—	21	9	—	9
Amortization of transitional asset	—	(12)	(12)	—	(11)	(11)
	\$ 26	\$ (19)	\$ 7	\$ 227	\$ (223)	\$ 4

(1) Accounting adjustments to allocate costs to different periods so as to recognize the long-term nature of employee future benefits.

(b) Defined contribution plans

The Company's total defined contribution pension plan costs recognized were as follows:

Periods ended March 31 (millions)	Three months	
	2010	2009
Union pension plan and public service pension plan contributions	\$ 6	\$ 7
Other defined contribution pension plans	10	9
	\$ 16	\$ 16

13 accounts receivable

On July 26, 2002, TELUS Communications Inc., a wholly owned subsidiary of TELUS, entered into an agreement with an arm's-length securitization trust associated with a major Schedule I bank under which TELUS Communications Inc. is able to sell an interest in certain of its trade receivables up to a maximum of \$500 million (December 31, 2009 – \$500 million). This revolving-period securitization agreement had an initial term ending July 18, 2007; a November 30, 2006, amendment resulted in the term being extended to July 18, 2008; a March 31, 2008, amendment resulted in the term being extended to July 17, 2009; and a May 6, 2009, amendment resulted in the term being extended to May 6, 2012.

Transfers of receivables in securitization transactions are recognized as sales when the Company is deemed to have surrendered control over the transferred receivables and consideration, other than for its beneficial interests in the transferred receivables, has been received. When the Company sells its receivables, it retains reserve accounts, which are retained interests in the securitized receivables, and servicing rights. When a transfer is considered a sale, the Company derecognizes all receivables sold, recognizes at fair value the assets received and the liabilities incurred and records the gain or loss on sale in the Consolidated Statements of Income and Other Comprehensive Income as Other expense, net. The amount of gain or loss recognized on the sale of receivables depends in part on the previous carrying amount of the receivables involved in the transfer, allocated between the receivables sold and the retained interests based upon their relative fair market value at the sale date. The Company estimates the fair value for its retained interests based on the present value of future expected cash flows using management's best estimates of the key assumptions (credit losses, the weighted average life of the receivables sold and discount rates commensurate with the risks involved).

As a result of selling the interest in certain of the trade receivables on a fully-serviced basis, a servicing liability is recognized on the date of sale and is, in turn, amortized to earnings over the expected life of the trade receivables.

TELUS Communications Inc. is required to maintain at least a BBB (low) credit rating by Dominion Bond Rating Service or the securitization trust may require the sale program to be wound down prior to the end of the term; at March 31, 2010, the rating was A (low).

As at (millions)	March 31, 2010	December 31, 2009
Total managed portfolio	\$ 1,144	\$ 1,201
Securitized receivables	(482)	(598)
Retained interest in receivables sold	75	91
Receivables held	\$ 737	\$ 694

For the three-month period ended March 31, 2010, the Company recognized composite losses of \$2 million (2009 – \$2 million) on the sale of receivables arising from the securitization.

Cash flows from the securitization were as follows:

Periods ended March 31 (millions)	Three months	
	2010	2009
Cumulative proceeds from securitization, beginning of period	\$ 500	\$ 300
Securitization reduction payments	(100)	—
Cumulative proceeds from securitization, end of period	\$ 400	\$ 300
Proceeds from collections reinvested in revolving-period securitizations	\$ 1,080	\$ 817
Proceeds from collections pertaining to retained interest	\$ 198	\$ 135

The key economic assumptions used to determine the loss on sale of receivables, the future cash flows and fair values attributed to the retained interest were as follows:

Periods ended March 31	Three months	
	2010	2009
Expected credit losses as a percentage of accounts receivable sold	1.1%	1.3%
Weighted average life of the receivables sold (days)	35	34
Effective annual discount rate	0.8%	1.2%
Servicing	1.0%	1.0%

Generally, the sold trade receivables do not experience prepayments.

