Hot Line Service

ITEM

512.1

Service Description

Hot Line Service provides an automatic connection between two pre-determined customer locations, upon removal of the telephone handset at the originating location.

"Hot Line Service" is available in two service options in each province:

Available in Alberta and B.C.:

"Automatic Dial (Alberta)/Off-Hook Service (B.C.)" provides a local exchange circuit equipped to automatically dial a customer's predetermined telephone number, (local or long distance).

Available in Alberta:

"Automatic Connect" provides a dedicated point-to-point telecommunications circuit equipped with a ringdown module which automatically connects the circuit directly to the customer's premises.

Available in B.C.:

"Private Line Service - Automatic Ringdown" provides automatic signaling through a point-to-point connection between a station instrument in one location and a station instrument in another location.
