DUAL PURIFICATION

Healthy mineral-rich
pool water

Ozone-to-oxygen
purification

Mineral Swim is approved by

maytronics mineralSwim™

“ It is a product that I would swear by using 120%, as it provides great feeling skin after a soak, leaves you relaxed and calm and finally, you don't feel like you need a shower after you swim.”

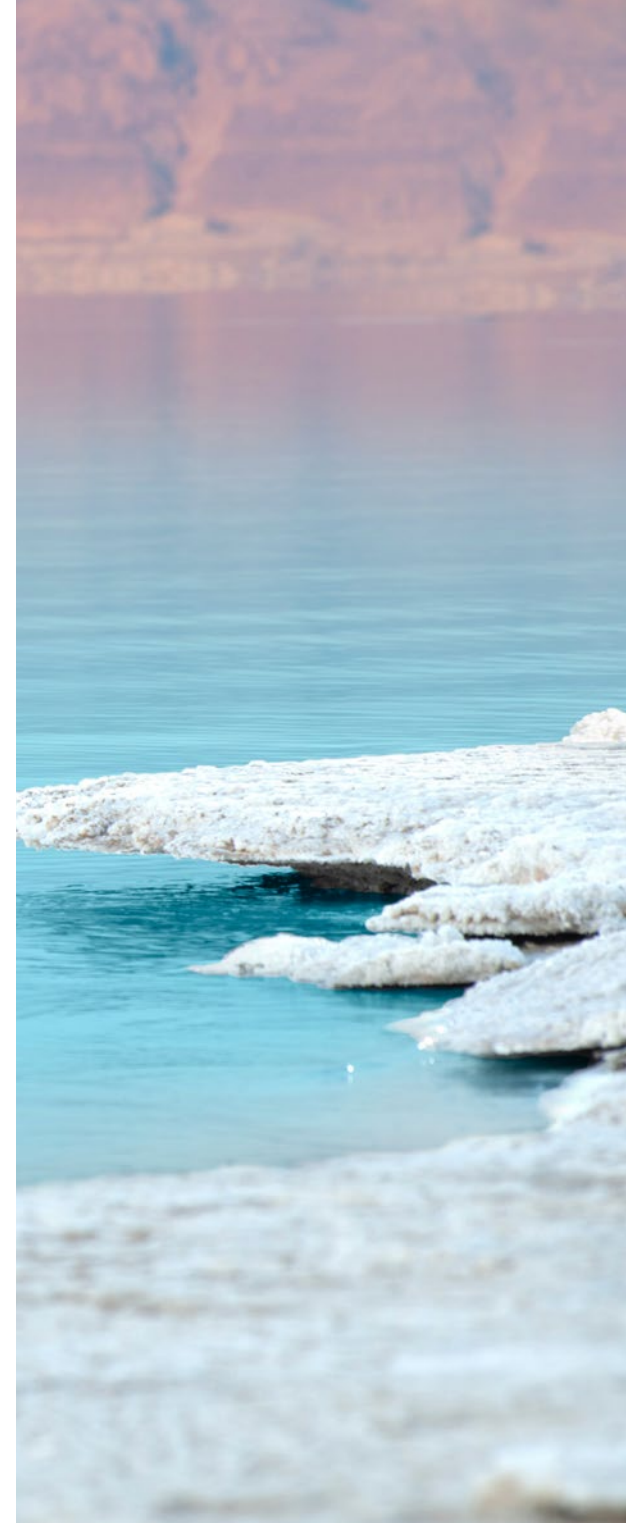

Dave Franklin, Franklin Pools

THE MINERAL SWIM EXPERIENCE

Say goodbye to the strong smell of chlorine, red stinging eyes and tight, dry skin. A **Mineral Swim™** pool can make your whole body feel relaxed and rejuvenated after every swim! With **Mineral Swim™** you can recreate the relaxing, healthy magnesium mineral water experience that people have enjoyed for thousands of years at the Dead Sea.

The **Maytronics Mineral Swim® Purification System** – designed specifically for Australian pools – combines **100% Dead Sea magnesium-rich minerals with natural ozone-to-oxygen water purification technology** to create crystal clear, healthy, and therapeutic swimming pool water.

- ✓ Safe water purification
- ✓ Odour-free
- ✓ Soft on skin, gentle on eyes
- ✓ Compatible with any existing pool system
- ✓ Stimulates hydration
- ✓ Relaxes muscles
- ✓ Detoxifies and regenerates the skin
- ✓ Crystal clear water

“ The water feels so silky and hydrating to our skin and it’s so great not having to shower after swimming. My hubby says it’s like diving into a bottle of San Pellegrino.”

Georgia Harding, Well Nourished

HEALTH & WELLBEING BENEFITS

SAFE FOR ALLERGY, ASTHMA & ECZEMA SUFFERERS

If asthma, allergies and skin conditions are a problem in your home, then the **Mineral Swim™** system can help prevent flare-ups. Natural ozone purification combined with Dead Sea minerals reduces the need for harsh levels of chlorine and chemicals which can cause irritation and skin problems.

SOOTHES & RELAXES MUSCLES

Jump into a **Mineral Swim™** pool to help absorb magnesium into your muscles. Magnesium is renowned for helping with arthritis, mobility, leg cramps and muscle pain. Your muscles will feel soothed and relaxed after every swim. A **Mineral Swim™** pool is perfect after strenuous exercise or a long working day.