At March 31, 2010, key economic assumptions and the sensitivity of the current fair value of residual cash flows to immediate 10% and 20% changes in those assumptions were as follows:

(\$ in millions)	March 31, 2010	Hypothetical change in assumptions ⁽¹⁾	
		10%	20%
Carrying amount/fair value of future cash flows	\$ 75		
Expected credit losses as a percentage of accounts receivable sold		\$ 1	\$ 1
Weighted average life of the receivables sold (days)		\$ —	\$ —
Effective annual discount rate		\$ —	\$ —

- (1) These sensitivities are hypothetical and should be used with caution. Favourable hypothetical changes in the assumptions result in an increased value, and unfavourable hypothetical changes in the assumptions result in a decreased value, of the retained interest in receivables sold. As the figures indicate, changes in fair value based on a 10% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of a variation in a particular assumption on the fair value of the retained interest is calculated without changing any other assumption; in reality, changes in one factor may result in changes in another (for example, increases in market interest rates may result in increased credit losses), which might magnify or counteract the sensitivities.

Less: Current maturities			82	82
Long-Term Debt – non-current			\$ 6,072	\$ 6,090

(1) Interest is payable semi-annually.

(2) Principal face value of notes is U.S.\$1,348 million (December 31, 2009 – U.S.\$1,348 million).

(b) TELUS Corporation credit facilities

On March 2, 2007, TELUS Corporation entered into a \$2.0 billion bank credit facility with a syndicate of financial institutions. The credit facility consists of a \$2.0 billion (or U.S. dollar equivalent) revolving credit facility expiring on May 1, 2012, to be used for general corporate purposes including the backstop of commercial paper.

TELUS Corporation's credit facility expiring on May 1, 2012, is unsecured and bears interest at prime rate, U.S. Dollar Base Rate, a bankers' acceptance rate or London interbank offered rate (LIBOR) (all such terms as used or defined in the credit facility), plus applicable margins. The credit facility contains customary representations, warranties and covenants including two financial quarter-end financial ratio tests. The financial ratio tests are that the Company may not permit its net debt to operating cash flow ratio to exceed 4.0:1 and may not permit its operating cash flow to interest expense ratio to be less than 2.0:1, each as defined under the credit facility.

On June 19, 2009, TELUS Corporation entered into an amended \$300 million revolving credit facility with a syndicate of financial institutions, expiring December 31, 2010. The credit facility is unsecured and bears interest at prime rate or bankers' acceptance rate (all such terms as used or defined in the credit facility), plus applicable margins.

Continued access to TELUS Corporation's credit facilities is not contingent on the maintenance by TELUS Corporation of a specific credit rating.

As at (millions)	March 31, 2010			December 31, 2009		
	May 1, 2012	December 31, 2010	Total	May 1, 2012	December 31, 2010	Total

2014	700	—	—	—	—	—	700	
Thereafter	2,949	—	—	—	—	—	2,949	
Future cash outflows in respect of long-term debt principal repayments	4,824	2	1,369	(1,369)	2,064	2,064	6,890	
Future cash outflows in respect of associated interest and like carrying costs ⁽²⁾	2,032	—	164	(164)	263	263	2,295	
Undiscounted contractual maturities (Note 4(c))	\$ 6,856	\$ 2	\$ 1,533	\$ (1,533)	\$ 2,327	\$ 2,327	\$ 9,185	

(1) Where applicable, principal-related cash flows reflect foreign exchange rates at March 31, 2010.

(2) Future cash outflows in respect of associated interest and like carrying costs for commercial paper and amounts drawn under the Company's credit facilities (if any) have been calculated based upon the rates in effect as at March 31, 2010.

17 Common Share and Non-Voting Share equity

(a) Authorized share capital

As at March 31, 2010 and December 31, 2009, the Company's authorized share capital consisted of 1 billion no par value shares of each of the following classes: First Preferred Shares; Second Preferred Shares; Common Shares; and Non-Voting Shares. Only holders of Common Shares may vote at general meetings of the Company with each holder of Common Shares being entitled to one vote per Common Share held at all such meetings.

With respect to priority in payment of dividends and in the distribution of assets in the event of liquidation, dissolution or winding-up of the Company, whether voluntary or involuntary, or any other distribution of the assets of the Company among its shareholders for the purpose of winding-up its affairs, preferences are as follows: First Preferred Shares; Second Preferred Shares; and finally Common Shares and Non-Voting Shares participating equally, without preference or distinction.

