Fitwel Mental Health First Aid Responder Training Protocol

Fitwel Mental Health First Aid Responder Training Protocol

This document provides project teams with a list of the required elements that must be included in a mental health first aid responder training protocol. Project teams can either use this document as a guide to establish and implement a qualifying protocol or highlight the required sections in existing policies or protocols.

A qualifying protocol for mental health first aid must include the following:

1 .	Imp	lementation

when implementing the protocol in multi-tenant commercial buildings, the protocol must apply to al full-time employees of the areas under the control of the building management.
when implementing the protocol in residential buildings, the protocol must apply to all full-time employees of the areas under control of the building management, and all residents.
when implementing the protocol in single tenant buildings and commercial interior spaces, the protocol must apply to all full-time employees of tenant spaces.

2. Execution

Requires execution in the event of a contagious disease outbreak, as defined by the national, regional, and/or local public health authority.

3. Training Requirements

Requires a description of mental health first aid training that meets the following guidelines:

- delivered by a certified mental health professional.
 educates trainees on how to identify, understand and respond to signs of mental health issues, for example:
 - anxiety
 - acute stress disorders
 - depression
 - substance use disorders
 - suicidality or self-harm
 - abuse or neglect.
- ☐ educates trainees on de-escalation techniques.

4. Training Accessibility

Requires that training is:

- \square available to applicable occupants upon request.
- ☐ delivered to:
 - the contagious disease response task force
 - at least one individual for every 100 applicable occupants, including task force members.
