

TELUS Health hardware services program

At TELUS Health, we make it easier for you to pick computers and peripherals for your EMR and clinic. In addition to providing you with technology that is compatible with your EMR, we work with reputable manufacturers to offer you support and competitive rates, from installation to on-going maintenance.

Easy-to-reach assistance.

Need **technical support**? Our friendly, tech-savvy team will be able to respond quickly to your needs by phone, or in the clinic itself if your problem requires on-site presence.

A single number, whatever the need.

We help make your life easier. Whether your request is related to your EMR or technical equipment, support is a **single telephone number away**.

Unparalleled experience.

We know EMRs. This is why we are able to offer a range of **products addressing your particular reality** for your specific computer requirements.

Solutions that carry weight.

Our solutions comply with the uncompromising **security standards** of the Quebec MSSS **Direction générale des technologies de l'information (DGTI)**.

Want peace of mind? Let's talk.

Let the TELUS Health team evaluate your hardware at absolutely no cost. Upon request, a technician will visit your clinic to inventory your equipment and provide a detailed report to help you make an informed decision.