SOFT ON SKIN, GENTLE ON EYES

Magnesium softens and enhances water quality making it much gentler than traditional salt and chlorine pools, which is ideal for sensitive skin. Eyes will experience less irritation and redness. Hair will feel less dry and brittle, and skin will feel less dry and tight. You won't have that chlorine smell or sticky coating you feel from a chlorinated or salt-water pool, so you won't feel the instant need to wash your swimwear or shower afterwards.

THE NEW BENCHMARK IN
ENVIRONMENTAL SUSTAINABILITY
FOR SWIMMING POOLS & SPAS

ENVIRONMENTAL BENEFITS

CLIMATE CARE CERTIFIED

Mineral Swim™ is proud to be Climate Care Certified, a new efficiency and sustainability initiative of the Swimming Pool and Spa Association of Australia (SPASA). A Climate Care Certified product is a benchmark for swimming pools which utilises:

- + Water efficiency/sustainability
- + Energy efficiency
- + Noise reduction measures
- + Environmentally sustainable designs
- + Efficiency/sustainability innovations

REDUCE WATER WASTAGE

Magnesium is an efficient flocculant which increases water clarity and can reduce the need for backwashing. With less harsh chemicals in the water the **Mineral Swim™** pool water can be diluted and reused for garden irrigation, saving water, and reducing the amount of chemicals going down the drain.

REDUCE MAINTENANCE COSTS & INCREASE EQUIPMENT LIFE

With less harsh chemicals found than in traditional chlorinated or salt swimming pools, your pool investment will last much longer. Saving you money on costly replacements of pool filters, pipes, and tiles.

Ozone purified water is noticeably softer and gentle on sensitive eyes and skin – perfect for allergy sufferers, but still effective at destroying pathogens!

- 5 Injector
- 6 Chlorinator Cell
- 7 Ozone Venturi

3000x
MORE POWERFUL

80%<
LESS CHLORINE

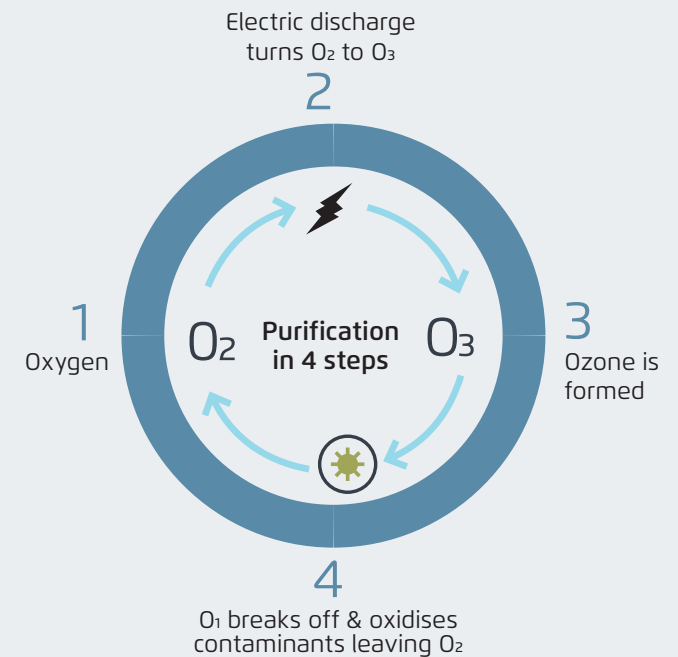

HOW MINERAL SWIM™ PURIFICATION WORKS

OZONE-TO-OXYGEN PURIFICATION

The **Mineral Swim™ PRO** control unit produces Ozone which is 3,000 times more powerful than traditional water purification systems, reducing chlorine requirement by up to 80%, leaving you with clear, clean and odour free pool water. Ozone instantly neutralises any organic contaminant and converts it into oxygen before the water hits your pool. Ozone-to-oxygen sanitation is the smart environmentally-friendly choice for swimming pools.

NATURAL MINERAL SANITISER

Recreate the relaxing, healthy magnesium mineral water experience that people have enjoyed for thousands of years at the Dead Sea. Create a unique swimming experience in your backyard with just one ingredient – magnesium rich Dead Sea minerals. The flocculent effect of the magnesium clarifies the water. The magnesium will help with skin hydration and conditions such as psoriasis and eczema, leaving your skin feeling rejuvenated.

“ We love it! Our pool water has never been so crystal clear, you can see straight to the bottom like there isn't even water in the pool! Our children suffer with really sensitive skin and since installing the Dead Sea Minerals with Ozone we have noticed the water is really gentle and has reduced any skin flare ups. I would highly recommend Mineral Swim.”

Katie, Mineral Swim Pool Owner, NSW

INSTALLATION

CONVERT YOUR POOL IN LESS THAN AN HOUR

Compatible with any existing pool sanitation system. The **Mineral Swim™ O₃ Series** can simply be added to your existing mineral/salt chlorinator.

The **Mineral Swim™ PRO** Series is available in 3 different models tailored for small, medium, or large pools. The **PRO Series** can replace any existing pool sanitation equipment, as it combines a mineral chlorinator and dual ozone purification into one control unit. Simply choose the control unit suitable for the size of your pool & add Mineral Swim Dead Sea Minerals to convert your pool to a Mineral Swim Pool.

MAKE YOUR NEW POOL A MINERAL SWIM™ POOL

Invest in a **Mineral Swim™** pool for a lifetime of benefits. Maytronics recommends using a **Maytronics certified Elite Builder** to install the very best new build pool package with the latest in pool optimisation, innovation, energy savings and high-quality products supplied by Maytronics.

Find your nearest Elite Pool Builder at maytronics.com.au/elite-builder.