Non-Voting Shares have conversion rights that, in certain instances (such as if a change in foreign ownership restrictions were to occur), allow the holders of Non-Voting Shares to convert them to Common Shares on a one-for-one basis.

(b) Accumulated other comprehensive income (loss)

Three-month periods ended March 31 (millions)	2010					2009				
	Other comprehensive income (loss)			Accumulated other comprehensive income (loss)		Other comprehensive income (loss)			Accumulated other comprehensive income (loss)	
	Amount arising	Income taxes	Net	Beginning of period	End of period	Amount arising	Income taxes	Net	Beginning of period	End of period
Change in unrealized fair value of derivatives designated as cash flow hedges (Note 4(i))										
Gains (losses) arising in current period	\$ (26)	\$ (1)	\$ (25)			\$ 129	\$ 26	\$ 103		
(Gains) losses arising in prior periods and transferred to net income in the current period	49	7	42			(87)	(13)	(74)		
	23	6	17	\$ (53)	\$ (36)	42	13	29	\$ (122)	\$ (93)
Cumulative foreign currency translation adjustment	(1)	—	(1)	(19)	(20)	1	—	1	(7)	(6)
Change in unrealized fair value of available-for- sale financial assets and recognition of amounts realized	—	—	—	—	—	—	—	—	(1)	(1)
	\$ 22	\$ 6	\$ 16	\$ (72)	\$ (56)	\$ 43	\$ 13	\$ 30	\$ (130)	\$ (100)

The net amount of the existing gains (losses) arising from the unrealized fair value of the 2011 cross currency interest rate swap agreements, which are derivatives that are designated as cash flow hedges and are reported in accumulated other comprehensive income, would be reclassified to net income if the agreements were early terminated; the amount and timing of such reclassification would be dependent upon fair values and amounts of the agreements terminated and other associated pertinent facts. As at March 31, 2010, the Company's estimate of the net amount of existing gains (losses) arising from the unrealized fair value of derivatives designated as cash flow hedges, other than in respect of the 2011 cross currency interest rate swap agreements, which are reported in accumulated other comprehensive income and are expected to be reclassified to net income in the next twelve months, excluding tax effects, is \$2 million.

(c) Share option plans

The Company has a number of share option plans under which officers and other employees may receive options to purchase Non-Voting Shares at a price equal to the fair market value at the time of grant; prior to 2001, options were also similarly awarded in respect of Common Shares. Prior to 2002, directors were also awarded options to purchase Non-Voting Shares and Common Shares at a price equal to the fair market value at the time of grant. Option awards currently granted under the plans may be exercised over specific periods not to exceed seven years from the time of grant; prior to 2003, share option awards were granted with exercise periods not to exceed ten years.

The following table presents a summary of the activity related to the Company's share option plans.

Period ended March 31, 2010	Three months	
	Number of share options	Weighted average share option price
Outstanding, beginning of period	11,057,916	\$ 38.08
Granted	2,645,600	32.63
Exercised ⁽¹⁾	(102,024)	24.33
Forfeited	(162,190)	40.06
Expired	(121,505)	38.29
Outstanding, end of period	13,317,797	\$ 37.08

- (1) The total intrinsic value of share option awards exercised for the three-month period ended March 31, 2010, was \$1 million (reflecting a weighted average price at the dates of exercise of \$33.87 per share). The tax benefit realized for the tax deductions from share option exercises for the three-month period ended March 31, 2010, was \$NIL.

In 2006, certain outstanding grants of share option awards, which were made after 2001, had a net-equity settlement feature applied to them. This event did not result in the optionees receiving incremental value and therefore modification accounting was not required for it. The optionee does not have the choice of exercising the net-equity settlement feature. It is at the Company's discretion whether an exercise of the share option award is settled as a share option or using the net-equity settlement feature. In 2007, certain outstanding grants of share option awards had a net-cash settlement feature applied to them, as further discussed in Note 11(b); the optionee has the choice of exercising the net-cash settlement feature.

The following table reconciles the number of share options exercised and the associated number of Common Shares and Non-Voting Shares issued.

