Caution regarding forward-looking information

Today's discussion may contain forward-looking statements, including statements relating to our objectives and our strategies to achieve those objectives, and our expectations regarding trends in the industry. Forward-looking statements are typically identified by the words assumption, goal, guidance, objective, outlook, strategy, target and other similar expressions, or verbs such as aim, anticipate, believe, could, expect, intend, may, plan, predict, seek, should, strive and will. Forward-looking statements are subject to inherent risks and uncertainties and are based on assumptions, including assumptions about future economic conditions and courses of action. These assumptions may ultimately prove to have been inaccurate and, as a result, our actual results or other events may differ materially from expectations expressed today. These risks and assumptions underlying our forward-looking statements are described in additional detail in Section 9 General trends, outlook and assumptions, and regulatory developments and proceedings and Section 10 Risks and risk management in TELUS' 2024 annual management's discussion and analysis (MD&A), as updated in our third quarter 2025 MD&A, and in other TELUS public disclosure documents and filings with securities commissions in Canada (on SEDAR+ at sedarplus.ca) and in the United States (on EDGAR at sec.gov). We disclaim any intention or obligation to update or revise any forward-looking statements except as required by law.
