

Digital upskilling tailored for risk, compliance and internal audit professionals

The challenge

The pandemic has accelerated the rate of technology transformation as organizations have shifted to remote work.

46%

of Chief Risk Officers see this transformation as an opportunity to upskill their existing workforce on emerging digital technologies

Our solution

ProEdge is the first end-to-end upskilling and citizen-led innovation platform.

ProEdge helps risk, compliance and internal audit professionals accelerate their upskilling journeys by using customized learning pathways, and keeps these teams competitive by providing their people with a platform to scale their new skills across the entire organization.

ProEdge can help you create a culture of continuous learning and empowers your people and your organization to reach their potential.

Accelerate time to value

ProEdge identifies skill gaps and creates learning paths targeted to an individual's skills to get your people started on their innovation journeys.

Increase your learning investment

ProEdge challenges your people with curated content, functionally relevant experiences, and industry-recognized credentials that tap into the science of learning to maximize skill development.

Scale innovation

ProEdge creates a culture of citizen-led innovation, including a marketplace for your digital assets, pre-populated PwC-created digital tools, and an ideation hub.

ProEdge is a journey

Upskilling can feel overwhelming. ProEdge can guide you every step of the way.

100k+

Articles, podcasts, videos and other learning assets

100+

credentials across 14 company functions

6,500+

digital skills courses, including 1,600 CPE-eligible courses

800+

pre-populated digital assets created by PwC

How ProEdge can deliver value to risk, compliance, and internal audit professionals

Building the foundation: Creating a digital-first mindset

Encourage a culture of continuous learning through...

- Over 100,000 curated, on-demand learning assets from industry-leading content providers
- More than 6,500 digital skills courses
- CPE credit-eligible courses across Accounting, Auditing, Tax, Fraud Analysis, Risk Management, Ethics and IT

Making it real: Function-specific experiences for risk, compliance, and internal audit teams

- You need experiential learning that evolves with the pace of the digital workplace. ProEdge offers engaging, function-specific experiences that help your people apply new skills quickly for immediate business impact.
- Learning is reinforced with a hands-on sandbox, where learners can engage with the digital tools and complete scenario-based capstone projects—all without the need for additional licenses and special implementations.
- With ProEdge, learners can gain insight from virtual instructors who review their capstone projects and provide feedback to help them fine-tune their abilities.
- Learners can earn portable credentials that can help grow their career opportunities. ProEdge credentials focus on the tasks ripe for digital disruption. Credential topics for the risk, compliance, and internal audit professional include:

- | | | |
|---|--|---|
| • Driving decisions with data insights | • Leading projects using Agile and Scrum | • Driving business value with artificial intelligence |
| • Optimizing tasks with robotics process automation (RPA) | • Solving problems with design thinking | • Creating and implementing a digital strategy |
| • Creating rule ruleset processes for monitoring transaction data | • Applying a continuous monitoring lifecycle | |