Period ended March 31, 2010	Three months		
	Common Shares	Non-Voting Shares	Total
Shares issued pursuant to exercise of share options	1,876	3,870	5,746
Impact of optionee choosing to settle share option award exercises using net-cash settlement feature	22,394	67,409	89,803
Shares issued pursuant to use of share option award net-equity settlement feature	N/A ⁽¹⁾	2,080	2,080
Impact of Company choosing to settle share option award exercises using net-equity settlement feature	N/A ⁽¹⁾	4,395	4,395
Share options exercised	24,270	77,754	102,024

(1) Share option awards for Common Shares do not have a net-equity settlement feature.

The following is a life and exercise price stratification of the Company's share options outstanding as at March 31, 2010.

Options outstanding ⁽¹⁾								Options exercisable	
Range of option prices	Total							Number of shares	Weighted average price
Low	\$ 8.43	\$ 14.93	\$ 22.41	\$ 34.81	\$ 53.09	\$ 64.64	\$ 64.64		
High	\$ 10.75	\$ 22.06	\$ 33.14	\$ 50.47	\$ 64.64	\$ 64.64	\$ 64.64		
Year of expiry and number of shares									
2010	—	6,433	400,459	105,010	—	—	511,902	511,902	\$ 27.02
2011	—	4,200	845,603	737,509	—	—	1,587,312	1,587,312	\$ 29.33
2012	5,233	104,600	65,000	1,202,621	—	—	1,377,454	1,122,159	\$ 34.98
2013	—	—	—	1,203,201	52,196	—	1,255,397	1,104,880	\$ 43.28
2014	—	—	—	30,635	1,024,650	—	1,055,285	963,870	\$ 56.61
2015	—	—	19,475	2,456,931	—	—	2,476,406	—	\$ —
2016	—	—	2,408,441	—	—	—	2,408,441	—	\$ —
2017	—	—	2,635,125	10,475	—	—	2,645,600	—	\$ —
	5,233	115,233	6,374,103	5,746,382	1,076,846	13,317,797	5,290,123		
Weighted average remaining contractual life (years)	2.5	2.5	5.4	3.4	3.9	4.3			
Weighted average price	\$ 10.16	\$ 16.53	\$ 30.16	\$ 41.51	\$ 56.71	\$ 37.08			
Aggregate intrinsic value ⁽²⁾ (millions)	\$ —	\$ 2	\$ 39	\$ 2	\$ —	\$ 43			
Options exercisable									
Number of shares	5,233	115,233	1,311,062	2,877,509	981,086	5,290,123			
Weighted average remaining contractual life (years)	2.5	2.5	1.1	2.0	3.9	2.2			
Weighted average price	\$ 10.16	\$ 16.53	\$ 24.36	\$ 39.13	\$ 56.60	\$ 38.19			
Aggregate intrinsic value ⁽²⁾ (millions)	\$ —	\$ 2	\$ 16	\$ 2	\$ —	\$ 20			

(1) As at March 31, 2010, 12,183,701 share options, with a weighted average remaining contractual life of 4.2 years, a weighted average price of \$37.19 and an aggregate intrinsic value of \$40 million, are vested or were expected to vest; these amounts differ from the corresponding amounts for all share options outstanding due to an estimate for expected forfeitures.

(2) The aggregate intrinsic value is calculated upon March 31, 2010, per share prices of \$37.80 for Common Shares and \$36.34 for Non-Voting Shares.

As at March 31, 2010, less than one million Common Shares and approximately 15 million Non-Voting Shares were reserved for issuance, from Treasury, under the share option plans.

18 commitments and contingent liabilities

(a) Guarantees

Guarantees: Canadian generally accepted accounting principles require the disclosure of certain types of guarantees and their maximum, undiscounted amounts. The maximum potential payments represent a worst-case scenario and do not necessarily reflect results expected by the Company. Guarantees requiring disclosure are those obligations that require payments contingent on specified types of future events. In the normal course of its operations, the Company enters into obligations that GAAP may consider to be guarantees. As defined by Canadian GAAP, guarantees subject to these disclosure guidelines do not include guarantees that relate to the future performance of the Company. As at

March 31, 2010, the Company's maximum undiscounted guarantee amounts, without regard for the likelihood of having to make such payment, were not material.

