

ITEM
200**Bulk Transfer of a Customer Base Between Interexchange Carriers (IXCs) with Trunk Side Access**ITEM
200.1**Service Description**

This service is intended for situations such as acquisitions or mergers in which one IXC with Trunk Side Access (the Acquiring IXC) acquires the equal access customer base of another IXC (the Original IXC). An Acquiring IXC can request the Company to convert the customer PIC selections from the Original IXC to the Acquiring IXC on a bulk transfer basis. Prior to the processing of such a bulk customer base transfer by the Company, the Acquiring IXC must provide the Company with documentation of the Original IXC's agreement to the bulk transfer of its customer base.

ITEM
200.2**Conditions of Service**

1. An Acquiring IXC requesting a bulk transfer of another IXC's customer base must provide the Company with advance notice of such a request. Depending upon the size and nature of the customer base to be transferred, the specific timing of the transfer may be subject to negotiation with the Company.
2. Charges for processing a request for a bulk transfer of another IXC's customer base are assessed to the Acquiring IXC. The charges, as specified in Item 200.3, consist of two components, a basic charge per request and a transaction charge per access line PIC selection transferred.

ITEM
200.3**Rates**

	Alberta Charge	B.C. Charge
1. Basic charge – per request	\$ 6,514.14	\$ 6,471.36
2. Transaction charge – per access line	1.72 §	2.23 §
