

Allstar Homecharge: Compatible Chargers & Apps

Standard compatible chargers & apps

Allstar Homecharge supports a wide range of charger makes and models. To ensure accurate and consistent charging data, we integrate directly with selected home charger apps. Using a compatible charger and app ensures reliable charge session data.

A home charger app is the smartphone application that connects your charger to your vehicle. If your charger's app isn't listed, please contact our support team for assistance.

Charger Make	Charger Model	Home Charger App