Indemnification obligations: In the normal course of operations, the Company may provide indemnification in conjunction with certain transactions. The terms of these indemnification obligations range in duration and often are not explicitly defined. Where appropriate, an indemnification obligation is recorded as a liability. In many cases, there is no maximum limit on these indemnification obligations and the overall maximum amount of such indemnification obligations cannot be reasonably estimated. Other than obligations recorded as liabilities at the time of the transaction, historically the Company has not made significant payments under these indemnifications.

In connection with its 2001 disposition of TELUS' directory business, the Company agreed to bear a proportionate share of the new owner's increased directory publication costs if the increased costs were to arise from a change in the applicable CRTC regulatory requirements. The Company's proportionate share would have been 80% through May 2006, declining to 40% in the next five-year period and then to 15% in the final five years. As well, should the CRTC take any action which would result in the owner being prevented from carrying on the directory business as specified in the agreement, TELUS would indemnify the owner in respect of any losses that the owner incurred.

As at March 31, 2010, the Company has no liability recorded in respect of indemnification obligations.

(b) Claims and lawsuits

General: A number of claims and lawsuits (including class actions) seeking damages and other relief are pending against the Company. As well, the Company has received or is aware of certain intellectual property infringement claims and potential claims against the Company and, in some cases, numerous other wireless carriers and telecommunications service providers. In some instances, the matters are at a preliminary stage and the potential for liability and magnitude of potential loss cannot be readily determined currently. It is impossible at this time for the Company to predict with any certainty the outcome of any such claims, potential claims and lawsuits. However, subject to the foregoing limitations, management is of the opinion, based upon legal assessment and information presently available, that it is unlikely that any liability, to the extent not provided for through insurance or otherwise, would be material in relation to the Company's consolidated financial position, excepting the items enumerated following.

Certified class action: A class action was brought in August 2004, under the *Class Actions Act* (Saskatchewan), against a number of past and present wireless service providers including the Company. The claim alleges that each of the carriers is in breach of contract and has violated competition, trade practices and consumer protection legislation across Canada in connection with the collection of system access fees, and seeks to recover direct and punitive damages in an unspecified amount. In September 2007, the class was certified by the Saskatchewan Court of Queen's Bench. In February 2008, the same court removed from the class all customers of the Company who are bound by an arbitration clause, applying two recent decisions of the Supreme Court of Canada. In March 2010, the Company obtained leave to appeal the certification decision. Since the enactment of opt-out class action legislation in Saskatchewan, Plaintiff's counsel applied to certify a new national class in Saskatchewan making substantially the same allegations. That application was stayed by the court in December 2009 upon an application by the defendants to dismiss it for abuse of process, conditional on possible future changes in circumstance. In March, 2010, the plaintiffs applied for leave to appeal the stay decision. The Company believes that it has good defences to both actions.

Similar proceedings have also been filed by, or on behalf of, plaintiffs' counsel in other provincial jurisdictions.

Should the ultimate resolution of these actions differ from management's assessments and assumptions, a material adjustment to the Company's financial position and the results of its operations could result; management's assessments and assumptions include that a reliable estimate of the exposure cannot be made at this preliminary stage of the lawsuit.

Uncertified class actions: Uncertified class actions against the Company include a 2008 class action brought in Saskatchewan alleging that, among other things, Canadian telecommunications carriers including the Company have failed to provide proper notice of 9-1-1 charges to the public and have been deceitfully passing them off as government charges, as well as a 2008 class action brought in Ontario alleging that the Company has misrepresented its practice of "rounding up" wireless airtime to the nearest minute and charging for the full minute. The plaintiffs in these actions seek direct and punitive damages and other relief. The Company is assessing the merits of these claims but the potential for liability and magnitude of potential loss cannot be readily determined at this time.

19 additional financial information

(a) Statement of income and other comprehensive income

Periods ended March 31 (millions)	Three months	
	2010	2009
Operations expense⁽¹⁾:		
Cost of sales and service	\$ 788	\$ 797
Selling, general and administrative	641	644

20 differences between Canadian and United States generally accepted accounting principles

The Consolidated financial statements have been prepared in accordance with Canadian GAAP. As discussed further in Note 2, Canadian GAAP is being converged with IFRS-IASB. The United States Securities and Exchange Commission, effective March 4, 2008, no longer requires certain reporting issuers, such as the Company, to reconcile their financial statements included in their filings with the United States Securities and Exchange Commission and prepared in accordance with IFRS-IASB to U.S. GAAP. Upon the commencement of presenting the Company's financial statements in accordance with IFRS-IASB in fiscal 2011, the Company currently expects that it will cease reconciling its financial statements to U.S. GAAP.

