Outstanding shares at end of period (M) ^(B)	1,278	1,272	1,209	1,204	1,203	1,202	1,278	1,209
Basic weighted average shares outstanding (M) ^(B)	1,278	1,248	1,209	1,204	1,203	1,201	1,263	1,204
Total customer connections (000s) ^{(C)(D)}	15,411	15,270	15,166	14,500	14,254	14,057	15,411	15,166

^(A)Adjusted Net income and Adjusted EPS excludes the effects of restructuring and other costs, income tax-related adjustments, lease-up period and other equity losses related to real estate joint ventures, long-term debt prepayment premium and a gain on a retirement of a provision arising from business acquisition-related written put options within TELUS International (TI). Q2 2019 income tax-related adjustments include \$121 million from the revaluation of our deferred income tax liability for the multi-year reduction in the Alberta provincial corporate tax rate that was substantively enacted in the second quarter of 2019.

^(B)All information pertaining to shares and per-share amounts for periods before March 17, 2020 reflects retrospective treatment of our 2 for 1 share split.

Total Customer Connections (000s) ^{(C)(D)}

^(C)Customer Connections may not balance due to rounding alignment to YTD figures. Effective April 1, 2018 and on a prospective basis, we adjusted Wireline cumulative subscriber connections to remove approximately 68,000 TELUS TV subscribers as we ceased marketing our Satellite TV product. In addition, the fourth quarter of 2018 opening mobile phone subscriber connections have been adjusted to exclude an estimated 23,000 subscribers impacted by the CRTC's final pro-rating ruling in June 2018, which was effective October 1, 2018. As well, during the first quarter of 2019, we adjusted internet and total wireline cumulative subscriber connections to add approximately 16,000 subscribers from acquisitions undertaken during the quarter.

^(D)Effective for the third quarter of 2019, with retrospective application to the launch of TELUS branded security services at the beginning of Q3 2018, we have added security subscriber connections to our total subscriber connections. December 31, 2019 security subscriber connections have been increased to include approximately 490,000 subscribers related to our acquisition of ADT Canada (acquired on November 5, 2019).

^(A)Adjusted EBITDA for all periods excludes restructuring and other costs. Adjusted EBITDA for the second quarter of 2020 and first six months of 2020 excludes a retirement of a provision arising from business acquisition-related written put options within TI, as well as lease-up period and other equity losses related to real estate joint ventures.

^(B)Adjusted EBITDA margin is Adjusted EBITDA divided by Operating revenues, where the calculation of Operating revenues excludes lease-up period and other equity losses related to real estate joint ventures and retirement of a provision arising from business acquisition-related written put options within TI.

^(C)Periods prior to 2019 have not been adjusted for adoption of IFRS16, accordingly, they are not comparable to 2019 and 2020 results.

^(B)Effective January 1, 2020 on a prospective basis, as a result of subscribers substantially loaded prior to 2019 and were identified as having limited or no cellular voice capability through an in-depth review of our mobile phone subscriber base, we made an adjustment to transfer approximately 60,000 mobile phone subscribers to our mobile connected devices subscriber base.

Mobile Phone Subscribers (000s)^{(B)(C)}

^(C)Fourth quarter of 2018 opening mobile phone subscriber connections have been adjusted to exclude an estimated 23,000 subscribers impacted by the CRTC's final prorating ruling in June 2018, as well as associated Q4 operating statistics (ARPU, ABPU and churn), which was effective October 1, 2018. In addition, Q2 2018 and Q4 2018 mobile phones were adjusted to reflect an adjustment for temporary subscribers in connected devices, instead of mobile phones. All associated Q2, Q3 and Q4 2018 operating statistics were also updated.

TELUS TV subscribers (000s)^(C)

^(C)Effective April 1, 2018 and on a prospective basis, we have adjusted cumulative subscriber connections to remove approximately 68,000 TELUS TV subscribers as we have ceased marketing our Satellite TV product.

Non-GAAP measures and definitions of key operating indicators

¹ **Return on common equity** is Net income attributed to equity shares for a 12-month trailing period, divided by the average Common equity for the 12-month period.

² **EBITDA interest coverage ratio** is defined as EBITDA (excluding restructuring and other costs), divided by net interest cost. Net interest cost is defined as financing costs, net of capitalized long-term debt interest, excluding employee defined benefit plans net interest, as well as recoveries on redemption and repayment of debt, calculated on a 12-month trailing basis. Any losses recorded on the redemption of debt are included in net interest. This measure is similar to the coverage ratio covenant in TELUS' credit facilities.

³ **Free cash flow** is a supplementary indicator of our operating performance, and there is no generally accepted industry definition of free cash flow. It should not be considered an alternative to the measures in the Consolidated statements of cash flows. Free cash flow excludes certain working capital changes (such as trade receivables and trade payables), proceeds from divested assets and other sources and uses of cash, as found in the Consolidated statements of cash flows. It provides an indication of how much cash generated by operations is available after capital expenditures (excluding purchases of spectrum licences) that may be used to, among other things, pay dividends, repay debt, purchase shares or make other investments. We exclude impacts of accounting changes that do not impact cash, such as IFRS 15 and IFRS 16. Free cash flow may be supplemented from time to time by proceeds from divested assets or financing activities.

⁴ **Net debt** is defined as Long-term Debt (including current maturities of long-term debt) plus debt issue costs netted against long-term debt, Short-term borrowings and Accumulated other comprehensive income amounts arising from financial instruments used to manage interest rate and currency risks associated with U.S. dollar-denominated long-term debt (excluding tax effects), less Cash and temporary investments and net derivative assets.

⁵ **Net debt to EBITDA excluding restructuring and other costs** is defined as Net debt as at the end of the period divided by the 12-month trailing EBITDA excluding restructuring and other costs. Historically, Net debt to EBITDA excluding restructuring and other costs is similar to the Leverage Ratio covenant in TELUS' credit facilities.

⁶ **Capital expenditure intensity** is defined as capital expenditures (excluding spectrum licences and non-monetary transactions) as a percentage of total operating revenues.

⁷ **Mobile phone Average billing per subscriber per month (ABPU)** is calculated as network revenue derived from monthly service plan, roaming and usage charges, as well as monthly re-payments of the outstanding device balance owing from customers on contract; divided by the average number of mobile phone subscribers on the network during the period and is expressed as a rate per month.

⁸ **Mobile phone Average revenue per subscriber per month (ARPU)** for mobile phone subscribers is calculated as Network revenue derived from monthly service plan, roaming and usage charges; divided by the average number of mobile phone subscribers on the network during the period and is expressed as a rate per month.

⁹ **Churn** is calculated as the number of subscribers deactivated during a given period divided by the average number of subscribers on the network during the period, and is expressed as a rate per month. Mobile phone churn refers to the aggregate average of both prepaid and postpaid mobile phone churn. A TELUS, Koodo or Public Mobile brand prepaid mobile phone subscriber is deactivated when the subscriber has no usage for 90 days following expiry of the prepaid credits.
