

ITEM
370 **AltaNet 200/300 Service (Note 1)**

ITEM
370.1 **Service Description**

AltaNet 200/300 service provides for point to point multi-point or multi-drop synchronous digital transmission of data between designated service locations by means of Interexchange Facilities.

This service is forborne from regulation, pursuant to Telecom Decision CRTC 97-20, when it is provided over the cross-sections identified in Note 2.

ITEM
370.2 **Definitions**

For the purposes of this Tariff Item:

"Access Loop" provides for four wire digital local loop Facilities from the Customer's premise to the serving Central Office within the AltaNet 200/300 serving area.

"AltaNet Serving Area" is an exchange established by TCI between which AltaNet 200/300 Service shall be provided.

"Channel" provides the digital Facilities between one exchange area (Distant Exchange) to another exchange area (Normal Exchange) by means of Interexchange Facilities.

"Digital Bridge" means the Central Office equipment required to interconnect a multi-point or multi-drop circuit.

"DSU-A Datasets" (DSU-A) the dataset or modem normally provided at the Customer's premise, or in special circumstances may be provided in the Central Office.

"Link" provides the Central Office equipment required to interconnect an access with the channel interexchange Facilities.

ITEM

370.3 **Conditions of Service**

1. TCI shall determine the AltaNet serving areas between which AltaNet 200/300 Service shall be provided.
2. AltaNet 200/300 Service is only provided between AltaNet Serving Areas subject to the availability of necessary Facilities and equipment.
3. AltaNet 200/300 Service provides for network to network connection.
4. AltaNet 200/300 Service is provided in two (2) service categories:
 - a. AltaNet 200 supports synchronous data speeds of 2.4, 4.8, 9.6, and 19.2 kilobits utilizing an RS232C interface.
 - b. AltaNet 300 supports synchronous data speeds of 56 kilobits utilizing a V.35 interface (Note 1).
5. AltaNet 200/300 Service shall permit Customers to connect to Digital Network Access General Tariff CRTC 21461, Item 500, or Managed Digital Private Line (MDPL) Service CRTC 18001, Item 707. C
|
6. Total AltaNet 200/300 rates are the sum of the charges for access loop, Interexchange channel, Digital Bridge, DSU-A, and Link for each Serving Area, as applicable.
7. The Customer is solely responsible for the installation, operation and maintenance of the Customer provided equipment.
8. Customer terminal equipment connected to TCI's network must be certified or connected through a certified network protection device in accordance with TCI's terminal attachment standards (General Tariff CRTC 18001, Item 110). |
9. AltaNet 200 Service is offered on a monthly basis, two (2) year or three (3) year minimum contract period with termination charges applying under the terms as specified in the AltaNet 200 Customer contract.