The principles currently adopted in these financial statements conform in all material respects to those generally accepted in the United States except as summarized below.

Significant differences between Canadian GAAP and U.S. GAAP would have the following effect on reported net income of the Company:

Periods ended March 31 (millions except per share amounts)	Three months	
	2010	2009
Net income in accordance with Canadian GAAP	\$ 268	\$ 322
Adjustments:		
Operating expenses		
Operations (b)	(13)	(14)
Amortization of intangible assets (c)	(13)	(13)
Taxes on the above adjustments and tax rate changes (e)	7	10
Net income in accordance with U.S. GAAP	249	305
Other comprehensive income (loss), net of taxes (f)		
In accordance with Canadian GAAP	16	30
Change in pension related other comprehensive income accounts	18	9
In accordance with U.S. GAAP	34	39
Comprehensive income in accordance with U.S. GAAP	\$ 283	\$ 344
Net income in accordance with U.S. GAAP attributable to:		
Common Shares and Non-Voting Shares	\$ 248	\$ 304
Non-controlling interests	1	1
	\$ 249	\$ 305
Comprehensive income in accordance with U.S. GAAP attributable to:		
Common Shares and Non-Voting Shares	\$ 282	\$ 343
Non-controlling interests	1	1
	\$ 283	\$ 344
Net income in accordance with U.S. GAAP per Common Share and Non-Voting Share		
- Basic	\$ 0.78	\$ 0.96
- Diluted	\$ 0.78	\$ 0.96

The following is an analysis of retained earnings reflecting the application of U.S. GAAP:

Three-month periods ended March 31 (millions)	2010	2009
Balance at beginning of period	\$ 553	\$ 227
Net income in accordance with U.S. GAAP attributable to Common Shares and Non-Voting Shares	248	304
	801	531
Dividends	(152)	(151)
Balance at end of period	\$ 649	\$ 380

The following is an analysis of major statement of financial position categories reflecting the application of U.S. GAAP:

As at (millions)	March 31, 2010	December 31, 2009
Current Assets	\$ 1,195	\$ 1,127
Non-Current Assets		
Property, plant, equipment and other	7,637	7,729
Intangible assets	6,540	6,605
Goodwill	3,974	3,974
Other assets	301	253
	18,452	18,561
	\$ 19,647	\$ 19,688
Current Liabilities	\$ 2,737	\$ 2,964
Non-Current Liabilities		
Long-term debt	6,101	6,120
Other long-term liabilities	1,313	1,304
Deferred income taxes	1,365	1,323
	8,779	8,747
Total Liabilities	11,516	11,711
Owners' Equity		
Common Share and Non-Voting Share equity	8,110	7,956
Non-controlling interests	21	21
	8,131	7,977
	\$ 19,647	\$ 19,688

The following is a reconciliation of Common Share and Non-Voting Share equity incorporating the significant differences between Canadian and U.S. GAAP:

Common Share and Non-Voting Share equity						
As at March 31, 2010 (millions)	Common Shares	Non-Voting Shares	Contributed surplus	Retained earnings	Accumulated other comprehensive income (loss)	Total
Under Canadian GAAP	\$ 2,216	\$ 3,091	\$ 184	\$ 2,274	\$ (56)	\$ 7,709
Adjustments:						
Merger of BC TELECOM and TELUS (a), (c), (d)	1,733	883	—	(1,527)	(811)	278
Share-based compensation (b)	10	53	31	(94)	—	—
Acquisition of Cleamnet Communications Inc.						
Goodwill (d)	—	131	—	(8)	—	123
Convertible debentures	—	(3)	(1)	4	—	—
Under U.S. GAAP	\$ 3,959	\$ 4,155	\$ 214	\$ 649	\$ (867)	\$ 8,110

