Experience the  
exceptional  
benefits of ozone  
purification & 100%  
Dead Sea minerals  
in your pool.

## HOW MINERAL SWIM PURIFICATION WORKS

### OZONE-TO-OXYGEN PURIFICATION

Ozone purification is 3,000 times more powerful than traditional water purification, reducing chlorine requirement by up to 80%, leaving you with clear, clean and odour free pool water. Ozone instantly neutralises any organic contaminant and converts it into oxygen before the water hits your pool. Ozone purified water is noticeably softer, safer and hygienic.

### 100% DEAD SEA MINERALS

For thousands of years, the Dead Sea has attracted visitors from around the world, searching to renew their skin's vitality and youthfulness with the mineral-rich deposits along its shores. The high mineral content, low concentration of pollens, allergens and UV rays, plus high atmospheric pressure, make the Dead Sea the epicentre for health research and treatment. Now you can experience the wonderful benefits of the Dead Sea in your own pool with Maytronics Mineral Swim 100% Dead Sea Minerals.

## HEALTH & WELLBEING BENEFITS

Say goodbye to the smell of chlorine, red eyes, and dry skin, often associated with traditional chlorine or salt swimming pools. Convert to a Mineral Swim pool to recreate the relaxing, health benefits of natural, magnesium-rich water, which people have enjoyed for centuries at the Dead Sea.

Mineral Swim mineral purification system – designed and made in Australia, for Australian pools – combines the latest in Ozone purification, mineral chlorination and 100% natural Dead Sea Minerals for crystal clear, healthy and therapeutic pool water.

- ✓ Safe for allergy, asthma & eczema sufferers
- ✓ Odour-free
- ✓ Soft on skin, gentle on eyes
- ✓ Compatible with any existing pool system
- ✓ Stimulates hydration
- ✓ Relaxes muscles
- ✓ Detoxifies & regenerates the skin
- ✓ Crystal clear water

THE NEW BENCHMARK IN  
**ENVIRONMENTAL SUSTAINABILITY**  
FOR SWIMMING POOLS & SPAS

# ENVIRONMENTAL BENEFITS

## CLIMATE CARE CERTIFIED

Mineral Swim is proud to be Climate Care Certified by the Swimming Pool and Spa Association of Australia (SPASA) measuring water and energy efficiency, this is the benchmark in environmental sustainability for swimming pools.

## REDUCES WATER WASTAGE

Magnesium is an efficient flocculant which improves water clarity and can reduce the need for backwashing. With less chemicals in Mineral Swim pool water, it can be diluted and reused for garden irrigation to save water.

## REDUCES MAINTENANCE COSTS

A Mineral Swim pool uses less harsh chemicals which prolongs the life of your pool equipment and saves costly replacements, repairs and maintenance.

“ The water feels so silky and hydrating to our skin and it’s so great not having to shower after swimming. My hubby says it’s like diving into a bottle of San Pellegrino. ”

Georgia Harding, Well Nourished

“ We love it! Our pool water has never been so crystal clear, you can see straight to the bottom like there isn’t even water in the pool! Our children suffer with really sensitive skin and since installing the Dead Sea Minerals with Ozone we have noticed the water is really gentle and has reduced any skin flare ups. I would highly recommend Mineral Swim. ”

Katie, Mineral Swim Pool Owner, NSW

## Trusted by companies. Loved by swimmers!

The Mineral Swim system has been approved by SPASA, appeared on The Block, Healthy Homes and Three Birds Renovations.

# EXCEPTIONAL EXPERIENCE, ULTIMATE INNOVATION

## MINERAL SWIM PRO SERIES

The Mineral Swim PRO Series is perfect for new pools or to replace existing equipment. Available in three models to cater for domestic pool sizes, it is a dual ozone purification and mineral chlorinator combined, so there is no need to install any additional chlorinator.

## MINERAL SWIM O<sub>3</sub> SERIES

Mineral Swim is compatible with any existing pool system. The O<sub>3</sub> series can be used for pools up to 120,000 litres and can be added to any existing salt/mineral chlorinator. Simply install and add Mineral Swim Dead Sea minerals, to convert your pool into a Mineral Swim pool in less than an hour!
