

# Text Banking Commands

## Overview

Text Banking is a free service offered to all First Bank customers. With Text Banking you can check your balance, view recent transactions and even transfer funds with a single text.

Below is a list of available commands which can be used at any time to stay up to date with your finances. Commands are not case sensitive.

- |             |   |
|-------------|---|
| <b>HELP</b> | Texting HELP at any time will return a list of all available text commands.   |
| <b>BAL</b>  | Retrieve the available balance for all enrolled accounts. To request your available balance via Text Banking, simply type BAL [space] the last 4 digits of the account you wish to see the balance for.<br><b>Sample Text:</b> BAL 3465   |
| <b>BAL</b>  | Display the 5 most recent transactions for all enrolled accounts, listed with the last 4 digits of the account in question. To see your account history, type HIST [space] the last 4 digits of account you wish to see the transaction history for.<br><b>Sample Text:</b> HIST 3465                                       |
| <b>XFER</b> | Transfer funds from one First Bank account to another. To conduct a transfer via text banking, text XFER plus the last 4 digits of the transfer from account [space] the last 4 digits of transfer to account [space] the amount you wish to transfer, without the dollar sign.<br><b>Sample Text:</b> XFER 1243 3465 25.00 |
| <b>STOP</b> | Texting STOP at any time will suspend the Text Banking service entirely for your accounts.  |