Common Share and Non-Voting Share equity						
As at December 31, 2009 (millions)	Common Shares	Non-Voting Shares	Contributed surplus	Retained earnings	Accumulated other comprehensive income (loss)	Total
Under Canadian GAAP	\$ 2,216	\$ 3,070	\$ 181	\$ 2,159	\$ (72)	\$ 7,554
Adjustments:						
Merger of BC TELECOM and TELUS (a), (c), (d)	1,733	883	—	(1,508)	(829)	279
Share-based compensation (b)	10	53	31	(94)	—	—
Acquisition of Cleamnet Communications Inc.						
Goodwill (d)	—	131	—	(8)	—	123
Convertible debentures	—	(3)	(1)	4	—	—
Under U.S. GAAP	\$ 3,959	\$ 4,134	\$ 211	\$ 553	\$ (901)	\$ 7,956

(a) Merger of BC TELECOM and TELUS

The business combination between BC TELECOM and TELUS Corporation (renamed TELUS Holdings Inc., which was wound up June 1, 2001) was accounted for using the pooling of interests method under Canadian GAAP. Under Canadian GAAP, the application of the pooling of interests method of accounting for the merger of BC TELECOM and TELUS Holdings Inc. resulted in a restatement of prior periods as if the two companies had always been combined. Under U.S. GAAP, the merger is accounted for using the purchase method. Use of the purchase method resulted in TELUS (TELUS Holdings Inc.) being acquired by BC TELECOM for \$4,662 million (including merger related costs of \$52 million) effective January 31, 1999.

(b) Operating expenses – Operations

Future employee benefits: Under U.S. GAAP, TELUS' future employee benefit assets and obligations have been recorded at their fair values on acquisition. Accounting for future employee benefits under Canadian GAAP changed to become more consistent with U.S. GAAP effective January 1, 2000. Canadian GAAP provides that the transitional balances can be accounted for prospectively. Therefore, to conform to U.S. GAAP, the amortization of the transitional amount needs to be removed from the future employee benefit expense.

Unlike Canadian GAAP, U.S. GAAP requires the full recognition of obligations associated with its employee future benefit plans. Under U.S. GAAP, the funded status of the Company's plans is shown gross on the consolidated statements of financial position and the difference between the net funded plan states and the net accrued benefit asset or liability is included as a component of accumulated other comprehensive income.

Share-based compensation: Both Canadian GAAP and U.S. GAAP require the use of the fair value method of accounting for share-based compensation for awards made after 2001 and 1994, respectively.

On a prospective basis, commencing January 1, 2006, there is no longer a difference between Canadian GAAP and U.S. GAAP share-based compensation expense recognized in the results of operations arising from current share-based compensation awards accounted for as equity instruments. As share option awards granted subsequent to 1994 and prior to 2002 are captured by U.S. GAAP, but are not captured by Canadian GAAP, differences in owners' equity accounts arising from these awards will continue.

Substantially all of the Company's outstanding share option awards that were granted prior to January 1, 2005, have a net-cash settlement feature; the optionee has the choice of exercising the net-cash settlement feature. The affected outstanding share option awards largely take on the characteristics of liability instruments rather than equity instruments; the minimum expense recognized for the affected share option awards will be their grant-date fair values. Under U.S. GAAP, the grant-date fair values of affected outstanding share option awards granted subsequent to 1994 affected the transitional amount whereas Canadian GAAP only considered grant-date fair values for affected

outstanding share option awards granted subsequent to 2001; for the three-month period ended March 31, 2010, this resulted in the U.S. GAAP expense being greater than the Canadian GAAP expense by \$NIL (2009 – \$1 million).

(c) Operating expenses – Amortization of intangible assets

As TELUS' intangible assets on acquisition have been recorded at their fair value (see (a)), amortization of such assets, other than for those with indefinite lives, needs to be included under U.S. GAAP; consistent with prior years, amortization is calculated using the straight-line method.

The incremental amounts recorded as intangible assets arising from the TELUS acquisition above are as follows:

As at (millions)	Cost	Accumulated amortization	Net book value	
			March 31, 2010	December 31, 2009
Intangible assets subject to amortization				
Subscribers – wireline	\$ 1,950	\$ 506	\$ 1,444	\$ 1,457
Intangible assets with indefinite lives				
Spectrum licences ⁽¹⁾	1,833	1,833	—	—
	\$ 3,783	\$ 2,339	\$ 1,444	\$ 1,457

(1) Accumulated amortization of spectrum licences is amortization recorded prior to 2002 and the transitional impairment amount.

