No. SIA-1f

Provincial 9-1-1 Service (P9-1-1) – BC TEL

Stentor, on behalf of BC TEL, announces the planned introduction of a new Provincial 9-1-1 Service platform. Commercial introduction is expected by IIIQ98. The Company plans to replace the city-specific 9-1-1 systems over a period of three years following introduction of the new platform.

The Company's Provincial 9-1-1 (P9-1-1) Service delivers details regarding the origin of an emergency call to the emergency reporting location. Details such as time and date, calling line number and street address can be received from the network by the terminal equipment at the emergency bureau.

Compatibility Impact:

The interfaces are similar to those disclosed previously for 9-1-1 services in TAPAC Bulletins 93-01, 93-03, 94-09, 94-12, 95-06.

Documentation:

The interface specifications are contained in Stentor document ID-0029, BC TEL Terminal-to-Network Interfaces for Provincial 9-1-1 (P9-1-1) Service. Hard copies of ID-0029 can be obtained for \$65.00 each. Hard copies of ID-0035 can be obtained for \$65.00 each. The document can also be downloaded from the web at <http://www.stentor.ca/disclosure> at a reduced price. Please note that prices are subject to change without notice.

Hard copies of the documents can be obtained from:
