## NORESKO WINS TWO 2021 Fitwel Best in Building Health® Awards

NORESKO was recognized by The Center for Active Design as the consultant with the **Greatest Number of Certifications in 2020** and the consultant with the **Greatest Impact on Building Health** for the highest square footage certified through our work with RXR Realty.

Created and run by the The Center for Active Design, this recognition program identifies firms enhancing human health via Fitwel®. This year's winners were identified based on Fitwel's 2020 project data and presented on March 25 at a virtual awards ceremony.

Congratulations to the [2021 winners of the Fitwel Best in Building Health Awards®](#) and thank you to the clients who entrusted us with this meaningful work!

Fitwel Certifications can be achieved for a single building or a large portfolio, and take **as little as 12 weeks** from start to finish. NORESKO has a team of Fitwel Ambassadors and certification experts to help you get started and guide you through each step of the process.

You can use Fitwel certification to:

- Demonstrate to building occupants and others that your company prioritizes wellness in the design, development, and operations of your buildings
- Learn more about and incorporate the best strategies that science currently has to offer to optimize health within your building or community
- Help improve the health of your building occupants and contribute to the wellness of your environment
- Participate in the next frontier of sustainability

Fitwel is the world's leading certification system committed to building health for all®. Fitwel was originally created by the U.S. Centers for Disease Control (CDC) and Prevention and U.S. General Services Administration. The CDC remains the research and evaluation partner for Fitwel. The Center for Active Design, a global not-for-profit organization, was selected as the licensed operator of Fitwel, charged with expanding Fitwel to the global market.