Estimated aggregate amortization expense for intangible assets subject to amortization, calculated upon such assets held as at March 31, 2010, for each of the next five fiscal years is as follows:

Years ending December 31 (millions)	
2010 (balance of year)	\$ 322
2011	358
2012	233
2013	108
2014	82

(d) Goodwill

Merger of BC TELECOM and TELUS: Under the purchase method of accounting, TELUS' assets and liabilities at acquisition (see (a)) have been recorded at their fair values with the excess purchase price being allocated to goodwill in the amount of \$403 million. Commencing January 1, 2002, rather than being systematically amortized, the carrying value of goodwill is periodically tested for impairment.

Additional goodwill on Clearnet purchase: Under U.S. GAAP, shares issued by the acquirer to effect an acquisition are measured at the date the acquisition was announced; however, under Canadian GAAP, at the time the transaction took place, shares issued to effect an acquisition were measured at the transaction date. This results in the purchase price under U.S. GAAP being \$131 million higher than under Canadian GAAP. The resulting difference is assigned to goodwill. Commencing January 1, 2002, rather than being systematically amortized, the carrying value of goodwill is periodically tested for impairment.

(e) Income taxes

Periods ended March 31 (millions)	Three months	
	2010	2009
Current	\$ 68	\$ 68
Deferred	25	(20)
	93	48
Investment Tax Credits	(1)	(1)
	\$ 92	\$ 47

The Company's income tax expense, for U.S. GAAP purposes, differs from that calculated by applying statutory rates for the following reasons:

Three-month periods ended March 31 (\$ in millions)	2010		2009	
Basic blended federal and provincial tax at statutory income tax rates	\$ 98	28.9%	\$ 107	30.3%
Revaluation of deferred income tax liability to reflect future statutory income tax rates	(5)		(20)	
Tax rate differential on, and consequential adjustments from, reassessment of prior year tax issues	(1)		(40)	
Share option award compensation	1		1	
Investment Tax Credits, net of tax	(1)		(1)	
U.S. GAAP income tax expense	\$ 92	27.0%	\$ 47	13.3%

The Company must make significant estimates in respect of the composition of its deferred income tax asset and deferred income tax liability. The operations of the Company are complex, and related tax interpretations, regulations and legislation are continually changing. As a result, there are usually some tax matters in question.

(f) Comprehensive income (loss)

U.S. GAAP requires that a statement of comprehensive income be displayed with the same prominence as other financial statements. Comprehensive income, which incorporates net income, includes all changes in equity during a period except those resulting from investments by and distributions to owners.

Three-month periods ended March 31 (millions)	2010			2009		
	Canadian GAAP other comprehensive income (loss)	Pension and other benefit plans	U.S. GAAP other comprehensive income (loss)	Canadian GAAP other comprehensive income (loss)	Pension and other benefit plans	U.S. GAAP other comprehensive income (loss)
Amount arising	\$ 22	\$ 22	\$ 44	\$ 43	\$ 11	\$ 54
Income tax expense	6	4	10	13	2	15
Net	16	18	34	30	9	39
Accumulated other comprehensive income (loss), beginning of period	(72)	(829)	(901)	(130)	(390)	(520)
Accumulated other comprehensive income (loss), end of period	\$ (56)	\$ (811)	\$ (867)	\$ (100)	\$ (381)	\$ (481)

(g) Accounting policy developments

Accounting for transfers of financial assets and consolidation of variable interest entities: Under U.S. GAAP, for interim and annual reporting effective with its 2010 fiscal year, the Company is required to comply with amended standards in respect of transfers of financial assets and variable interest entities, as prescribed by Accounting Standards Codification topic 860, *Transfers and Servicing* and Accounting Standards Codification topic 810, *Consolidation*. Earlier application was prohibited. The Company's current accounting policies and practices are not affected by the provisions of these topics.

Recently issued accounting standards not yet implemented: As would affect the Company, there are no U.S. accounting standards currently issued and not yet implemented that would differ from Canadian accounting standards currently issued and not yet implemented.
