

Increased Capacity Limited Slip Differential

Toyota Vitz RS (NCP91/131)
Honda Fit RS (GE8)

C Size

Cusco presents: larger internal capacity limited slip differentials for the Toyota Vitz & Honda Fit!

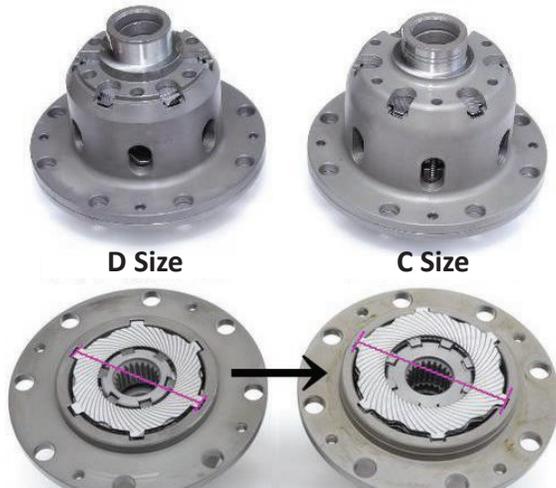

The previous LSDs were equipped with a smaller D Size clutch plate internals however due to popular demand, it were redesigned with larger C Size internals. The external dimensions remain the same, so existing bearings may be used and installed into the factory MT transmission casing with no issues. The larger surface area the clutch plates, the larger the locking characteristics which is more suited for high horsepower setups and race compound tires.
